GURNEY'S

1944 SEED & NURSERY BOOK AND SPRING CATALOG

Gurney's 1944

BERRY COLLECTION Grow Your Own Fruit

With fruit getting harder to get, everyone needs a few small fruit bushes of their own to grow their own supplies. So we've fixed up a special bargain of the finest berries everyone wants that will give you lots of fruit in a hurry. All big plants. You get:

- 5 Latham Red Raspberry
- 5 Cumberland Black Raspberry

All for only **\$1.00**

FREE: 2 New Flare
Rhubarb with each
collection. (See picture
at right)

Introducing

RUDY

The New Purple Raspberry

Here's a new berry we're proud of and know you'll like. It's the new VERY HARDY purple raspberry—a cross between the red and black raspberry having the good qualities of both. This year it proved to be one of the HEAVIEST BEARING and HARDEST berries for this section. Ideal for canning. Price: 3 for 59c; 6 for 98c; 12 for \$1.79; 25 for \$3.25.

Gurney's

New Early HYBRID SWEET CORN

If you want corn quick (within 68 days) and want it large and 12 rowed and sweet and tender then plant this new hybrid of ours. It has everything we've tried beat a mile and we know you'll be "crazy" about it once you grow it. Extra large. Heavy yielder. And sweet and tender like all good hybrid corn. No. 178—Triple size pkt., 15c; 1/2 lb., 33c; 1 lb., 65c; 3 lbs., \$1.49, postpaid.

Gurney's

All Season Hybrid Sweet Corn Package

Here's the grand mixture of all the best new, tender big-yielding HYBRID SWEET CORNS—early, medium and late to give you sweet corn all season long. With this mixture, you can have roasting ears for weeks and weeks instead of all at one time and all with one planting. All the best hybrids. All yellow varieties. Order No. 173—Price: Triple Size Pkt., 14c; 1/2 lb., 23c; 1 lb., 45c; 3 lbs., \$1.15, postpaid.

Gurney's NEW BROADLEAF ELM HYBRID

Leaves Larger than
American
Elm

Grows Faster Than Chinese Elm

Combines Best Qualities of Both Trees

Here's America's coming tree. Not only does it grow straight but it has leaves like an American Elm, and it grows faster even than any of our Chinese Elm! Fastest growing shade tree you can set. Very hardy. Not even harmed by the Armistice day freeze in 1940. No doubt this was originally a cross between one of the American Elms and the Chinese Elm. We have grown this tree for over 10 years. It has proved perfectly hardy, has a fine form. It is a wonderful shade tree. ONLY LIMITED SUPPLY—Order Early!

5/6 ft., each, \$1.59; 2 for \$2.98. 6/8 ft., each, \$1.89; 2 for \$3.59. 3/10 ft., each, \$2.49; per 2, \$3.98.

Our Northern

APPLE BARGAIN

Despite the fruit tree shortage, we're making a real bargain on apples for you who want real hardy varieties and a selection to give you apples early, midseason and late. You get:

- 1 Yellow Transparent—Early summer.
- 1 Wealthy—Red striped, fall apple.
- 1 Whitney—Best crabapple.
- 1 Haralson—Hardest Winter keeper.

All for only **\$1.69**

FLARE

The New RED Rhubarb

Have Fruit in a Hurry!

Here's the new and better Rhubarb you hear so much talk about—the new FLARE. It has won its fame because it is extra bright red, extra juicy with an extra fine flavor. Ideal in color and flavor for pies and sauce. Extremely heavy bearer. If you want lots of fine fruit in a hurry, plant FLARE. Standard: 3 for 59c; 5 for 89c; 12 for \$1.89. Extra Heavy Plants: 3 for 74c; 5 for \$1.19; 12 for \$2.49.

EARLY GIANT

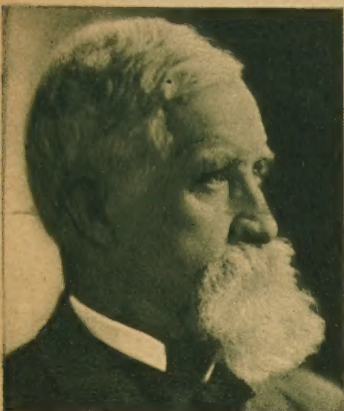

Our 1944 Gift to Tomato Lovers

If you've been looking for the perfect tomato (or close to it) stop here. We think this is going to take your garden by storm.

It's fairly large, with medium foliage—enough to protect the fruit—but its real merits are its EXTRA-HEAVY YIELD and its perfect quality fruits. The fruits are large, smooth, almost perfect globe shaped, have solid flesh of a bright scarlet color that DOESN'T CRACK. You'll think it's perfect. Supply of seed limited, so please order early. Price: Pkt., 15c; 1/2 oz., 50c, postpaid.

3 GENERATIONS in the Seed and Nursery Business

1st Generation

COL. C. W. GURNEY, Founder
1840-1913

2nd Generation

GEO. W. GURNEY
President and Manager

Dear Seed and Nursery Friends:
Another planting season is just around the corner. This year it is more important than ever that you plant and plant plenty.

Grocers' shelves are fast becoming empty. Point rationing will include more and more foods. If we keep our tables supplied we must plant more than ever before.

Here at Gurney's we've had a great growing season. Plenty of moisture—that means plenty of thrifty, healthy, well-grown nursery stock and seeds. Most of the more important are in good supply, but there may be some shortages later.

This year it's important that you order early. It will help both you and us. We've made plans to work day and night if necessary to get your orders out on time. Nursery stock will be shipped at right planting time. Look the catalog over carefully. You'll enjoy it. We have tried to make it instructive and helpful.

We want to serve you in the best possible manner.

Sincerely,
George W. Gurney.

P. S. Remember—this year order early, and write us a letter. We're always glad to hear from you.

3rd Generation

SIDNEY GURNEY
Office Manager

Yes, this is "Sid" Gurney, George's boy. He is the third generation of Gurneys in the seed business, but right now he isn't in the seed business as you can guess. He is in the Army Air Corps and, as this is being written, he is completing training at Ellington Field, Texas. Sid, who is to receive his wings on December 5th, has asked for bomber training and wants to be pilot of a bomber.

For **78** Years (3 Generations)

America's Foremost NORTHERN Seed and Nursery House

A View of Part of Gurney's Buildings—Seed & Nursery Headquarters for the Great Northwest

This picture gives you a general idea of how we look here at Gurney's, although it includes only a part of our buildings. This building is the one in which the main store, offices, and Radio Station WNAX are located. It also shows the field seed building and Hatchery. The importance to you lies in the

fact that these buildings house the very latest in equipment for cleaning, grading, packaging seeds and nursery stock, raised here in the great Northwest for you. Gurney's have been Seed headquarters for over 77 years because they have delivered you gardeners the finest quality seed in the world.

Gurney's — Home of NORTH-ERN-GROWN SEEDS and PLANTS

Hardy, northern-grown nursery stock that will survive through cold winters and dry summers is important to gardeners everywhere. That's why for over 77 years, gardeners have turned to Gurney's for hardy stock that they know will survive.

Located as we are in a climate that has severely cold winters and hot dry summers, stock grown here in our fields is bound to be more hardy, more satisfactory wherever planted. And this hardy stock costs you no more. This year, do better—buy from Gurney's.

Buy DIRECT and SAVE

Buying direct from a large grower and producer like Gurney's, you are bound to make savings. Buying direct cuts out hauling and dealer's profits and this saving is passed on to you in Gurney's low prices.

You get the benefit, also, of knowing that what you buy has been grown and handled by EXPERT SEED and NURSERYMEN and that you are getting exactly what you are paying for. That's important. It is disappointing to wait a year or more for something to grow and produce for you only to find that it isn't what you bought. This you avoid, buying direct from the grower.

24-HOUR SERVICE

When you send your garden seed, field seed or nursery or baby chick order, you want service and that's what we specialize in. Everything will go out to you the same day your order is received, if humanly possible. Everything, of course, but nursery stock and this is shipped when weather is correct for planting in your locality. Early nursery orders (and we hope you send them early) are booked, stock is reserved for you, and then shipped when your weather opens up for planting.

EASY TO ORDER

Buying direct by mail is the easy way to order. Study and look through the catalog. You'll find a lot of interest and a lot of good helps. Then simply list down what you need on the order blank enclosed and we'll do the rest. And remember, every variety listed in this catalog, is a selected, tested and approved variety. You take no chances on whatever you buy when you buy from Gurney's.

WE GROW OUR OWN STOCK

The picture above gives you a glimpse of one of our many acres of growing nursery stock. All around Yankton, we have field after field of nursery stock all growing under our direct supervision and handled by our own experts.

This way we KNOW what our stock is and are able to see that it has the best of care from the time it is planted until it is dug, ready for your gardens.

You are sure of better seeds and plants when you buy from Gurney's.

NURSERY STOCK INSPECTED

All our nursery stock carries a state inspection label certifying that our nursery stock is clean and free of disease and passes all state laws as to quality of nursery stock sold. This is another protection for you when you send your order to Gurney's. Don't be satisfied with ordinary stock. Get the best from Gurney's—it costs no more.

FAIR MEASURE

Fair measure and a little more has always been the motto at Gurney's. You'll find our packets of seed extra large and extra generous. On an average order of garden seed, this makes a big difference. You'll find you can always plant a bigger garden with Gurney's seeds than others.

We haven't much use for the silly little packets put out by some seedsmen. You can't even find the seed sometimes.

We're here to handle your seed business year after year and we intend to give you fair measure and a little more.

We have put this page here because we believe you would like to know about the company you are doing business with. We are proud of our years of service selling northern-grown seed and nursery stock and think you will be, too. We hope you enjoy this catalog and find lots of useful information. Everything listed in it is reliable and trustworthy, and you can count on it.

NOTICE! ABOUT FOOD RATIONING!

Food rationing is here, and without question more food will go on the ration list soon. This year it is more important than ever that you carry on the biggest food production program you have ever had. Higher point values on many fruits and vegetables are just around the corner. Whether or not you will have plenty of fruits and vegetables for your table may be a serious question UNLESS WE GROW OUR OWN.

If this isn't the year to put out a huge garden, and plant plenty of fruit trees and small fruits and raise a lot of chicks, there never was one.

The one way to make sure you have plenty to eat this coming year and help the nation at the same time, is to grow plenty of food of your own right in your own backyard.

This will help cut down the load on the nation's transportation system and, at the same time, supply you and your family with food that otherwise you MIGHT NOT BE ABLE TO GET.

But, since everyone will probably have the same idea, the demand for seeds and plants will be enormous this spring. FOR YOUR OWN PROTECTION—GET YOUR ORDER IN NOW. Make sure you will get the seeds and plants you need while there still are supplies. Already garden seed supplies in the nation are low and the demand is great. Protect yourself. Order now and raise the food you will need right in your own backyard.

FREE GIFTS for YOU!

If You Order Before April 1st

We always did believe in putting in a little something extra with your garden seed and nursery orders. This year, we're going to let you choose your own free gift if YOU ORDER BEFORE APRIL 1st. You must be sure to ask for it on your order.

FREE with Garden Seed Orders of \$1.00 or More, You May Choose:

1. Pkt. Oriental Giant Morning Glory—Great big, ruffled and fringed. All colors, or
2. Giant Pkt. California Giant Zinnias—All colors mixed, or
3. 2 Australia Gladiolus—A rare color in glads. Rich deep dark red.

With \$2.00 orders you may take any 2 gifts. With \$3.00 orders any 3, etc.

FREE with nursery orders of \$3.00 or more choose:

1. 1—Pink Shrub Honeysuckle
2. 1—Double Hollyhock
3. 1—Hardy Phlox
4. 10—Chinese Elm

With \$4.50 nursery orders or more, you may choose any two of the above free gifts.

Gurney's Strawberries

You Get Strong-Rooted Plants at Gurney's

There is a lot of difference between good strawberry plants and poor ones and you want to make absolutely certain that you do not spend your money for any but the best.

Some nurseries send out old plants that will not give results or weak, spindly rooted plants that just could not grow properly.

But here at Gurney's, where strawberries are a specialty, we absolutely guarantee that the strawberry plants you get will be:

1. **YOUNG PLANTS**—The vigorous kind with plenty of vigor to give you heavy crops.
2. **STRONG ROOTED**—Large root systems that go deep for food and moisture making stronger plants.
3. **FROM THE BEST STRAINS**—There are good strains and bad in strawberries like everything else. **OUR STRAWBERRIES ARE ONLY FROM THE BEST STRAINS.**

In addition, all plants are carefully inspected before shipping and then shipped to you in a separate, specially-ventilated package so they will reach you in absolutely perfect condition for planting.

Gurney's strawberries are superior in every way—**BUT COST YOU NO MORE.**

Only \$2.98 POSTPAID

BEAVER STRAWBERRIES

Firm—Good for Canning

Beaver is rapidly becoming one of the most popular of our strawberries.

Beaver has an extremely heavy yield, very early season, good color and excellent shipping qualities which partially account for its popularity.

BUT BEST OF ALL, Beaver is extremely firm and **RED CLEAR THROUGH**, which make it especially desirable for canning, for it will retain its beautiful coloring and shape in the can. You folks who can will appreciate this.

This is one berry you can't go wrong on, especially if you plan to put up many strawberries this year.

POSTPAID PRICES

Per 50 \$1.19	Per 100 \$1.95	Per 200 \$3.59	Per 500 \$8.29
------------------	-------------------	-------------------	-------------------

Not Prepaid: 1000 for \$14.45

How to Plant Strawberries

There is nothing difficult about planting strawberries if one simple precaution is taken during planting. That consists of making sure that the crown of the plant (where the leaves join the roots) comes just at the surface of the soil. The roots should be spread out well when planting and not doubled up in a small hole.

Usually in gardens, plants are set 2 ft. apart each way. In field planting 2 ft. apart in rows 3 ft. apart. This latter distance takes about 8000 plants for the acre. All varieties listed will be self-pollinizing—that is, they will bear even if no other varieties are planted nearby. Also, none of these varieties will mix with other varieties in your patch.

Everyone should have a strawberry patch even if it is no larger than a blanket. You'll be amazed at the amount of fruit you will get even off of a small space and it's of a quality you can't begin to get at the market. Then, too, this year, fruits and vegetables of all kinds will be hard to buy—**WE ALL MUST GROW OUR OWN.**

GURNEY'S NEW "HARDY"—A New, Better Everbearer

Best for Dakotas

This new strawberry has proved its worth by producing heavy crops of luscious, Big Sweet berries, even under the most adverse conditions. We believe this variety is here to stay and are convinced that **IT WILL TAKE THE LEAD** in the Everbearing field. Makes lots of runners, is **HARDY DROUTH RESISTANT, VIGOROUS, and PROLIFIC.** If you want Strawberries on and off all Summer plant Gurney's "HARDY."

POSTPAID PRICES			
Per 25	Per 50	Per 100	Per 200
\$2.49	\$3.98	\$7.50	\$13.95

WAYZATA

Everbearing Strawberry

New Summer Bearer

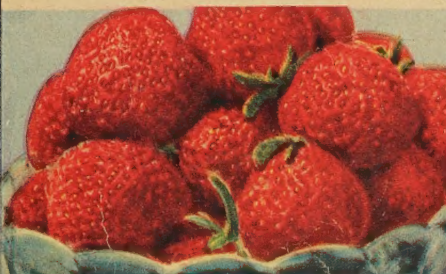

An All-Season Strawberry that has made August, September and October, the **BIG Season** for Strawberries in the North. It produces a heavy crop of big sweet, aromatic berries that are good shippers and **EXCELLENT** for canning or table. **WAYZATA** is unusually hardy, easy to cultivate, because it grows bush-like, and is remarkably free from disease. Berries are glossy dark red, beautiful.

The Heavy-Yielding GEM EVERBEARER

The Favorite Strawberry for Constant Bearing

We have grown and sold the "Gem" for many years. Throughout the drouth years, and from all sections of the Middle Northwest, reports have come back from customers saying, "We never saw a Strawberry that could beat the Gem . . . Most vigorous plant and heaviest bearer . . . Are the biggest, reddest, juiciest strawberries we ever grew." That's what others say and our experience bears it out. They "make" new plants stand drouth and bear lots of fruit all summer long. For Commercial Growers or Home Gardeners **GEM** is the **STRAWBERRY YOU WANT.**

POSTPAID PRICES			
Per 50	Per 100	Per 200	Per 500

Not Prepaid: 1000 for \$19.00			

RELIABLE DUNLAP

Sure, Heavy Crops

We probably can't tell you Strawberry Growers anything new about the **DUNLAP** because it is one of the old standbys that everyone knows, but let us remind you: The berries are a dark crimson, with deep red flesh of marvelous quality. The plants are healthy, vigorous, and very productive. They grow in all kinds of soil and in extremely cold climates. Wonderful variety for canning.

POSTPAID PRICES

Per 50 89c	Per 100 \$1.65	Per 200 \$2.98	Per 500 \$6.89
---------------	-------------------	-------------------	-------------------

Not Prepaid: 1000 for \$11.45

Premier

The Early Bearer

Premier is the top No. 1 Strawberry for this country. Premier is a fine early berry. It does well over a wide range of territory and on almost any soil. The berries are good average size, a medium red color and show up well in the package. It is firm enough to ship moderate distances and the quality is better than most. **POSTPAID PRICES**

Per 50 \$1.19	Per 100 \$1.95	Per 200 \$3.59	Per 500 \$8.29
------------------	-------------------	-------------------	-------------------

Not Prepaid: 1000 for \$14.45

MORE THAN PLEASED

Gentlemen:
My strawberry plants came today. They were O.K. and was more than pleased with them. Thanking you, I remain yours,
Herman T. Schroeder,
Niobrara, Nebr.

STRAWBERRIES GROW QUICK

Dear Sir:
I received my strawberry plants in fine shape and they are growing fine all ready. Many thanks for all.

Mr. John Engrisch,
Maple Lake, Minn.

WHY YOU SHOULD INSIST ON "GURNEY-GROWN" FRUIT TREES

Gurney Fruit Trees Are "Whole-Root Budded"—Not Grafted

All desirable varieties of fruit trees are grafted or budded on hardy root seedlings to propagate these varieties, BUT THERE IS DEFINITELY A DIFFERENCE IN THE WAY IT'S DONE. Here's the difference:

← THIS IS AN ORDINARY FRUIT TREE GRAFT as done by most nurseries. Just a small piece of seedling root is used and a piece of the desired variety is "grafted" on this little chunk of seedling rootstock. In this method the tree is liable to

have a small root system as it has to re-grow it after grafting and there is danger of root disease from cutting these roots. Don't take a chance on stock like this. You want as much rootstock on your plant as you can possibly get.

← THIS IS THE GURNEY "WHOLE-ROOT" BUD-DING METHOD

Here the ENTIRE SEEDLING ROOT is used and the desired variety is "budded" into its top. It's bound to make you a larger, earlier-bearing, healthier tree than the common grafting method used by so many nurseries because the Gurney WHOLE-ROOT budding method gives you the ENTIRE ROOT not just a piece of a root. Always insist on Gurney's "Whole-Root" Trees. They grow faster, bear earlier.

All Gurney Fruit Trees Are Budded on Hardy Root Stock

Here's another difference in trees that isn't apparent just looking at trees. Some fruit trees are budded or grafted on tender, southern-grown seedlings, BUT AT GURNEY'S ALL FRUIT TREES ARE BUDDED ON THE HARDEST ROOT-STOCK KNOWN EVEN THOUGH IT COSTS US A GOOD DEAL MORE. Gurney's apples are budded on hardy Baccata stock, not tender French apple seedlings. Peaches are budded on hardy plum, not tender peach seedlings, etc.

← Roots Are Important—

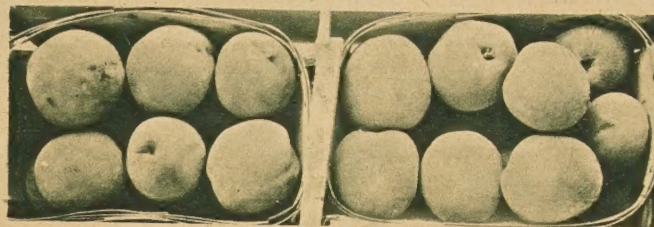

and the trouble is, you can't tell just by looking at the tree, if the root stock used is hardy. BUY YOUR HARDY FRUIT TREES FROM GURNEY'S THIS YEAR AND BE SURE YOU GET THE BEST.

All Gurney Nursery Stock Is GUARANTEED

ALL GURNEY NURSERY STOCK IS GUARANTEED to arrive in 100% satisfactory condition and to please you in every way. If for any reason it does not suit you completely, you may report any time within ten days and we will either refund your money in full or make a free replacement of the stock that is unsatisfactory. We are in business to please you and we'll do just that or bust trying.

Non-Warranty—We cannot and do not guarantee a crop, as that depends upon conditions beyond our control—such as weather, insect damage, etc.

Gurney Fruit Trees Are True-To-Name

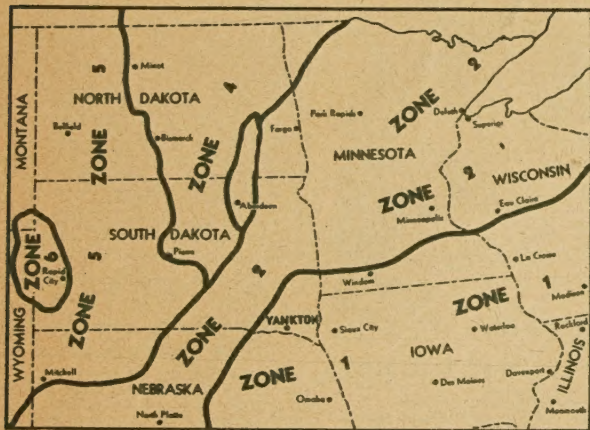

It's the Results That Count

One of a grower's most disappointing experiences is to find after buying and caring for a tree for a year or two or three, to have it bear the wrong kind of fruit. That means wasted money, wasted time, wasted effort.

THAT WON'T HAPPEN AT GURNEY'S. Only experts work on our trees, and checkers constantly check on everyone's work. Every tree goes through many inspections to assure perfectly-graded, strong, healthy trees and MORE IMPORTANT—THAT YOU GET EXACTLY WHAT YOU ORDER. You plant now for years to come. Be sure you get the best stock when you order NOW.

Gurney Trees Grow in ALL ZONES

ZONE 1

All Trees, Small Fruits, Flowers, Shrubs, and Vines found in the Gurney Catalog are recommended for this Region.

ZONE 2

All hardy except the following:
Apples: Hardy except Red Delicious, Jonathan, Turkey Winesap.
Plums: All hardy.
Cherries: Pie cherries hardy except in northern one-half.
Apricots: All hardy.
Small Fruits: All hardy except need winter covering. Boysenberry, Black Raspberry, Blackberry and Dewberry need extra protection and covering.
Forest Trees: All hardy.
Ornamental Shrubs: All hardy except the following need winter protection: Hydrangea, Butterfly Bush, Spirea Anthony Waterer, Spirea Collosa.

Vines: All hardy except Clematis, Wisteria, Silver Lace Vine—give winter covering.

ZONES 4 and 5

Recommended best for planting:
Apples: Anisim, Haralson, Duchess, Wealthy, Anoka, Malinda, Manitoba, Yellow Transparent.
Crab Apples: All hardy.
Plums: All hardy. For EXTRA hardiness plant Hansen Hybrids, Assinibolin and Tecumseh.
Apricots: Hansen's Siberian.
Cherry: None except Hybrids.
Forest Trees: All hardy, unless otherwise noted.
Ornamental Shrubs: Spirea Van Houttei, Lilacs, Coralberry, Snowberry, Honeysuckles, Snowball, Bush Roses, Sumac, Buckthorn, and Cotoneaster.

ZONE 6

Same as Zone 1.

TRANSPORTATION CHARGES ON NURSERY STOCK

Unless otherwise stated, all prices are f.o.b. Yankton. On Parcel Post shipments of Nursery Stock, the average postage is 10% of the cost of the stock (or add 10c for each \$1.00). This will vary considerably according to items purchased—send not less than 15c even on small orders.

Balled and burlapped Evergreens and trees 5 feet and taller should not be sent by parcel post. In such case any

postage sent will be applied on transportation, balance of transportation, if any, will be sent collect.

THE ABOVE FIGURES ARE ESTIMATED. IF YOU SEND TOO MUCH POSTAGE, WE WILL REFUND THE BALANCE—IF YOU SEND TOO LITTLE, WE WILL SEND YOU A NOTICE OF THE AMOUNT DUE.

SOME HARDY RELIABLE SHRUBS YOU SHOULD GROW

Hazelnut: The small bush produces many high quality nuts every year. It is very hardy and does well in any climate. It does best in thin groves. 18-24 in., 39c ea.; 5 for \$1.85; 10 for \$3.50.

Dwarf Ninebark Spirea: A very compact dwarf growing shrub attaining a height of 3 to 4 feet covered with white flowers in clusters during spring. Foliage is a very attractive bright green, staying on late in the fall. Very hardy, and excellent as specimen plants or as a hedge. A beautiful shrub that does well in shade.

12-24 in., 30c ea.; 5 for \$1.35; 10 for \$2.50.
2-3 ft., 40c ea.; 5 for \$1.85; 10 for \$3.50.

Rose Acacia: An attractive shrub with rose-pink pea like flowers produced in June. Will thrive in any soil and is hardy. Height about 4 to 5 feet. 18-30 in., 50c ea.; 5 for \$1.85; 10 for \$3.50.

Wayfaring Tree: An upright tree-like shrub growing 10 to 12 feet high. Flowers are white, large flat-topped clusters produced during June and July, followed by red berries turning to black. Almost an evergreen shrub with beautiful foliage.

12-24 in., 35c ea.; 5 for \$1.60; 10 for \$3.00.
2-4 ft., 45c ea.; 5 for \$2.10; 10 for \$4.00.

Golden Flowering Currant: A large spreading, extremely hardy, drought resistant shrub, entirely covered with golden yellow flowers in the spring, followed by quantities of shiny black currants that are excellent for eating fresh or for canning. Will grow in shady locations.

2-4 ft., 45c ea.; 5 for \$2.10; 10 for \$4.00.

MORROW'S Honeysuckle: A medium sized shrub, with wide spreading branches; leaves a downy gray underneath. Flowers white, changing to yellow; bright red berries. Excellent for screening hedge, a very attractive shrub.

2-3 ft., 35c ea.; 5 for \$1.50; 10 for \$2.50.

Gurney's HARDY BERRY PLANTS

Plant Plenty of BERRIES

Don't restrict your victory garden to growing just the vegetables you need. Grow your own fruit, too. Plant plenty of raspberries, blackberries, strawberries, too. They don't take much space and they give you worlds of fruits in a hurry.

How to Plant RASPBERRIES

Set three feet apart in rows 6 feet apart. Cut out fruiting cane or branches to the ground immediately after fruit is picked. Takes 2500 plants per acre. Set blackberries and handle same as raspberries, except setting them farther apart—about 4 to 5 feet apart in the row and the rows 7 feet apart. Takes around 1400 plants to the acre.

How to Plant BOYSEN- BERRIES

Boysenberries should be planted 6 feet apart each way and this will take 1100 plants to the acre. You should leave these on the ground the first winter, cut off half the tops and mulch with straw after cold weather. These should then be trained on wires and each year after fruiting cut out the canes that bore fruit. Leave the new growth each year on the ground, and cover, then put up over wires which should be three-foot high on each side of the row. All these plants could be set closer for garden planting and you can generally find a corner here and there in the garden where you can use berry plants.

Gurney's RASPBERRY BARGAIN

Here at a real bargain price you get enough red raspberries and enough black raspberries to give you enough fruit for the average family. Both are superior varieties. You get:

12 Latham Red Raspberries
12 Cumberland Black Raspberries \$1.98
24 plants in all
FREE: 2 Mammoth Boysenberries — The much talked about, giant berry plant.

Gurney's GIANT BERRY COLLECTION

Here's a real bargain giving you some of the best of all kinds of berries for your garden berry patch. You get:

3 Latham — Red Raspberries
3 Cumberland — Black Raspberries
3 Eldorado — Blackberries
3 Boysenberries — The miracle giant berry
all 12 Berries \$1.39 only
FREE: 3 Flare Rubarb plants with each collection.

BLACKBERRIES

ALFRED

Practically Seedless and Coreless

This is sometimes called the Coreless Blackberry. The color is a glossy, jet black, the flavor, sweet and delicious, and it is nearly seedless and coreless. It is a hardy plant that produces mammoth berries. It does very well in cold sections as well as warm. Hardy with winter protection of a straw mulch in the North.

ELDORADO

The Small Seeded Blackberry

Ripens over a long period with loads of juicy sweet fruit. Liked particularly for its small seeds and heavy bearing qualities. Very resistant to rust.

Prices: 5 for 60c; 10 for 98c; 25 for \$2.19; 100 for \$7.45.

BLACK RASPBERRIES

CUMBERLAND

The Favorite Black

You will want this delicious BLACK RASPBERRY. It produces enormous crops, of large, firm berries of the finest flavor. Berries are juicy, not seedy. Fine for shipping, market or home use. A profitable crop that is always in demand. In fact, wherever you go, you will find that Cumberland is, by far, the most popular of black raspberries and well deserves to be. Be sure to plant at least 25.

Prices: 6 for 65c; 12 for \$1.19; 25 for \$2.25; 50 for \$4.19; 100 for \$7.98.

JOHN ROBERTSON'S

Best for Dakota's

In a letter to us, John Robertson said, "We have grown raspberries, both black and red, for nearly forty years—and this is the best Black in all ways that we have found—in hardiness, yield, quality, size and appearance." Jet black, firm, and of more mild flavor. John died several years ago, but this raspberry is a real monument to a great South Dakota Horticulturist.

Prices: 6 for 89c; 12 for \$1.40; 25 for \$2.55; 50 for \$4.98; 100 for \$8.25.

RED RASPBERRIES

CHIEF Raspberry

The Early, Dry-Weather Berry

Do you want your Raspberries early in the season? Chief is an early Raspberry. . . . A good dry-weather berry; because of its earliness it usually produces a crop before the dry weather sets in. It is unusually hardy and free from disease. 6 for 70c; 12 for \$1.29; 25 for \$2.35; 50 for \$4.40; 100 for \$8.45.

GIANT LATHAM

North's Best Red

Regardless of where you live, this Raspberry is good, for it does well, North, South, East, and West. The fruit is large, many are an inch long. It has a real red Raspberry flavor. Firm and solid. Delicious eaten fresh and makes the finest preserves and sauce. It is a vigorous grower and bears enormous crops. Minnesota's Great Market Berry and good no matter where it is planted. 6 for 70c; 12 for \$1.29; 25 for \$2.35; 50 for \$4.40; 100 for \$8.45.

Mammoth BOYSENBERRY

Biggest Fruit of All Berries

This is really an amazing berry. A cross of Blackberry, Raspberry, and Loganberry, and is far more vigorous than any of them. They are of immense size with a supreme flavor. It is almost seedless but firm. It is the best berry of its kind ever grown, delicious flavor, heavy bearer and very hardy with winter covering of straw. 2 for 35c; 5 for 75c; 12 for \$1.50; 25 for \$2.85; 100 for \$9.98.

BOYSENBERRY

The Mammoth Boysenberry now without thorns. For easy picking and cultivating, plant this variety. Bears as well as regular type and still you have the advantage of large, luscious berries and no thorns to bother you when picking. Supply is limited. Order early. Price: 34c each; 2 for 59c; 5 for \$1.39; 10 for \$2.69.

3 GOOSEBERRIES \$1¹⁹

Our Hardy GOOSEBERRY

This variety is the hardy, heavy-bearing type. Has been tried out in our experimental garden and we know it is good. Set 3 ft. apart each way. Plant in corners of the garden. 49c each; 3 for \$1.19; 10 for \$2.98.

Native Hardy Gooseberry The Best Flavored

Sure to bear every year with a big crop. Flavor much better than most varieties. Grand for pies. Will thrive in practically any location. Some varieties bigger, but none better. Plant at least three this spring. 49c each; 3 for \$1.19; 10 for \$2.98.

Berry plants and small fruits can be protected with Gurney's Bug Dust. See page 30.

CURRANTS 35c each and up

RED LAKE CURRANT

The Hardy, Heavy Bearer

A vigorous productive bush producing immense quantities of high quality, large, red currants the first year after planting. Very hardy. Growers say, "This is the red currant to stop all other red currants." It has everything—size, quality, color, and productivity. It makes up into a sparkling bright red jelly. A Minn. introduction. Gurney's recommend it.

NEW LOW PRICES: Each, 45c; per 5, \$2.10; per 10, \$4.00; per 25, \$9.25.

PERFECTION Currant

The One for Jelly

All of you folks will want some currant jelly for winter. Perfection Currant is the one to raise for good jelly. The berry is at least twice as large as the ordinary currant, and can produce twice the crop. Some of the Perfection in our Nursery are nearly as big as cherries and are borne in huge clusters.

Each, 40c; per 5, \$1.89; per 10, \$3.49; per 25, \$8.35.

FAY'S PROLIFIC

The Large Prolific One

Large beautiful red currant. Very prolific, and of superior flavor. It is easily picked and bears a heavy crop at two years after planting. Each, 35c; per 5, \$1.69; per 10, \$3.19; per 25, \$7.50.

About Gurney's Currants: Set currants 3 ft. apart each way. The varieties we list are fine for the northwest. Particularly want you to try the new Red Lake which is an extremely hardy, heavy bearing. If you plant Currants around the garden, put them in the corners or around the fence so they won't be in the way when you are doing your plowing.

FREE: 3 Red Rhubarb

ALL \$1⁹⁸

GURNEY'S RHUBARB

3 for 49c and up

The varieties of Rhubarb which we list are improved better strains—not the common old rhubarb that is green and stringy. Our two varieties are really the best. Plant plenty of Rhubarb, setting the plants about 3 ft. apart each way.

FLARE RHUBARB The Heaviest Yielder

The big stalks with red base shading to pink and green, are beautiful in the

garden, and when made up into red juicy sauce and pies, FLARE RHUBARB just "can't be beat." We have found it to be the most vigorous grower we have ever seen. Plant lots of Rhubarb. It is said, "an apple a day keeps the doctor away," and the same goes for this delicious "fruity" plant. Prices: Standard size, 3 for 59c; 5 for 89c; 12 for \$1.89. Extra heavy size, 3 for 74c; 5 for \$1.19; 12 for \$2.49.

GURNEY'S SEEDLING RHUBARB

This is the very early, heavy producing rhubarb, noted for its rich, tender stalks. Especially fine for sauce and pies. Rhubarb should be in every garden for health's sake. Plant this fine variety at a very low cost.

Standard Size 3 for 49c; 5 for 59c; 12 for \$1.29
Extra Heavy Size 3 for 64c; 5 for 95c; 12 for 1.79

ASPARAGUS

25 Plants for Only 75c

MARY WASHINGTON ASPARAGUS

Tender, Rust Resistant

ASPARAGUS THAT MELTS IN YOUR MOUTH. Mary Washington is practically immune to rust which often kills other varieties. It keeps coming up fresh and tender for three months and does not get tough and old. The best of all varieties.

In every garden there is room for some ASPARAGUS. Plant yours now. Set them 1½ feet apart. This is one of the vegetables that is very RICH IN MINERALS AND VITAMINS.

	Per 25	Per 50	Per 100	Per 500
1 year old Plants	75c	\$1.35	\$2.49	\$ 9.50
2 year old Plants	98c	1.89	3.50	14.50

PARADISE ASPARAGUS

Bears First Year!

A large, fast growing variety that not only can be used the 1st year after planting, but is sweeter, more tender, and much more prolific in growth than other varieties. Here is a new asparagus that looks like it may soon replace other varieties entirely.

PRICES: 1 year old Plants, 25 for \$1.00; 50 for \$1.89; 100 for \$3.49.

HORSERADISH

New Bohemian—Best of All

New Bohemian is the horseradish. We have discarded all other kinds because this is so far superior. It is hardy anywhere and is very desirable as a relish. Its roots are dug in early spring, grated fine, vinegar added and it is ready for use. On this variety, the roots grow larger, are whiter and the quality is far superior.

Heavy Crowns: 5 for 79c; 10 for \$1.39; 25 for \$2.98. Cuttings \$1.00 per 35.

Don't Forget That GURNEY'S BUG DUST

May be used on your fruits as well as your garden and flowers. It's the nearest "all purpose" dust we know to help you stop BOTH insect AND disease damage.

PRICES

3 lbs. \$1.00 Postpd.
2 lbs. & Gun \$1.15, Postpd.

Gurney's Hardy Selected APPLES

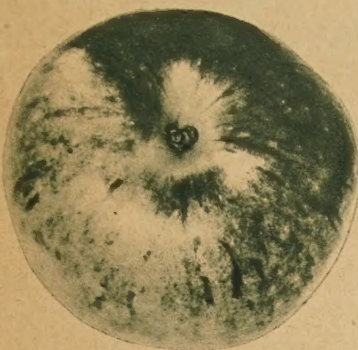

**Grown on Hardy Siberian Baccata
Root Stock**

NORTHERN APPLE TREES

Northern Growers should, by all means, order northern-grown trees. Gurney's Dakota-grown trees are hardier—not only from the climate but from the fact that they are all budded on hardy Baccata roots. This means everything to the man planting trees who wants a tree 20 years from now. Gurney's orchards are producing fruits 600 miles north of Yankton. Our trees are all extra-strong grade and no tree without a perfect root system is sent out to our customers. You do get better trees for less money at Gurney's.

How to Plant Apples

Set apple trees 25 to 35 feet apart. Peach trees can be used as fillers as they will die out before the apple trees are full grown. In setting your apple trees, prune them back severely. Northern orchards do better where the trees are grown more in a bush form. Trimming year after year tends to make the tree broad and spreading. The ground may be cultivated in the orchard and for a number of years you may plant small fruits in between the trees or a cover crop may be used.

Gurney's WEALTHY

The Good Keeper

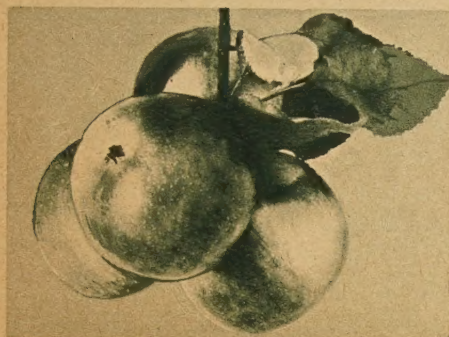

This is too well known to need description. You are all familiar with its yellow background and covering of red, its white juicy flesh; the fine pies that can be made from it. You should also know that Wealthy is hardy and a leader of commercial or Home Orchard Apples for the North. If picked early and properly stored will keep until Christmas.

Gurney's LOW Apple Prices

Apple and Crab Apples

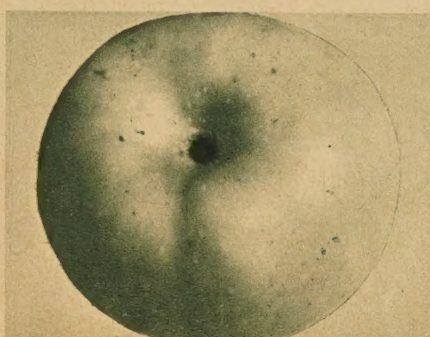

The below prices are for genuine Gurney apple trees—all budded on hardy Baccata root-stock making the tree hardy for all the northern states as well as extra hardy for southern planters. You pay no more for these superior trees. Don't take a chance on stock that is not from a nursery like Gurney's that are specialists in HARDY trees.

5 to 7 ft.	89c	86c	83c	79c	74c

Dark "All Red" DUCHESS Best Summer Cooking Apple

If you like the Old Duchess of Oldenburg, you will go for the New Duchess in a Big Way. It ripens its juicy red fruit in August. For those delicious Apple Pies and Sauce, you'll find this New Duchess hard to beat. First degree of hardiness.

EARLY HARVEST

For Both Eating and Cooking

This is the earliest ripening apple that is hardy in the Middle West. Ripens in July ahead of most other apples and at a time most of us are "hungry" for them. A yellow apple, good for cooking and eating, medium in size. For early apples, plant Early Harvest.

McINTOSH RED

Proven in the Dakotas

Col. C. W. Gurney planted McIntosh Red on the home place in about 1900. These are the oldest trees in our orchard and are bearing heavy crops of dark red, fragrant, high quality apples each season. These trees are grown in bush form with branches to the ground. Drouth and cold weather have never affected them. We recommend the McIntosh Red.

1 Haralson—Red winter.

All Big 3 to 4 ft. trees.

All 3 Only **\$1.49**

Free—1 Siberian Chinese Elm for quick shade.

HARDY APPLE OFFER

Plant 4 to 7 Foot Trees

These varieties grow well in the most Northern section. You'll have fruit the year around from this collection. You get:

1 Anoka

1 Wealthy

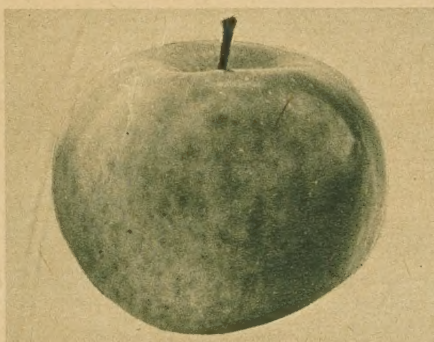

1 Whitney

1 Haralson

1 Malinda

Free—2 Hansen's Bush Cherry.

\$2.89

MANITOBA or Gurney's White Greening Juicy Ivory White

This variety is a real discovery—a big juicy ivory-white apple. Has stood drouth and severe winters without injury. Vigorous upright grower. Excellent for canning. Pear flavor and can like a pear. If you want something different in apples, that is extra fine—here's the apple to plant.

HARALSON

Hardest of All Winter Apples

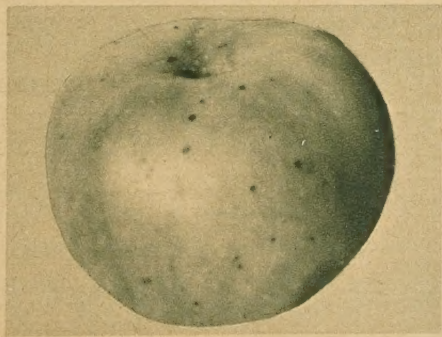

This is the hardest of the commercial Winter Apples. If I add up all of the good qualities of all of the other Apples and say "this is Haralson," I would not be saying too much for this big, red juicy fruit that keeps till summer, and is borne heavily and annually on a sturdy, strong branched tree. Bears fruit in three years. A Minnesota Production.

MALINDA

Hardest Winter Apple

Bears early and a full crop each year. The fruit is conical and a rich yellow with a dull red blush, the flesh tangy and firm, best keeping winter apple. Malinda is one of the hardest of Winter Apples. Brought to this country from Russia where severe winters have made it one of the world's hardest apples.

Northwestern GREENING

Mammoth Beautiful Fruit

A very ATTRACTIVE winter apple, with smooth, waxy, clear pale yellow skin with a slight greenish tinge. The flesh is crisp and mild. One of the largest apples you can grow with apples measuring sometimes as large as 5" or more across. Very popular among people who know apples because of its good quality and good keeping ability.

PRAIRIE SPY

Better Flavored Keeper

Attractive red color, very high quality, is productive, and hangs to the tree well. Because Prairie Spy is a good keeper and is so much better quality than Winesap and others on the market after Christmas, it is widely planted for home use and for market.

ANISIM

Hardy Russian Variety

A Fall Russian variety, extremely hardy, and a heavy, extra early bearer. It is a juicy, "snappy" apple, bright red in color. No Northern orchard is complete without Anisim, and it is a good commercial variety. Hardy.

CRABAPPLES

FLORENCE

Hardest of All

The hardest of all Crabs or Apples. Produces heavily, a yellow fruit flushed with pink. One of the best for jelly. Bears young and annually.

RED FLESH

Pink Flowers, Red Leaves, Red Fruit

This is a beautiful ornamental tree with pink flowers and red leaves. Also bearer of delicious, large, fruit that is RED to the core. Wonderful for red Jelly. Early bearing.

VIRGINIA

Used for Understock

Fruit medium to large, yellow-red and of good quality. A strong grower. It produces fruit under the most adverse conditions. Because of its hardness and strong branches, orchardists use Virginia for "Top Working."

DOLGO

Best Jelly Crab

This Crab is a beauty in flower, shape, and foliage, but its all red fruit is most beautiful of all. It makes up into a red jelly that has a flavor all its own, and you will like it. Fruits on two-year-old trees. Hardy.

WHITNEY

Our Favorite Crab Apple

A delicious Early Crab Apple when eaten fresh from the tree, and for Pickling there is none to compare with Whitney. Large, sweet, juicy, colored yellow with lively red stripes. Hardy, vigorous and a heavy cropper. Order early.

Gurney's Hardy PEARS

Hardy Understock Means Hardy Pears

Gurney's Pears are produced on hardy-northern understock which means longer-lived trees for you. Pears bear in a hurry and bear best crops, if you get Gurney's northern-grown trees. These grow upright and can be planted as close as 14 to 16 feet apart. At 16 feet it takes about 170 trees per acre.

PEARS ARE VERY SCARCE ORDER EARLY

We list best size for transplanting and hardest of varieties.

← LINCOLN—

Most Dependable

Large, good flavored. Has been producing heavy crop EVERY YEAR for 15 years on Geo. Gurney's farm. Ripens Sept. 15th. In big demand in markets. A good commercial variety.

MENDEL

The Blight Resistant Pear

The Mendel pear is the early bearer. Good quality. Originated in Minnesota. Mendel pears are hardy, large, sweet, juicy and blight resistant, and you can grow them in your yard. ORDER NOW.

PETER PIPER

Produced Crop 20 Yrs. Straight

The name does remind one of the poem "Peter Piper Picked a Peck of Pickled Peppers," but this happens to be Pears we are talking about, and they're good for pickling and for eating; good sized, yellow, blight-proof pears, of excellent quality. We have trees over 20 years old which produce immense crops each year. Best variety for the Northwest.

PATTEN

The Juicy Pear

This pear is healthy, hardy and productive. Bears a LARGE, YELLOW fruit with the RICHEST JUICE OF FINE FLAVOR. The skin is THIN, and QUALITY EXTRA GOOD. We recommend this pear to both northern and southern planters.

NEW HARDY SECKEL

The Sugar Pear

Nothing is more delicious than a JUICY HOME-GROWN PEAR. THE SECKEL PEAR TREE bears highly colored, juicy FINE GRAINED SWEET FRUIT. This is a SUGAR PEAR of exceptional quality.

GURNEY'S PEAR BARGAIN

In this bargain collection, you get 1 each of the 3 hardest and heaviest bearing pears. All giant 3 to 4½-foot trees—the quick-bearing size. You get:

1 Mendel Pear—1 Peter Piper 1 Bartlett—Best All
Large, sweet, Pear—Blight fall pear. 3
juicy. proof. Big Only

FREE: 1 Giant Double Flowering Peony

← ANOKA

Often Bears First Year!

Everybody plants Anoka. The earliest bearing apple. Little two-year old trees in the nursery often bear several of these red striped apples. The quality is good and the juice is rich in flavor. Anoka bears annually and is Extra Hardy.

← YELLOW TRANSPARENT

Early, Yellow Summer Apple

One of the earliest of the Harvest Apples. An excellent eating apple and "what apple pies you can make with it!" Bears immense crops of yellow thin-skinned apples just "tart" enough for the best sauce and pies. And, best of all, it comes into bearing early before other apples are ready for use.

← JONATHAN

Best All-Round Red Apple

The best winter Apple for every use. Red, juicy and "snappy" when eaten out of hand. Excellent baked or in pies, and it keeps well without special care. Many orchards are comprised principally of Jonathan as it is considered one of the standards by which other apples are judged. On Baccata Roots they are harder.

DARK "ALL RED" DELICIOUS

Best Winter Apple

The name "Delicious" describes its QUALITY. It is "ALL RED" and Gurney's improvement by putting it on Hardy Siberian roots makes it suitable for your orchard whether it is in the north or south. The best of all eating apples. Large, red, with 5 points on base. You'll have to do a lot of cooking before you find an apple that can equal this "ALL-RED" improvement on Delicious. Plant plenty of Gurney's Dark "ALL RED."

GURNEY'S WINTER WEALTHY

Grandest Apple for Baking

(Trade mark): If you want one of the hardest apples, you have it in Winter Wealthy. It is large, red, and a delicious Winter Apple. The flavor is somewhat like the Wealthy. . . . And it Keeps All Winter. It's mighty good eaten right out of hand, but it's absolutely "TOPS" when baked. One of the best "ALL PURPOSE" apples.

Gurney's Hardy Northern-

George Gurney in one of our Nursery Fields.

Headquarters for Plums

Gurney's have been headquarters in the northwest for Plums for over 70 years. Plums have been one of our specialties, and we believe we can grow them better. Our plums are budded on plum—not on peach. (Beware of southern plum trees for the northwest, as many of them are budded on peach and will not stand our climate. The plum itself is hardy enough but the peach roots will not be the type that will stand our condition.) Most varieties listed will grow any place in the Dakotas. If you want long lived hardy plums, order from Gurneys. Set 18 ft. apart, 130 trees to the acre. By the way, plums do extra well in the chicken yard. Here's a place where you can grow a lot of fruit and give shade to the chickens, and use up land that otherwise would not be producing anything.

MINNESOTA'S BEST PRODUCTIONS

FIEBING PRIZE

Big As a Peach

A Plum that you can peel like a Peach. It's almost as big as a small Peach, too; and its quality is excellent. The beautiful red color is unusually attractive. Bears a heavy annual crop. Tree is hardy. This appears to be one of the best, if not the best Minnesota production to date. For the Commercial Orchard or the Home Fruit Garden—YOU MUST HAVE Fiebing Prize—A real PRIZE WINNER.

UNDERWOOD

Bears In Canada!

This plum is the right type for the Northern States and Canada. It ripens early and grows well in North Dakota and even as far North as Winnipeg in Manitoba. It is really a splendid plum, the fruit is very large, red, sweet and juicy. It is of fine quality and is entirely hardy.

GURNEY'S NORTHERN PLUM COLLECTION

3 Hardy Plum Trees \$2.59

Here in one bargain collection are 3 of the hardest, northern varieties of plums. All heavy bearers and all sure bearers. You get one each of the following:

- 1 Compass Cherry—Plum Hybrid.
- 1 Superior—Yellow turning to pink and red.
- 1 Underwood—Large red, very sweet.

3 to 4½ Foot—Best Transplanting Size

All 3 Only \$2.59
(Reg. Value \$3.00)

AMERICAN PLUM

TERRY

One of Largest—Good Pollenizer

One of the largest Pure American Plums, dark red, of the very best quality; tree vigorous, healthy, hardy, and productive. A good pollinizer. Stands near the top of the list.

TONKA

One of Minnesota's Best Varieties

The Tonka is without doubt one of the three best Plums in the Minnesota Group. Fruit is large, richly flavored, juicy, solid, and is an ideal plum for any purpose. Tree is very productive. A plum that is all plum on extra small pit. Hardy annual bearer. High quality can't be beat for canning and eating fresh from tree.

TECUMSEH

Extra Hardy—Long Lived

Introduced by Dr. Hansen in 1918. Really one of the very best Hansens. Sweet, aromatic, of good size, firm, excellent in quality, this red Plum should be in your order this year. Often bears 1st year after planting. Rich dark red. Hardy in the far north and extra early.

KAGA

"The Apricot Flavored Plum"

A deliciously flavored plum, fragrantly appetizing. Medium size, heavy producer, and Bears in ONE YEAR after planting. Hardy like all of Hansen's hardy introductions. The flavor of this plum is the nearest to an apricot you could find.

TOKA

Rich Plum Apricot Flavor

You should plant Toka for a number of reasons: First, it is extremely hardy and a heavy bearer; second, it produces large delicious plums regularly; third, for its value as a pollinizer, inducing other varieties to bear heavily; fourth, because it is of delicious, rich, plum-apricot flavor.

HYBRID PLUMS

Cherry-Plum Crosses

These are more dwarf-growing type of trees, and can be set as close together as 10 to 12 ft. These wonderful new northern and proven Plum and Cherry hybrids will produce a lot of fruit on a small space, because they can be planted so close together. All varieties listed have been thoroughly proven hardy in the Dakotas. See varieties at right.

COMPASS CHERRY

Best Known Plum-Hybrid

This is the very hardy, early-bearing hybrid plum—noted for its bright red fruit. Will grow and bear anywhere. Perfect for jams and jellies, low growing, easy to pick.

MORDENA CHERRY

Bears 1st Year

A big tree loaded with red fruit is a sight to gladden the heart. You can have all you want with a few of these hardy, prolific Mordena Cherries. Its wide spreading branches bear loads of fruit the year after planting, and it's good fruit for eating fresh or cooked.

OKA CHERRY

The Heavy Bearer

Almost black, juicy fruit, big Cherries, heavy production and extra hardy—that describes the Oka Cherry. It's hardy anywhere in the Middle Northwest. Oka will dry like a prune and can be kept and used like prunes. Plant lots of Oka, you'll find it profitable. Available in 3-4 ft. only.

Grown Plums

Professor Hansen's FAMOUS HARDY HYBRID PLUMS

- Hardy
- Bear Young
- Very Prolific

WANETA

Biggest Red Hardy Hansen Variety

Big, profitable crops from Waneta Plums. Prof. Hansen's "Masterpiece." Truly a delicious plum. It is an old favorite, one of Professor Hansen's most popular. The fruit is large and a gorgeous reddish-purple color. Waneta is of the finest quality. The flesh is tender, sweet and juicy. A sure bearer every year. One of the best of all market plums, plant at least an acre (130 trees). Perfectly Hardy.

SUPERIOR

One of the Best

This big plum will surprise you by bearing loads of fruit the first year after you plant the tree. Great clusters of big yellowish fruits appear; they gradually turn pink, then red. You can peel it like a peach, and, like a peach, you'll like it. It really is a "Peach of a Plum." Hardy.

↑ OPATÁ

The Early Bearing Plum

The earliest of the Hansen Hybrids, Opatá bears its ropes of fruit and ripens them in mid-July. A juicy, tangy plum of medium size. Extra hardy and bears in one year after planting.

SAPA →

The Rich Black Sweet One

This plum is black when ripe. Black outside and clear to the pit. It has a sweet flavor you can't forget and bears immense quantities annually. Ripe the latter part of July. Can't be beat in the hardy group. Bears the first year after planting. Best of all, it's extremely hardy.

A Word About Hansen's Hardy Plums

Prof. N. E. Hansen of the South Dakota State College has spent a lifetime developing hardy plants for the north. Working with hardy fruits and plants he gathered in the cold wastes of Siberia and Russia, he developed and crossed them with the large-fruited American trees over a period of several decades until he produced heavy bearing trees of good quality fruit HARDY ENOUGH TO BE PLANTED ANYWHERE IN THE NORTH.

Like Burbank worked on fruits for the south, Hansen is the Burbank of the NORTH developing Hardy fruits of good quality. In fact, he is claimed to be the greatest living plant breeder.

The hardy hybrid plums on this page are just one sample of the results of his years of intensive breeding work. These are hybrids he has made, and are some of the finest HARDY plums in the country. No one in the north (or south for that matter) can go wrong planting these wonderful hybrid plums.

KAHINTA

Big Juicy Flavored

A big Red Hansen Hardy Plum, juicy yet firm. A "sister" to Waneta, Kahinta compares favorably with that Masterpiece in size, quality and bearing ability. VERY HARDY. Like all famous Hansen varieties bears very young.

Gurney's Hansen's Hardy Hybrids PLUM COLLECTION

Here are the three choice varieties of Prof. Hansen's Hardy Hybrids. All are giant 3 to 4½ foot trees—the quick-bearing size. Plums—by all odds the best for the northwest. You get:

- 1 Waneta—Good for market. Red purple
- 1 Opatá—Earliest of all. Bears 1st year
- 1 Sapa—The sweet black one

ALL 3 PLUMS

FREE—With each collection 1 Hansen's Hardy Bush Cherry.

Only
\$2.49

PEACHES

We are listing the hardiest varieties of peaches. These varieties will produce fruit as far North as any peaches you can plant. The trees are strong, 2-yr.-old Northern grown for Northern planters.

Elberta
Favorite of
All!

J. H. HALE

The Giant Hardy Freestone

Many folks prefer the J. H. Hale Peach and so will you when you see this extra large, GOLDEN YELLOW PEACH. The skin is extra thick, with a blushed carmine color and the most delicious you have ever tasted. Freestone. Hardy South of Yankton. Ripens a few days ahead of Elberta.

POLLY

Stands 15° Below

This comes closest to being a HARDY Peach. It has stood temperatures as low as 15° BELOW ZERO. Besides, POLLY PEACH has a wonderful flavor, produces abundantly, and is outstanding even in peach-growing sections. Plant POLLY the HARDIEST PEACH.

ELBERTA

"Daddy" of 'Em All

This is the standard market peach. Fruit is very large, yellow, freestone. Flesh is tender and skin firm, which makes it an excellent shipping peach. Ripens first week in September. Flesh turns to deep red near the pit. Good canning variety.

GURNEY'S HARDY APRICOTS

Our varieties of Apricots are those that will bear in the northwest. They're northern grown, budded on hardy root-stocks and will give you results. Plant lots of apricots. The varieties we have are excellent for either cooking or eating. Apricots also make a beautiful ornament in the lawn. Previous to the introduction of these hardy varieties, apricots could not be grown in the Dakotas but now can be and successfully. Set 16 to 20 feet apart.

ORANGE SANSIN

Rich Apricot Flavor

This is one of the MOST DELICIOUS of all hardy Apricots. The fruit is LARGE and is produced in great quantities. It makes a rich-colored sauce. Introduced by Professor Hansen. Perfectly hardy.

All Dr. Hansen's Apricots listed are the extremely hardy Manchurian introductions. They are excellent for cooking as well as eating fresh from the trees. The trees are beautiful and make an excellent ornamental. Since the introduction of these hardy trees North and South Dakota can produce their own apricots. Trees are rapid growing. If you have been unsuccessful in growing apricots in the past, plant the following varieties and you will be more than pleased with the results. These ripen between cherries and peaches when fresh fruit is needed.

MANCHU

Largest of Hansen's Hardies

Manchu is the largest Apricot that we offer and it really is excellent. Trees are very productive. Fruit is large and a lemon-yellow color. Cooks up into a fine-flavored, pale yellow sauce. Excellent to eat from trees.

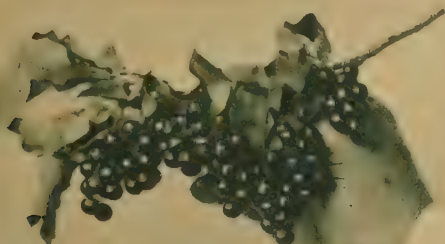

SCOUT

Hardy Canadian Introduction

An early bearing, Hardy Apricot introduced by the Morden, Canadian Experimental Station. Fruit, golden colored with red blush, 1½ inch through, high quality, excellent for jam or canning.

Gurney's Hardy NATIVE FRUITS

CHOKE CHERRY

A beautiful ornamental with spicy fragrant flowers produced like great banks of snow. Later come the great clusters of purplish black cherries. Be sure to have these nursery grown Choke Cherries in your yard of windbreak.

WILD BLACK CHERRY

This is a very gorgeous tree. It bears flowers in large white clusters in early spring and then in August it bears a great abundance of edible fruit. It is hardy, rapid grower and makes a large tree.

	Each	Per 5	Per 10
1 year Seedlings	20c	60c	\$1.00

SAND CHERRY

Another good bush fruit that makes an excellent ornamental or hedge. The fruit is good for canning or sauce; or to eat from the bush. It is a strong grower and perfectly hardy. Drouth resistant and the GRASSHOPPERS leave it alone. Sand cherry will produce heavy crop year after planting.

Strong Plants: 2 for 39c; 10 for \$1.59; 25 for \$3.29.

BUFFALO BERRY

Jelly from Buffalo Berries is extra Delicious and Different. A hardy native bush fruit that everyone should grow. Plant a hedge of Buffalo Berry for fruit and beauty. Silvery leaves with Ropes of bright Berries. For HEDGES it is the nearest thing to the Famous BOXWOOD. Nursery grown.

Now! 5-in-1 Apples for the North

5 Hardy Northern
Varieties of Apples
on 1 Tree!!

Think of It!

Thinking of having a tree in your yard that bore not 1 kind of apple, BUT 5 DIFFERENT KINDS. No yard is too small now to have many kinds of fruits—some of each of the fine varieties.

APPLES ALL SEASON

Even if you have only a small space for a fruit tree, you can have apples all season long—some coming on early, some mid-season and some late giving you apples for cooking and eating all season.

Now! Hardy Varieties

At last we have to offer a 5-in-one apple with all 5 varieties HARDY FROM THE NORTH! And each variety is a choice one in its own right.

5-in-1 Apple for the North

This 5-in-one apple will do well from Yankton NORTH. Varieties are: Red Duchess, Wealthy, Yellow Transparent, Prairie Spy and Haralson. Only few trees left.

\$2.25 Each
2 for \$3.98

5-in-1 Apple for the South

This is the one to plant from Yankton SOUTH. Varieties are: Red Duchess, Yellow Transparent, Haralson, Wealthy, and Red Delicious.

\$1.98 Each
2 for \$3.49

Gurney's Hardy CHERRIES

The varieties of cherries listed in our catalog are those that do best in the middle-west and northwest. All are extra heavy-rooted, well branched, and will soon be producing good crops for you. Cherries too are budded on a hardy understock, give long lived, heavy bearing tree. Set 18 ft. apart each way, or 130 trees to the acre.

ENGLISH MORELLO

The Late Rich Black

Ripens in late July when other Cherries are gone. Almost black in color, of good size, and a tangy, tart flavor, making it excellent for pies and canning. It bears young and heavy.

BLACK TARTARIAN

The Large Black Sweet One

Here is a Cherry that you will want. It is the fairly hardy, large black delicious sweet cherry. Harvest quantities of fruit of the most delicious quality. Every orchard should have some of these.

**Plant
GURNEY-
GROWN**

GRAPES

All are strong heavy plants that give quick results. They are well rooted and will please you. The varieties listed are the hardiest. They can be grown on a fence or an arbor, or in a vineyard. Plant about 5 to 8 ft. apart in rows 6 ft. apart. In planting cut the tops back to 3 to 4 buds, and prune the roots off about one-third. You will have better results this way. You don't need to put up a support for grapes until the second year if you do not wish to do so. Prune each year.

THESE GRAPES can be grown anywhere in the Middle Northwest. They are all exceptionally hardy and with very little attention have wintered the most severe conditions that have ever been produced in this part of the country. All they require is a light covering in winter to protect the new buds. . . . With that, Gurney Grapevines have produced Heavy Crops of HIGH QUALITY GRAPES—a sure crop each season.

**WHITE
NIAGARA**

Niagara is the leading favorite in white grapes because the large fruit has such a delightful flavor. The vine is hardy and extremely productive.
2 for 59c; 4 for \$1.10; 8 for \$2.10; 12 for \$2.89; 25 for \$5.25.

CONCORD

America's Most Popular
Your garden will not be complete without CONCORD. The Concord has become the most popular grape in the United States. It matures early, keeps well, ships well, and sells well. The berries are in enormous bunches and are blue-black, juicy and delicious. Great for grape juice.
2 for 39c; 4 for 69c; 8 for \$1.29; 12 for \$1.69; 25 for \$2.75; 100 for \$7.95.

RED DELAWARE

The Delaware's berries are rather small, juicy, and sweet. The bunches are compact and make a grand table grape. They are in all probability one of the finest American grapes. The berries are a red color and have a very spicy flavor.
2 for 59c; 4 for \$1.10; 8 for \$2.10; 12 for \$2.89; 25 for \$5.25.

BETA

Best Grape for Northwest
Here is a tame GRAPE with the TANG OF THE WILD. This is a good grape for the North, for it is fast (15 to 20 ft. in 1 yr.) in growth and hardiest of all. It produces large quantities of fruit of GOOD QUALITY. . . . ALMOST BLACK. . . . JUICY. . . . FINE FOR ARBORS. No winter covering needed.
2 for 59c; 4 for \$1.10; 8 for \$2.10; 12 for \$2.89; 25 for \$5.25.

**CACO
Big Clusters**

The sure crop red grape. Big clusters of rich red grapes bears in hottest summers. Makes most beautiful jelly. As Concord is the most popular of the blue black grapes, so Caco is the most popular of the red grapes.
2 for 69c; 4 for \$1.29; 8 for \$2.48; 12 for \$3.48; 25 for \$6.50.

Gurney's Red, White and Blue Grape Collection

1 Beta—Blue-Black

3 Concord—Blue

1 Niagara—White

1 Delaware—Red

6 CHOICE
GRAPES **\$1.19**
FOR ONLY

FREDONIA

THIS IS THE KING OF BLACK GRAPES. It is early, in fact, three weeks earlier than Concord, very hardy, a very heavy producer and a vigorous grower. The bunches are compact and the berries really have the most wonderful flavor.
2 for 69c; 4 for \$1.29; 8 for \$2.48; 12 for \$3.48; 25 for \$6.50.

GOLDEN MUSCAT

Hardy Eating California Grape
New hardy eating Grape. A big California type grape that's really hardy in the Midwest. Big sweet clusters of large golden yellow grapes.
Each, 89c; 2 for \$1.75; 4 for \$3.39; 8 for \$6.63; 12 for \$9.75.

CORONATION CHERRY

New—Hardy—Better

Here is a cherry hardy enough to make it profitable for our South Dakota planters to grow a fine cherry. Good anywhere. A very large cherry of high quality. Bears early. Fine for jelly or for eating off the tree. If you are a northern planter, and can choose but one tree—choose Coronation.

Strong Trees—Each \$1.35; 2 for \$2.39.

**EARLY
RICHMOND**

The Early Pie Cherry

Try the EARLY RICHMOND, we know you will like it. The cherries have a bright red skin and red juicy flesh. The flavor is quite tart, marvelous for pies or canning. It is a strong grower and a heavy producer. You people south of Southern Minnesota and central So. Dakota have ideal conditions for Pie Cherries. Order Gurney's Early Richmond, we are sure you won't regret it.

**MONTMORENCY
The World's Best
Cherry**

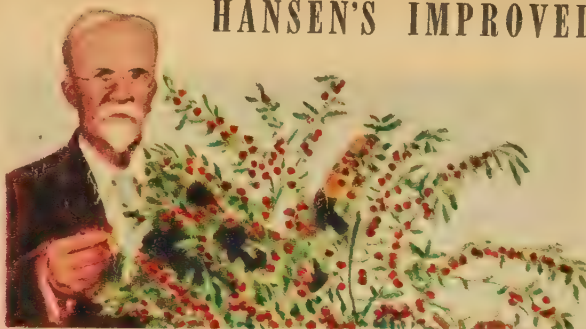

Here is the most widely planted Cherry. What everyone likes must be good. The fruit is large with firm flesh, of fine flavor. The cherry is a bright red, very handsome and wonderful for canning and preserves.

GOLDEN SWEET

**Our Hardest Sweet Cherry
—Birds Won't Touch!**

Here's a real treat—a sweet cherry that's hardy and with fruit that birds won't bother. Absolutely loaded with beautiful golden cherries that are SWEET and juicy and delicious. Every yard should have several cherry trees and whenever planted, one of the first to plant is this unusually fine cherry.

HANSEN'S IMPROVED BUSH CHERRY

The Improved Bush Cherry

This is the improved strain of the original Hansen's hardy, dwarf Bush Cherry. It's really a miracle plant. Grows like a bush from 4 to 5 feet high, makes a beautiful ornamental shrub, for landscape planting, especially in the spring when it is covered with blooms from one end of the branches to the other. In fact, it's one of the most gorgeous sights in the spring. And, best of all, it yields almost as much fruit as a plum tree and there's no waiting for it. Bears large clusters of sweet cherries (shaped like plums) the first year, after planting.

GOOD EATING AND HARDY

This improved strain is better eating than ever, either fresh, canned or in preserves. Very hardy too. Plant 3 to 4 ft. apart. Price: 12/18 inch plants, 24c; 3 for 69c; 18/24 inch plants, 34c each; 3 for 89c; 2 to 3 ft. Heavy, 45c each; 3 for \$1.19.

2 Flowering Shrub Cherries PRUNUS JAPONICA Flowering Shrub Cherry

This Cherry grows in bush form, rich foliage, narrow leaves, fine branched. Covered with beautiful cherry flowers in spring. Produces an abundance of bright red berries that are excellent for pies, canning, preserves, etc. They may be planted in groupings along the border of your yard or as a foundation planting.
18 to 24 in., 49c; 3 for \$1.29.
2 to 3 ft., 59c; 3 for \$1.59.

Prof. Hansen's Selected Large Fruiting BUDDED-BUSH CHERRIES

These are selected, budded varieties of the Bush Cherries introduced by Dr. N. E. Hansen. They are extremely drought resistant and can be successfully produced under most severe conditions. Bear fine fruit after planting. Much larger and better flavored than ordinary bush cherries.

NANKING CHERRY Both Fruit and Flowers

A FLOWERING CHERRY that is a tree or bush that will charm and delight you. It is beautiful with showy blooms all along the branches. Fruit is attractive red, juicy and delicious. Size about 1/2 inch. Good for pie or canning.
1 yr. 2 to 3 ft., 39c ea.; 3 for \$0.98
1 yr. 3 to 4 ft., 49c ea.; 3 for \$1.29

RED SILVER

Most Beautiful Flowering Crab

Rich red in flower, leaf, bark, and fruit. This gorgeous tree is not only a striking sight when covered with masses of red flowers, but is showy all summer with its red leaves tinted silver on under side and fiery red fruits.

Small growing, can be used as color contrast in shrubbery group or as a beautiful small ornamental tree.

Each strong Tree—98c each, 2 for \$1.89.

Gurney's Giant Garden Seed Packets Cost You No More!

ORDINARY PACKETS

Often times you'll find the seed packets in some grocery and department stores who have a few odds and ends of seeds are big papers, but the amount of seed they hold is MIGHTY SMALL.

GURNEY PACKETS

Gurney's packets often hold 3 TIMES the amount of seed of ordinary packets. They're made extra-generous because we believe in giving you your money's worth and a little more.

GURNEY'S BEANS

SPECIAL BEAN OFFER

- 1 Pkt., 3 oz. Tendergreen
- 1 Pkt., 3 oz. Burpee's Stringless Green Pod
- 1 Pkt., 3 oz. Improved Golden Wax Beans

All for **24c**
Postpaid

Plant lots of Beans this year. 5 or 10 pounds aren't too many for a small family. A pound will plant 2 rows, 50 feet long. Cover beans about 2 inches. Space rows 20 to 30 inches apart in rich warm soil. Make first planting when severe frost danger is past. Make more plantings every two weeks.

And remember to buy a few extra pounds of beans when you send your order. Beans are the WORLD'S CHAMPION "FILL-IN" CROP. Wherever an early crop like radishes or lettuce is done with the ground, put in another row of beans. Beans like hot weather and this way you use your garden double and GET 2 CROPS OFF the same space.

Beans Build Health—Eat Plenty

Gurney's Garden and Flower Seeds Are TRUE-TO-NAME

Crop from ORDINARY STORE SEEDS

Crops from ordinary store seeds often run irregular, runty, not true-to-type. They then aren't worth the trouble it takes to plant and care for them, let alone the cost of the seed. Your results are no better than the seeds you plant, so don't take a chance on seed you're not sure of. No use risking an entire crop on cheap seeds.

From
Superior
Strains

CROPS FROM GURNEY'S SEEDS

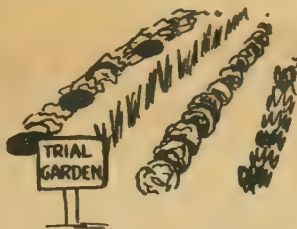

Your crops from Gurney's seeds will run regular, true-to-type because they are from Superior strains of seeds carefully tested and rogued to make sure you get ONLY THE BEST. We've been in this business a long time and KNOW SEED. Don't take a chance on poor seed.

Gurney's Seeds Are Guaranteed to Grow

GURNEY SEED TESTED in GERMINATION

Every lot of seed we sell you has been carefully tested for purity and germination many times and is GUARANTEED TO GROW FOR YOU. This extra-care costs you no more.

ALL GURNEY SEED IS TESTED IN TRIALS

Besides testing Gurney's seeds in the laboratories, lots are checked in our big trial grounds to be sure that every lot is true-to-name, of the finest type and just what we tell you it is.

Gurney's Seeds Cut Your Grocery Bill

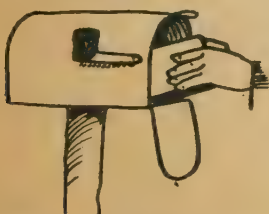

DON'T BUY IT!

Groceries cost money, when you buy everything you eat. Besides groceries are getting harder and harder to buy. Some will not be available long.

GROW IT!

A garden is almost a necessity this year. Besides cutting your grocery bills way down, it will make available to you fruits and vegetables in your own backyard that may not be available in your grocery store.

GURNEY'S SEEDS ARE POSTPAID TO YOU

Don't Take a Chance on Cheap

"Store Seeds"

Buy Direct from Expert Seedsmen

GURNEY'S

For years we have been experimenting with many varieties of tomatoes. As you probably know it takes a pretty good tomato to grow successful crops up here in the Northern States. We have no hesitancy in saying any tomatoes listed in the Gurney catalog will make successful crops for you in either of the Dakotas or in the surrounding states. When you buy tomatoes from Gurney's you are buying the very best.

We have tried hundreds of different varieties and have selected only those that are well suited to this general territory every one of which is dependable and will give you a maximum of the best well fleshed tomatoes.

Because of our short seasons you should start the tomato seedlings in the house, in the hot bed or in a cold frame real early. Have good vigorous stocky plants ready to start blooming when frost danger is over. Tomatoes like reasonably rich soil but don't fertilize them too heavily. If your garden is exposed to hot southwest winds be sure to plant your tomatoes on the protected side. Plant them on the north or east side of corn, castor beans or buildings. This will help insure maximum crop.

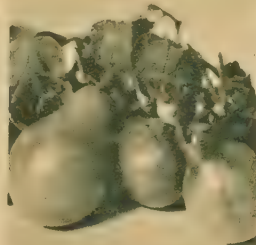

One packet of seed is generally enough for plants for hundred feet of row. One ounce of seed should grow 2,000 plants if you have good luck with them. You will find complete culture printed on the packets.

← YELLOW PEAR

For Preserves and Sauce

419—If you want delicious preserves, plant this bright yellow, pear shaped tomato. Yeager's Yellow Pear is fully 2 weeks earlier than the common Yellow Pear and yields immense crops.

Pkt., 5c; ½ oz., 25c; 1 oz., 40c. All Postpaid.

SCARLET TOPPER or PRITCHARD

The Perfect Canner

423—A tomato with very small seed cavities and no core. Its productiveness is amazing, individual plants will sometimes produce nearly a bushel of fruit. It is medium early. The tomatoes are large globe shaped, smooth and of an intense scarlet color. Every time we sell a package of Scarlet Topper we make a friend.

Pkt., 5c; ½ oz., 25c; 1 oz., 40c. All Postpaid.

← BREAK O'DAY Early and Disease Resistant

404—This as a Good Tomato—good for slicing, for canning, or for marketing.

It is a cross Marglobe and Marvanna; is very early, yet retains all the good qualities of Marglobe, being a smooth, solid, bright red, globe shaped tomato. It is nearly as early as Earlibell. Does not crack and the seed cavities are small. For earliness and high quality Break O'Day is a winner.

Pkt., 5c; ½ oz., 20c; 1 oz., 35c. All Postpaid.

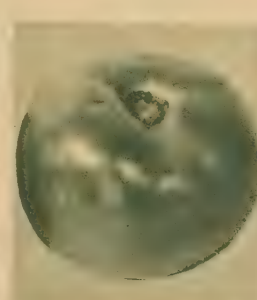

← PONDEROSA

Biggest of All

418—The largest tomato grown, often producing fruit weighing 2 pounds or more. The immense tomatoes are flat, nearly solid, and of a delightfully mild flavor. It is one of the best for slicing or canning. Ponderosa is a heavy yielder and ripens after the early varieties.

Pkt., 8c; ½ oz., 30c; 1 oz., 50c. All Postpaid.

← NEW TENDERGREEN

The Dark-Green Canner

106—An entirely new green podded bush bean, enormously prolific, entirely stringless, and bearing a profusion of finely flavored beans that are more tender than those of any other variety. The pods of Tendergreen are long and round, a lovely dark green in color, absolutely free from strings and fibre, and are of the finest eating qualities. Plants are of strong upright dwarf growth. Tendergreen is a bean of real merit, combining productiveness and hardiness with the highest quality, and we urge a generous planting. Splendid for canning. Matures in 55 days.

Triple size pkt., 10c; ½ lb., 26c; 1 lb., 45c; 3 lbs., \$1.12. All Postpaid.

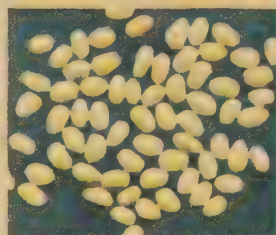

← BURPEE'S STRINGLESS GREEN POD

Drought and Heat Resistant

107—(50 days). This extra early dwarf green pod bean is a very heavy bearer. The medium size, meaty, green pods are absolutely stringless, of high quality, and excellent flavor. Besides their other good qualities, they will stand more drought than any other variety. The seed is dark brown.

Triple size pkt., 10c; ½ lb., 24c; 1 lb., 43c; 3 lbs., \$1.05. All Postpaid.

DRY BEANS

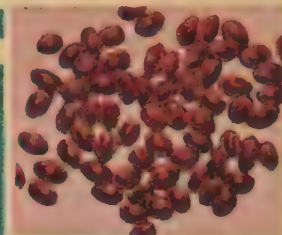

NAVY BEAN

The Small Soup Bean

102—Best yielder of any of the dry or soup beans. Erect bushes keep pod off damp ground. Long uniform pods. Raise a lot. They'll keep 'til you need them.

Triple size pkt., 10c; ½ lb., 19c; 1 lb., 33c; 3 lbs., 80c. All Postpaid.

RED KIDNEY

For Baking or Soup

128—This is the RED soup bean, similar to the Navy except for color. Easy to grow and a very heavy yielder of large, dark red, dry beans. Ideal for baking or soup. Triple size pkt., 10c; ½ lb., 18c; 1 lb., 33c; 3 lbs., 80c. All Postpaid.

Remember These Points About Bean Planting

1. To help prevent rust, don't pick beans when plants are wet or damp.
2. To combat bugs and disease, use Gurney's BUG DUST regularly.

IMPROVED GOLDEN WAX Heavy Yielder—Good Canner

116—(52 days to maturity)—This extra early wax bean is one of the best for the home garden. The long, straight, waxy yellow pods are absolutely stringless. They are heavy bearers of delicious quality beans, which are excellent for canning or pickles. The seed is white, mottled with red and purple.

Triple size pkt., 10c; ½ lb., 27c; 1 lb., 48c; 3 lbs., \$1.15. All Postpaid.

Everbearing Wax Rustproof Bush Bean Disease Resistant

112—This bean only takes 65 days to mature. Very best for canning and also the most excellent, tasty beans you have ever eaten when used fresh as string or snap beans. The plants are very large, practically rust-proof, and bear enormous crops of beautiful long yellow pods.

Triple size pkt., 10c; ½ lb., 25c; 1 lb., 40c; 3 lbs., 98c. All Postpaid.

PENCIL POD BLACK WAX The Heavy Yielder

105—(55 days to maturity)—A wonderfully flavored, rich dark yellow stringless snap bean. It is a very vigorous and hardy plant, being one of the few to survive the heat and lack of moisture of our summers. The thick meaty pods are very brittle and cook up into a very appetizing dish. The seed is black when ripe.

Triple size pkt., 10c; ½ lb., 23c; 1 lb., 39c; 3 lbs., 98c. All Postpaid.

EARLIEST BRITTLE WAX The Early One

110—Five reasons why you should plant this bean:

1. Quality:—Absolutely stringless, very tender, and most delicious.
2. Yield:—The vines are large, vigorous and are completely covered with pods for long season.
3. Appearance:—The long straight pods are a beautiful yellow.
4. EARLY:—ready in only 50 days.
5. Hardiness:—Nearly blight proof and very drought-resistant.

Triple size pkt., 12c; ½ lb., 24c; 1 lb., 43c; 3 lbs., \$1.05. All postpaid.

133—EDIBLE SOY BEANS

(90 days). You've heard a lot about edible soy beans. Well, here they are—the great big green kind, ready for the table in about 90 days after planting. Beans are bright green in color and when mature turn to yellow. Prepare them for the table just as you would lima beans, or dry beans. Soy beans shell easily if you let the pods stand in boiling water for about 5 minutes. Price: Pkt., 10c; ½ lb., 25c; 1 lb., 40c; 3 lbs., 98c. Postpaid.

Green Kentucky Wonder or Old Homestead

134—(65 days to maturity). This climbing variety is very vigorous and productive and bears its pods in large clusters. The pods are green, very long, often being nine or ten inches, nearly round, stringless and very crisp when young, and so fleshy that they are greater in width than breadth.

Triple size pkt., 10c; ½ lb., 27c; 1 lb., 46c; 3 lbs., \$1.15. All Postpaid.
Grow pole beans by the garden fence—on a trellis or in the corn—where the corn cultivator will tend them for you.

ALL STATE

Produces When Others Fail

407—From NORTHERN NORTH DAKOTA, MONTANA, MINNESOTA and WISCONSIN with their short growing season, down through SOUTH DAKOTA, IOWA, and NEBRASKA, you will find THIS WONDERFUL NEW TOMATO IS BETTER than the variety you have been raising. The smooth red Tomatoes are as early as Bison or Earlibell, and NEARLY TWICE AS LARGE. This is the HEAVIEST YIELDING Tomato we have ever seen. The plants are literally loaded down with fruit. They are medium size, with enough leaves to prevent sun-scauld. The fruit is a beautiful bright red, very solid, has few seeds. Pkt., 15c; ¼ oz., 25c; ½ oz., 45c. All Postpaid.

BOUNTY

The Early and Smooth One

417—Yes, we say it's the finest tomato grown. So SMOOTH and FIRM and with such a pleasing flavor. Outyielded six other commonly planted varieties from 10% to 90% in experiment station trials.

BOUNTY is EARLY RIPENING, SELF-PRUNING, UNIFORM IN COLOR and TOPS IN QUALITY. A North Dakota Station introduction. ORDER EARLY, Seed Supply Very Limited.

Pkt. 15c; ¼ oz. 20c; ½ oz. 35c. Postpaid.

GOLDEN QUEEN The Smooth and Prolific Yellow One

412—"Queen of the Yellows"—The largest yellow tomato. It is early and very prolific. The large yellow tomatoes are smooth and very mild.

Pkt., 5c; ½ oz., 25c; 1 oz., 39c. All Postpaid.

YELLOW HUSK or GROUND CHERRY

Easy to Grow

413—This early dwarf type is the only one suitable for the North. The fruit is about the size of a cherry, bright yellow enclosed in a husk. Makes wonderful preserves and pies.

Pkt., 7c; ¼ oz., 25c. All Postpaid.

EARLIANA

Earliest of the Lot

411—The earliest, large, smooth red tomato. This tomato is not only remarkable for its earliness but for its large size, handsome shape, and bright red colors. Enormously prolific. The finest for the Northern market and home garden.

Pkt., 5c; ½ oz., 26c; 1 oz., 40c. All Postpaid.

BISON

Best for the North

414—One of the best and earliest tomatoes developed by Professor A. P. Yeager. Instead of wasting its vitality making a large plant, Bison is self-pruning and forms a compact bush. It puts all its energies into producing and ripening a heavy and extra early crop of smooth, solid, meaty, medium sized red tomatoes. Pkt., 7c; ½ oz., 25c; 1 oz., 40c. All Postpaid.

EARLIBELL TOMATO

The Vigorous Early One

402—An immense yielder of beautiful crimson tomatoes of extra fine flavor. The fruits are smooth and do not split easily. The vines are thrifty with enough foliage to shade the fruit so it will not sun-burn. Again, I urge you to plant Earlibell.

Pkt., 8c; ½ oz., 24c; 1 oz., 45c. All Postpaid.

FIRESTEEL

The Drought Resistant

427—(62 days). This is the finest of the new tomato introductions, originating in Dakota where it takes a good tomato to make good. Firesteel is a large fruited sort, globe shape, deep crimson in color, unaffected by heat and drought, yields tremendously. Fine for slicing or for canning. Solid enough for shipping. Price: Pkt., 10c; ¼ oz., 20c; ½ oz., 35c. Postpaid.

GURNEY'S DELICIOUS DRY-LAND PEAS

Gurney's strains of peas are all Northern-grown and carefully selected for disease resistancy, for type and for vigor. Don't take chances with anything but the best.

Plant your smooth varieties of peas just as early as you can get in the ground in the spring. The wrinkled varieties should be planted about a week later. All varieties of peas appreciate support, even the dwarfs would like some brush or a trellis to grow on. Keep the pods up off the ground. They will give you a bigger yield, too.

← Edible PODDED PEAS

Eat Like Pod Beans

160—Dwarf Gray Sugar: (57 days)—The pea with pods so juicy and tender you do not shell them but eat pods and all like string beans.

The vines grow about 20 inches tall and are heavy bearers. Give these a trial, and I know you will never be without them again.

Triple size pkt., 10c; ½ lb., 25c; 1 lb., 40c. All Postpaid.

← LITTLE MARVEL

The Tender, Sweet One

152—If I could have but one kind, it would be Little Marvel. Take my word for it. I've tried 'em all—very tender, heavy yielder, and it will be a long time until we find a better one. In yield, earliness, and quality and delicious sweetness it is tops.

Triple size pkt., 10c; ½ lb., 27c; 1 lb., 45c; 3 lbs., 98c. All Postpaid.

← AMERICAN WONDER

Sure Grower—Big Yields

149—Our improved strain of American Wonder is one of the earliest Wrinkled Peas grown. The dwarf vines grow about 1 foot tall and are covered with medium size pods.

This is the sweetest and tenderest pea we have ever raised. If you want quality, plant American Wonder.

Triple size pkt., 10c; ½ lb., 22c; 1 lb., 38c; 3 lbs., 87c. All Postpaid.

Some Satisfied Gurney Customers and What They Grew

Dear Sirs:

I am sending a snapshot of vegetables I had in my garden. The cabbage in the picture is the disease resistant and weighed 14 pounds. We need seeds that grow here for there are 7 children in the family and they are all good eaters. We know that Gurney's seed will always give best results. We have a big garden every year.

Enid Hannaman,
Blue Earth, Minnesota.

Gurney Seed & Nursery Co.,
Yankton, S. Dak.

Dear Sirs:

I'm enclosing a snapshot which will give you an idea of how this Gurney's Golden Hybrid produced in southern Michigan. I am husking the last few days and the ears are a good criterion of the size of stalks you see in the snapshot.

Sincerely,
Rev. A. J. Arendt,
Hartford, Mich.

Gentlemen:

This is the north view of our farm-home, northwest of Butte, Nebr. We are mighty proud of the Spirea and other flowering shrubs from Gurney's. We always know we can depend on Gurney's for our seeds, plants, bulbs, and nursery stock of all kinds.

The Spirea was simply loaded with masses of bloom when the picture was taken.

Mr. & Mrs. C. M. Freeman,
Butte, Nebr.

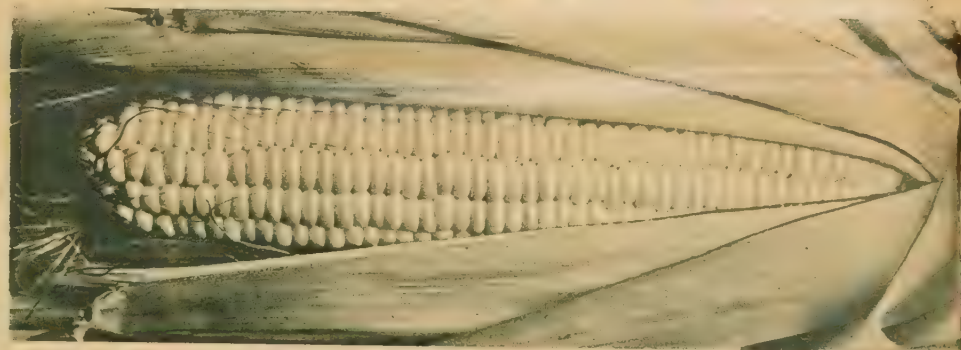

Gurney's Inc.,
Yankton, S. Dak.

Gentlemen:

I read your planting magazine with a great deal of interest and would like to see more of them. This picture shows my husband standing by some Chinese Elm trees we ordered from Gurney's. The trees were the 18-24 in. size and were planted May 5, 1941. The picture was taken just a year and 3 months later. We like your seeds too.

Mrs. Freedom Martin,
Rt. 1, Oslo, Minn.

GURNEY'S

GOLDEN BANTAM CORN Favorite of All

177—The standard Yellow Sweet Corn. Most popular corn in cultivation. A heavy producer of fine roasting ears, usually 2 to the stalk. Rich Golden Yellow. The standard by which all sweet corns are judged. Tender, sweet and deliciously flavored.

Triple size pkt., 10c; ½ lb., 20c; 1 lb., 36c; 3 lbs., 95c. All Postpaid.

184—STOWELL'S EVERGREEN. Here's the big main crop sweet corn—the largest, and one of the best. Immense stalks produce long 10 inch ears. Kernels deep, white, sweet and tender. It stays in condition for table use for a long time. To lengthen out your roasting ear season, plant Stowell's Evergreen. Cannery and market growers plant lots of it. Price: triple size packet, 10c; ½ lb., 20c; 1 lb., 36c; 3 lbs., 95c, postpaid.

About Sweet Corn

Some of people's fondest memories have to do with sweet corn—especially roasting ears. You should have roasting ears early, mid season and late. You never can get too many.

This year, plant sweet corn and plenty of it. Remember Gurney's Special Strains are carefully selected for vigor and vitality. You can depend on them. They have all been carefully tested. You'd be surprised at the number of roasting ears that you can grow in a small sized town garden. Sweet corn doesn't grow as vigorous as field corn, so you can space the hills as close as 15 inches apart if you work them by hand and get an abundant crop. Sweet corn is a "four way" crop. You can use it fresh, canned, frozen or dried. The main thing is to plant lots of it so that you will have plenty for yourself and some extras for the neighbors. Make several plantings about one week apart so you'll have corn coming on all season long.

One pound plants 150 hills, 8 to 10 pounds plants an acre.

YANKTON MAIN CROP

The Drought Resistant Pea

157—(65 days)—Plant Yankton Main Crop and assure yourself of green peas all season, and peas of the finest, sweetest quality and tenderness that you have ever tasted.

This hardy pea is absolutely the most drouth and heat resistant of all, bearing good crops when all others are burned and gone. The vines grow about 2 feet tall and are filled with large pods containing from 6 to 10 delicious peas.

Triple size pkt., 10c; ½ lb., 25c; 1 lb., 40c; 3 lbs., 95c. All Postpaid.

BIG DAKOTA

The Big Yields for the NORTH

144—You want the most peas you can get, don't you? Then plant Big Dakota, because by actual count we have found that they yield more pods to the vine and more peas to the pod. They are of delicious quality, and luscious tasting.

If you want the largest peas you have ever raised, plant Big Dakota. Thousands say this is the finest pea they have ever grown.

Triple size pkt., 15c; ½ lb., 27c; 1 lb., 44c; 3 lbs., 98c. All Postpaid.

EARLY ALASKA Disease Resistant

146—Earliest of All (52 days to maturity)—Alaska is absolutely the earliest pea and the heaviest yielder. The slender light green vines grow about 2 feet tall and are literally covered with pods. The peas are of excellent quality, and as they all ripen at once, are easy to gather. If you want a lot of peas and want them early, plant Alaska.

Triple size pkt., 10c; ½ lb., 25c; 1 lb., 40c; 3 lbs., 95c. All Postpaid.

LAXTONIAN

The Vigorous, Sure to Bear Pea

141—The Top Notch Early Pea: This is a pea that just suits me, and I eat lots of peas during the season. I like them any way they can be served.

The vines of this extra early, heavy bearing, dwarf pea are very stocky and vigorous. The pods are very long, dark green and simply bursting with immense, sweet, tender peas.

Triple size pkt., 10c; ½ lb., 25c; 1 lb., 42c; 3 lbs., 96c. All Postpaid.

Gurney's Carrot Seed

Make your first planting just as soon as you can get in the soil in the spring and then successive plantings throughout the season so that you will have plenty to put away when winter comes. Cover the seed about ½ in. deep and the row 18 to 24 inches apart and thin them out 2 to 4 inches apart in the row if you want big carrots. One ounce of seed is enough for a hundred feet of row.

EARLY CORELESS

For Home Use or Market

634—The best carrot grown. The beautiful orange roots grow about 8 inches long, 1½ inches thick, and are the same size from top to bottom. They are very sweet and tender, nearly coreless and one of the finest carrots for bunching or for winter.

Pkt., 12c; oz., 45c; ¼ lb., \$1.35. All Postpaid.

DANVERS HALF LONG For Canning or Storage

627—Danvers carrot is a Prize Winner. Medium in length, and of rich orange color, the size and type that everyone likes. Danvers is one of the best quality carrots, and is large enough to outyield almost any other variety, often yielding from 15 to 20 tons per acre.

Pkt., 10c; oz., 40c; ¼ lb., \$1.20. All Postpaid.

EARLY PIE CARROT

The Big, Sweet and Juicy One

640—Did you ever eat a pumpkin pie? Sure you did Good, wasn't it? Well, the next time, try a carrot pie. It will be better, and Pie Carrots make the best pies. Carrots for pies can be used from the time the small carrots start to develop until the old ones are gone in the spring. Plant Pie Carrots and raise your own pies.

Pkt., 10c; oz., 40c; ¼ lb., \$1.20. All Postpaid.

OXHEART Early and Tender— The Blunt One

629—This short, broad carrot is the heaviest yielder of the table carrots, and the easiest to harvest. The roots are sometimes 5 inches in diameter and about the same length. Because of their immense yield, they are often planted for stock food, although they are really an excellent table carrot.

Pkt., 10c; oz., 40c; ¼ lb., \$1.20. All Postpaid.

STOCK CARROTS For Stock and Poultry

631—Mastodon: This giant white stock carrot will produce as many tons of feed per acre as mangels or turnips. They grow about 2 feet long and weigh from 1 to 2 pounds each. Horses, cows, hogs, and poultry like carrots and thrive on them.

Pkt., 5c; oz., 20c; ¼ lb., 65c. Pp.

About Carrots

This is one root crop you can depend on every year. What you can't use for yourself for the table, the poultry and stock will enjoy. Sometimes it is a good idea to sow a few radishes in the row with carrots. Radishes come quick and mark the carrot row so you can start cultivating early.

RED CORED CHANTEENAY

630—Small cored, with bright orange flesh, fine grained, tender and sweet. It is medium early, maturing in about 60 days. The tapering roots are about 6 inches long and 2 inches in diameter.

Pkt., 10c; oz., 40c; ¼ lb., \$1.20. Postpaid.

SWEET CORN

Sweet Cross Hybrid Big Yield—Best Flavor

175—This corn means dollars to the market gardener and it means delicious roasting ears and lots of them.

Sweet Cross is one of the best yielders. The large, golden yellow ears grow about 7 inches long and are sweet and tender. Same season as Bantam.

Triple size pkt., 15c; ½ lb., 33c; 1 lb., 55c; 3 lbs., \$1.49. All Postpaid.

PURGOLD HYBRID

Great for Canning

171—This is a wonderful new Hybrid Sweet Corn. It has large, deep-kernelled ears with such a tasty, sweet flavor. Large, vigorous stalks and a real producer. Outyielded all other corns in our trials at Yankton. Only 5 days later than Golden Bantam.

Triple size pkt., 15c; ½ lb., 32c; 1 lb., 53c; 3 lbs., \$1.45. All Postpaid.

Early Giant Bantam Hybrid

Earliest of All

178—The sweetest, finest home garden corn and the earliest, too. Early Giant will give you corn long before your neighbors and nicer, bigger, sweeter ears you never tasted. A fine early market garden corn. A week ahead of Golden Bantam corn. Price: Triple Size (3 oz.) pkt., 15c; ½ lb., 33c; 1 lb., 55c; 3 lbs., \$1.49. Postpaid.

GOLDEN SUNSHINE

174—This large-eared variety originated by North Dakota Agricultural College for Dakota growing conditions—but does well anywhere—can take hot, dry weather. The ear is 12 rowed and 7 to 8 inches long, a heavy bearer of sweet and tender ears, larger and earlier than Golden Bantam.

Triple size pkt., 10c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 94c. All Postpaid.

STOWELL'S EVERGREEN HYBRID

185—A big white eared, medium long, 14 to 18 rows, deep narrow kernels, very tender and very sweet. Fine for home use or market gardeners. Vigorous grower, all stalks 8 to 10 feet long, heavy yielder, grows anywhere. Price:

Triple size pkt., 15c; ½ lb., 35c; 1 lb., 58c; 3 lbs., \$1.55. All Postpaid.

Why HYBRID Sweet Corn IS BETTER

- Heavier Yields
- Disease Resistant
- Sweeter
- Larger Ears
- More Tender

Just like most farmers are turning to HYBRID CORN in their fields, all gardeners are switching to HYBRID SWEET CORN IN THEIR GARDENS. It has proven better in every way.

By careful breeding work, hybrid sweet corn has now been made to yield many more roasting ears than sweet corn ever did before and better yet, the kernels are much more tender and so much more sweet, you can hardly believe there could be so much improvement.

Also by breeding, the ears have been made larger, the rows uniform, and the corn more resistant to disease. It is more vigorous and easier and surer to grow.

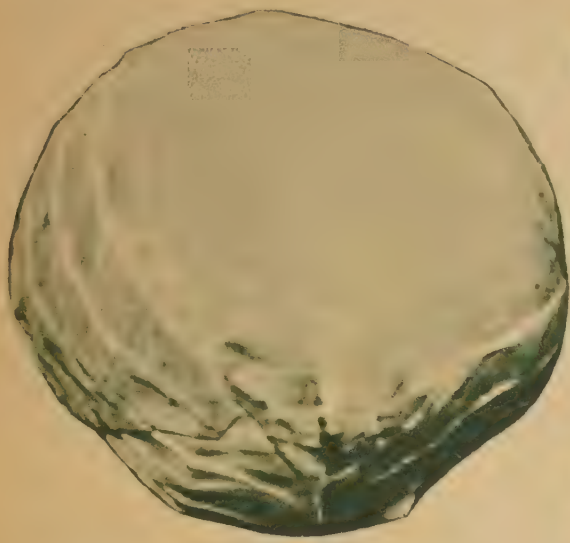

It doesn't cost more to plant hybrid sweet corn and the extra-yield, the better flavor and tenderness will make you sold on it forever. Try it this year. Varieties listed above. All season blend at right.

HYBRID SWEET CORN MIXED

Roasting Ears—All Summer

173—Here is a special blend of GURNEY'S HYBRID Sweet Corns to give you an all season supply with just one planting. Hybrid Sweet Corn is sweeter, more tender, deeper kernelled, and disease resistant. This year enjoy sweet corn each week all season. All kinds of yellow hybrids are blended together to give you roasting ears from early to late if you can plant only one kind.

Triple size pkt., 14c; ½ lb., 23c; 1 lb., 45c; 3 lbs., \$1.15. All Postpaid.

DANISH BALLHEAD

The Sweet and Solid One

531—Short Stemmed: This is undoubtedly the best late cabbage—desirable for kraut, for storage, and for shipping. The plants are large and sturdy with short stems. The solid round heads weigh from 7 to 10 pounds each. The flavor is very good and the leaves are very crisp and tender. This is the ideal cabbage for high quality kraut.

Danish Ballhead Cabbage will stand hot, dry weather—does not rot easily in wet seasons, and the heads very seldom burst. Yields of 15 tons per acre are not unusual.

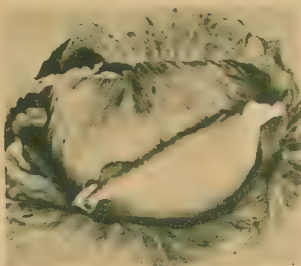

Pkt., 6c; ½ oz., 27c; 1 oz., 50c. All Postpaid.

CABBAGE

There's not another vegetable where seed quality counts for as much as with cabbage. Our strains are all sure to make solid heads as seed strains are carefully selected.

Start seeds 6 to 10 weeks ahead of outdoor planting time in the house, hotbed, or cold frame. Cabbage likes rich soil. Space plants 18 in. apart in rows 2 to 3 ft. apart. If worms should happen to bother, use Gurney's Bug Dust. More suggestions printed on packets.

LATE VARIETIES

Premium Late Flat Dutch

The One for Kraut or Storage
535—This is the largest cabbage grown. The immense solid heads often weigh more than 20 pounds, and are very white, crisp, and tender. Late Flat Dutch is a good winter keeper. One of the favorite varieties we list.

Pkt., 5c; ½ oz., 24c; 1 oz., 44c. All Postpaid.

Mammoth Red Rock

The One for Salads and Pickling

533—This is the best and largest of the red cabbage. The heads are round and extra solid. This beautiful deep red cabbage makes delicious slaw and pickles. You want to be sure and try it.

Pkt., 15c. Postpaid.

Gurney's BEETS

Beets are easily grown on any soil. Plant 1 inch deep in early spring. Thin the plants to 3 inches in the row. Beets for winter use should be planted about June 1st. 1 ounce seed for 50 feet, 6 pounds per acre. Gurney Beet seed comes from the leading production centers of the country. YOU CAN'T BUY BETTER SEED. Make successive plantings from real early spring to mid-summer. Beets from fall crop are of wonderful quality.

DAKOTA WONDER

The Early—Deep Red One

607—A beautiful smooth, globe-shaped beet with small neck and tap root. The flesh is an intense dark red. You may pull a dozen or a hundred beets and there will be no variation in shape. Cut them and every one will be the same glowing dark red color. Very early. Good for bunching and winter use.

Pkt., 8c; oz., 30c; ¼ lb., 90c. All Postpaid.

← DETROIT DARK RED

"World's Champion" Beet

604—This dark red beet is a winner for every purpose. It is early and the small tops and good shaped globe roots make it ideal for bunching. The flesh is very dark red with faint rings. Very sweet and tender. One of the best winter keepers. More Detroit Dark Red are grown than all other varieties combined and that is simply because year after year it does better in gardens anywhere than any other beet variety. If you can plant but one beet, be sure it is Detroit Dark Red.

Pkt., 10c; oz., 30c; ¼ lb., 90c. All Postpaid.

EARLY MODEL GLOBE

The Perfect Deep Red Beet

609—Most beets have light rings which spoil their appearance when cut. Through years of careful selection, we have practically eliminated these rings in Model Globe. They are dark red clear through. Model Globe is medium early, good for bunching or winter use. And best of all, Early Model Globe is a very tender and sweet beet of the very highest quality. Good for both table use and also for canning. For the best beets, even in size, color, and shape, plant lots of Early Model Globe. You'll be glad you did and will have the most perfect regular beets you've ever had. Pkt., 8c; oz., 27c; ¼ lb., 80c. All Postpaid.

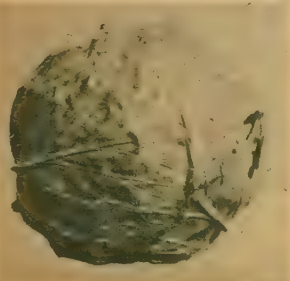

← CROSBY'S EGYPTIAN

For Pickles and Canning

603—This is the smoothest and best bunching beet. The tops are small and the globe shaped roots are a very attractive red. The vermilion red flesh is very sweet and tender. Exceptionally good for canning or pickling. For your early planting, try Crosby's Egyptian. Pkt., 6c; oz., 23c; ¼ lb., 75c. All Postpaid.

EARLY VARIETIES

Earliest of All

The Earliest

515—In our trial gardens at Yankton, this new extra early cabbage has produced the largest percentage of good heads.

The heads are nearly round, medium size, and extra solid. The home or market gardeners are always satisfied with Earliest of All.

Pkt., 6c; ½ oz., 25c; 1 oz., 48c. All Postpaid.

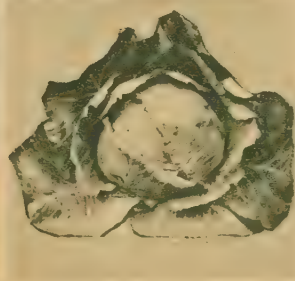

Early Ballhead

The Round and Solid One

521—We know this early summer ballhead cabbage is a winner and a money-maker for the market gardener.

The heads are perfectly round, very solid, compact form, can be planted closer than most other varieties, and will yield more tons per acre.

Pkt., 6c; ½ oz., 27c; 1 oz., 50c. All Postpaid.

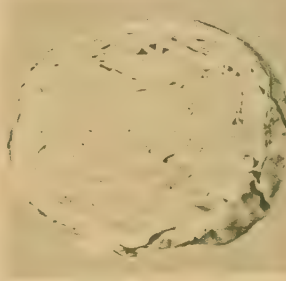

Copenhagen Market

The Sure Cropper

519—This large, solid, extra early round headed cabbage has taken the place of most of the other early varieties until now over half the early cabbage is Copenhagen Market. It is good enough for the large commercial cabbage growers in Wisconsin, Minnesota, and Iowa.

Pkt., 6c; ½ oz., 27c; 1 oz., 50c. All Postpaid.

Golden Acre

The Early and SURE One

524—Early, round-headed cabbage which closely resembles Copenhagen Market in type. As its name implies it is a money-maker. It is 8 to 10 days earlier than Copenhagen Market, but is smaller and can be planted closer. Because of earliness and fine quality it commands a higher price.

Pkt., 7c; ½ oz., 28c; 1 oz., 55c. All Postpaid.

CHINESE CABBAGE

A Vegetable You Should All Grow for Salads and Greens

539—This new Oriental Cabbage is excellent for salad purposes. In flavor, it resembles both celery and Cos Lettuce, but is much sweeter and more tender. Many people

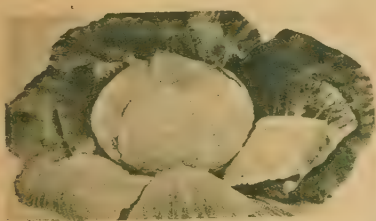

prefer it to head lettuce. It is also delicious for greens.

The heads are tall and cylindrical. They reach a height of 18 inches, and a weight of 5 pounds.

For summer use, Chinese Cabbage should be planted early in a hotbed and transplanted so they will make heads before the hot weather. If you desire a fall crop, sow in the latter part of July or early in August. Pkt., 7c; ½ oz., 35c; 1 oz., 60c. All Postpaid.

Disease Resistant Cabbage

If Yellows or Yellow Rot has destroyed the cabbage crop in your community, plant only this Yellows Resistant seed.

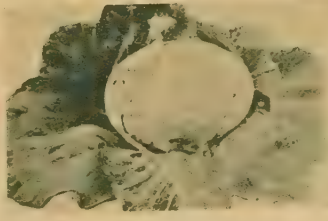

DANISH BALLHEAD YELLOWS RESISTANT

For Heavy Solid Heads

517—This is an extra fine strain of Danish Ballhead cabbage which I believe will outyield any other cabbage grown. The heads are larger.

Many communities have quit raising cabbage because of losses from Yellows. With this fine Yellows Resistant seed you can again grow cabbage profitably, as the large, solid heads always bring the highest price.

Pkt., 10c; ½ oz., 35c; 1 oz., 65c. All Postpaid.

ALL SEASONS YELLOWS RESISTANT

For Sure Crop and Good Kraut

520—This fine large Disease-Resistant Cabbage can be used early or stored for your winter supply. The solid heads weigh from 8 to 10 pounds, and make extra fine kraut. All Seasons is a heavy yielder.

Pkt., 10c; ½ oz., 35c; 1 oz., 65c. All Postpaid.

FROST-PROOF CABBAGE PLANTS

Out-Door Grown

Here they are—just what you have been looking for, thick stemmed, sturdy, husky cabbage plants, well hardened and ready for out door planting.

These are grown in the south where the seed is sown very early in the winter. They grow slowly and are tough. Set them out early. They don't mind a little frost and snow. Order now. We'll ship at proper planting time in your locality.

YANKTON, SOUTH DAKOTA
If you are now a Subscriber, you may mail or give this Valuable Coupon to a friend who is not

The new is very dark red with faint rings. Very sweet and tender. One of the best winter keepers. More Detroit Dark Red are grown than all other varieties combined and that is simply because year after year it does better in gardens anywhere than any other beet variety. If you can plant it one beet, be sure it is Detroit Dark Red. Pkt., 10c; oz., 30c; ¼ lb., 90c. All Postpaid.

EARLY MODEL GLOBE

The Perfect Deep Red Beet

609—Most beets have light rings which spoil their appearance when cut. Through years of careful selection, we have practically eliminated these rings in Model Globe. They are dark red clear through. Model Globe is medium early, good for bunching or winter use. And best of all, Early Model Globe is a very tender and sweet beet of the very highest quality. See Page 30

MANGELS

How to plant Mangel Beets: Mangel beets are easy to grow. You handle them just like ordinary beets except give them a little room. Space rows 2½-3 feet apart and when the seedlings are well established thin to 8 or 10 inches apart in the row. Sow the seed along in May after severe frosts are past. You will need around 10 lbs. of seed to plant an acre. 15 to 20 tons to the acre are common yields. Harvest before severe freezing comes on. Store the roots in a cellar or in a pit. Livestock and poultry thrive on them. Makes an ideal green winter feed. Mangel beets will give you more tons of green feed to the acre than any other root crop.

MAMMOTH LONG RED

619—The roots are very long and easily harvested as half the mangel grows above ground. They yield enormously—often 40 tons per acre. Individual roots sometimes weigh 20 pounds and are over 2½ feet long. 1 oz., 20c; ¼ lb., 65c; ½ lb., \$1.15. All Postpaid.

GIANT HALF SUGAR ROSE

616—This is a half sugar beet and is sweeter and more nutritious than mangels. The oval red roots weigh about 6 pounds each, are easily harvested, and are wonderful poultry feed. 1 oz., 20c; ¼ lb., 65c; ½ lb., \$1.15. All Postpaid.

WHITE KLEIN WANZLEBEN

620—Sugar Beet: This has the highest sugar content of any sugar beet. The long roots are pure white, and under good conditions will yield over 15 tons per acre. 1 oz., 20c; ¼ lb., 65c; ½ lb., \$1.15. All Postpaid.

SWISS CHARD

220—FOR GREENS: Swiss Chard will make more and better greens than any other vegetable. It is grown for its leaves and stems, as it does not make a bulb like other beets. The large stems when creamed are delicious and will take the place of Asparagus. It is an immense yielder and can be used from early spring until late fall.

Pkt., 10c; oz., 22c; ¼ lb., 66c. All Postpaid.

KOHL-RABI

1 Ounce for 200 Feet of Row
216—EARLY VIENNA: Makes a large bulb on the stem just above the ground. They are as easy to raise as turnips, but are more tasty. The sweet, fine grained, white flesh combines the flavor of cauliflower and turnip. Our strain of Vienna Kohl-Rabi is the finest I have ever seen. The firm bulbs are crisp and tender. The leaves are few and small. Kohl-Rabi should be used when about 2 inches through. All varieties are tough and stringy when full grown. Pkt., 10c; ½ oz., 25c; 1 oz., 48c. All Postpaid.

KALE or BORECOLE

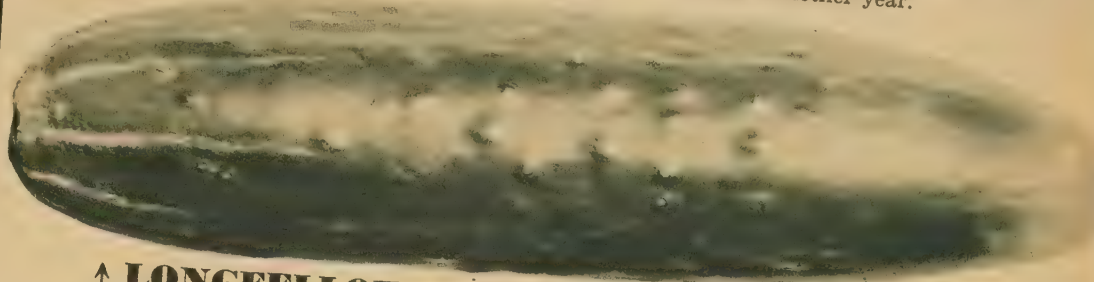

Make several plantings from early spring until August. 1 ounce sows a 500-foot row.

232—DWARF GREEN CURLED: Kale is one of the vegetables that should be in every garden. It is easy to raise and yields immense crops. Our Dwarf Green Curled is the best of all, and is delicious creamed or served as greens. The finely curled leaves are tender and delicious. Every one should eat more greens and kale is always a welcome addition to any meal. Pkt., 7c; oz., 25c. All Postpaid.

Gurney's CUCUMBERS

How to plant Cucumbers: Cucumbers will grow most any where but they like a reasonably rich soil. Plant plenty of them; you may lose some of the seedlings. Remember don't crowd them. Make the hills at least 4 or 6 feet apart, plant about a dozen seeds to the hill. Scatter them so that the hill will be at least 8 inches in diameter. Don't plant cucumbers until corn planting time, when the soil is well warmed up. You can make late plantings in June and early July. An ounce of seed is enough for about 100 hills. For good pickles use the New National Pickle; for big slicers my pick is the Black Diamond. Put up plenty of pickles. They will be hard to get another year.

LONGFELLOW

Long and Dark Green

357—This is truly a magnificent cucumber. The best of the large varieties. Its dark green color, perfect shape, and firm white flesh place it in a class by itself.

This new cucumber grows to a length of 15 inches and retains its dark green color until nearly ripe. Vines are vigorous and very prolific, bearing fruit over a longer period than any other variety. The home or market gardener cannot go wrong by planting this as his main crop for slicing or for large pickles.

Pkt., 10c; oz., 30c; ¼ lb., 90c; 1 lb., \$2.70. All Postpaid.

EARLIEST OF ALL

A New One That's Good

354—This prolific cucumber grows about 7 inches long and has blunt square ends. It is a beautiful dark green color with lighter green stripes at the blossom end. One of the earliest and best for the home gardener. Seed very scarce.

Pkt., 15c; oz., 37c. All Postpaid.

Black Diamond

King of the Cucumbers

359—1. Season—Black Diamond is early, coming into bearing right after Everbearing and New National Pickle.

2. Color—Black Diamond is an attractive dark green from end to end.

3. Size and Shape—Black Diamond grows about 7 or 8 inches long, is cylindrical in shape with blunt ends.

4. Use—Black Diamond, because of its dark green color, good shape, and earliness, is one of the finest cucumbers for small pickles or for early shipping.

FOR CUCUMBER PROFITS, PLANT BLACK DIAMOND. Pkt., 8c; oz., 27c; ¼ lb., 80c; 1 lb., \$2.40. All Postpaid.

New National Pickle

For Early Uniform Pickles

352—This is a strictly tailor-made cucumber. The National Pickle Packers Association told the seedsmen just what they wanted in an early pickling cucumber, and the New National Pickle is the result—the answer to a pickle packer's prayer.

It is very early and very productive. A beautiful dark green color. The small pickles are rather short and thick while the larger sizes are smooth and cylindrical with rounded ends. The flesh is very thick with no hollow sides. For quantity and quality, plant the New National Pickle. Pkt., 7c; oz., 28c; ¼ lb., 84c; 1 lb., \$2.50. All Postpaid.

THE COLORADO

All American Winner

363—AN ALL AMERICAN PRIZE WINNER. This is the finest cucumber on the market today for slicing or for dill pickles.

A beautiful long, slender dark green cucumber which will always bring the highest market price. It stays green longer than any other variety, and has very few seeds. For better dills, plant The Colorado.

Pkt., 8c; oz., 27c; ¼ lb., 80c; 1 lb., \$2.40. All Postpaid.

GURNEY'S POPCORN

NEW HYBRID

South American Popcorn

198—New Hybrid South American out-yields open pollinated strains. Added vigor gives this corn the most uniform ear. Has made yields of 50 bushel or better per acre, has a tremendous popping volume, seed stocks are limited.

Triple Size Pkt., 20c; ½ lb., 47c; 1 lb., 79c; 3 lbs., \$1.79. All Postpaid.

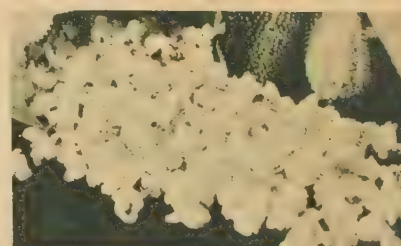

NEW HYBRID HULLESS

For Extra Yield and Flavor

193—The last word in popcorn. Originated by the Minnesota Experiment Station. Gives greater yields and much more popping volume. You can't beat Hybrid Hulless for rich sweet flavor and tenderness. Seed very scarce.

Triple size pkt., 12c; ½ lb., 33c; 1 lb., 60c. All Postpaid.

EARLY HULLESS

For No Hulls

195—There is always a good market for this high quality popcorn. It is a favorite among popcorn dealers as well as in the home because the long slender kernels are snowy white when popped, and absolutely free from hulls.

Triple size pkt., 10c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 94c. All Postpaid.

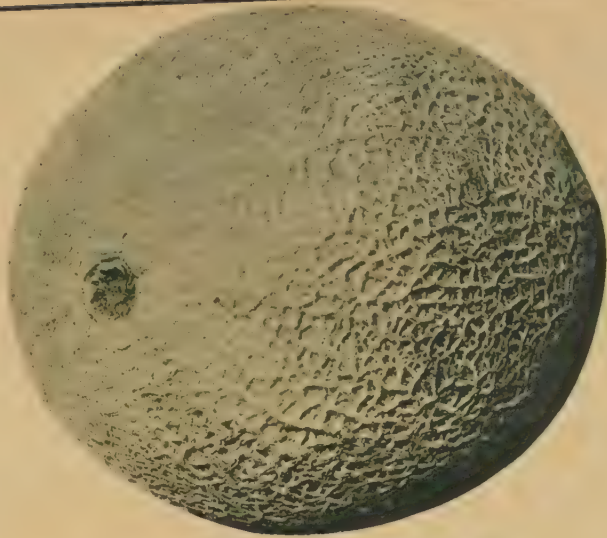

The Big Yellow Popcorn

197—South American pops out about three times the size of ordinary popcorn. Giant kernels, buttery flavor, and tender quality. It will yield much more than other kinds. Try some. Triple size pkt., 10c; ½ lb., 20c; 1 lb., 33c; 3 lbs., 89c. All Postpaid.

MUSKMELONS 5c Pkt. Up

How to Plant Muskmelons: Muskmelons like a warm season. They appreciate a warm rich sandy soil. Plant them in hills say 6 or 8 feet apart, using about a dozen seed to the hill, right after frost danger is past, cornplanting time is about right. Give good clean cultivation and watch for bugs. **Gurney's Bug Dust** is the answer to the bug problem of all kinds.

An ounce of seed is enough for about 100 hills. Most folks pick muskmelons too soon. For home use don't pick them until stem lets go of the melons easily when you turn the melon over. We are proud of the quality of our Muskmelons. All the seed we offer come from fields grown for seed purposes only, that means you get nothing but the best.

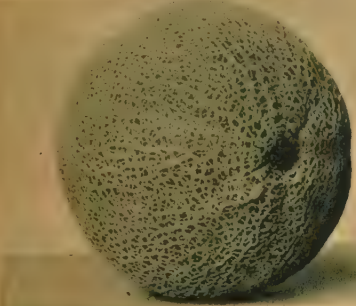

HALE'S BEST MUSKMELON

The Best All Around Melon

333—Here is the melon for you—it is a money maker. It is just the right size to serve halved. Of wonderful quality, the salmon colored flesh is very thick, and the seed cavity is small. Hale's Best is very early heavily netted, and a good shipper. Trainloads go from California and Arizona to the Eastern markets. Make your main planting Hale's Best.

Pkt., 5c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.25. All Postpaid.

PRIDE OF WISCONSIN

332—Although this fine new variety was originated in Wisconsin, it has made a great name for itself in the commercial melon district of Colorado as well as all over the middle states. Pearly gray color, very hard, distinctly netted and covered, seed cavity is small. The flesh is a very deep rich orange, very thick, very firm and of good texture. A fine shipping variety—good for home gardeners too. Price: Pkt., 7c; oz., 30c; ¼ lb., 80c; 1 lb., \$2.35. Postpaid.

HEARTS OF GOLD

Deep Golden and Sweet

345—Hearts of Gold is mighty, mighty tasty clear to the rind. Gets its name from the golden yellow flesh. The melons are almost round, heavily netted. It is medium early, very productive, and one of the best shipping melons on the market. The flesh is thick, firm and solid—the kind you like.

Pkt., 10c; oz., 30c; ¼ lb., 80c; 1 lb., \$2.35. All Postpaid.

GOLDEN ICE CREAM

Sweetest of All

335—Here is the melon you want for sundaes. An ordinary dipper of ice cream just fills this melon because the cavity is so small.

An early melon—it ripens in from 80 to 85 days. Fruits are 6 to 7 inches in diameter and almost round. The Golden Ice Cream will out-sell any melon on the market because of its fine appearance, thick yellow flesh, and delicious flavor. Seed very scarce.

Pkt. 10c. Postpaid.

MILWAUKEE MARKET

For Home Garden or Market

337—If you want the BIGGEST BEST FLAVORED EARLY MUSKMELON for home use or the home market, plant Milwaukee Market. The melons often weigh over 10 LBS. and the sweet spicy golden flesh is sometimes 3 INCHES THICK. The Milwaukee Market will stand more heat, drought, and lack of care than any other melon and still produce a good crop. It is nearly as early as Golden Champlain, and is a real quality melon as well as a large early one.

Pkt., 7c; oz., 30c; ¼ lb., 80c; 1 lb., \$2.35. All Postpaid.

GOLDEN CHAMPLAIN

The Earliest

341—This is still the earliest melon in our trial gardens. It blossoms and sets fruit as soon as its starts to run.

The melons are netted, ribs are prominent, the flesh is thick and a beautiful golden yellow. The quality is good to extra good, and above all, it is early, maturing melons in about 72 days.

Pkt., 12c; oz., 28c; ¼ lb., 79c; 1 lb., \$2.30. All Postpaid.

GARDEN LEMON—VINE PEACH OR MANGO MELON

For Preserves, Pies, and Sauce

344—The vine is similar to the muskmelon, and requires the same cultivation. Fruit about the size of a large peach, oval shaped, and bright orange color when ready for use. For sweet pickles, pies, and preserves they are excellent.

Pkt., 7c; ½ oz., 20c; 1 oz., 35c. All Postpaid.

MIXED MUSKMELONS

Boy's Melon Patch Special

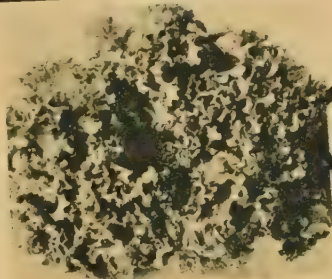

331—Give the children a chance to enjoy their own melon patch. They will have every variety we list and many others, too. It puts real life into gardening for them.

Pkt., 5c; oz., 20c; ¼ lb., 55c; 1 lb., \$1.49. All Postpaid.

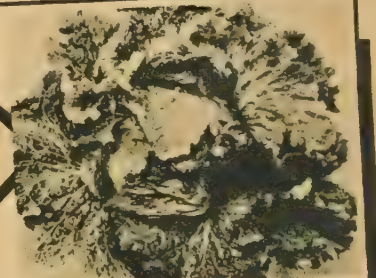

LETTUCE

How to Plant Lettuce: Lettuce is a cool season plant. It likes rich soil and does best when sown real early in the spring but you can grow a good fall crop too by seeding just before the fall rains start. Space rows 16-20 inches apart. Thin the heading varieties to 10-12 inches apart in the row. Leafy varieties may be left 3-4 inches apart in the row. Start some lettuce in a hot bed or cold frame.

Head Lettuce is a cool season plant and doesn't always head successfully in the corn belt unless the seedlings are started early. To be sure of a crop; start them in a hot bed or cold frame or in the house, put on rich soil, cultivate well. Push the crop along so as to "make" it before warm summer weather. Loose Leaf varieties are said to have more Vitamins than the heading sorts.

2
BEST HEAD
LETTUCES

CRISP AS ICE

The Earliest Head Lettuce

501—This is the largest head lettuce grown. Give it plenty of room and the heads will grow from 6 to 8 inches in diameter, and weigh 3 to 4 pounds each. The solid heads are a beautiful silvery white, as crisp and firm as celery.

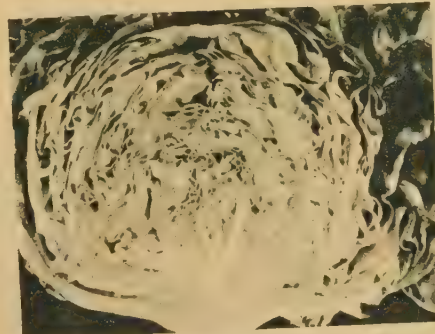

Pkt., 6c; oz., 29c; ¼ lb., 85c. All Postpaid.

New York Wonderful

The Best Head Lettuce

507—Thousands of acres of this wonderful head lettuce are grown in California, Idaho, and New Mexico, and train loads are shipped to the Eastern markets. When you buy an extra good head of lettuce, it is probably New York Wonderful.

Pkt., 7c; oz., 30c; ¼ lb., 90c. All Postpaid.

STONEHEAD

Thick and Heavy Head Lettuce

502—All of us like head lettuce, and our idea of a good head lettuce is the one that has the hardest head, one that is compact; one that will stand the hot dry weather that we have during the summer. Gurney's Stonehead Riviera Lettuce is just that and more.

Pkt., 8c; oz., 30c; ¼ lb., 90c. All Postpaid.

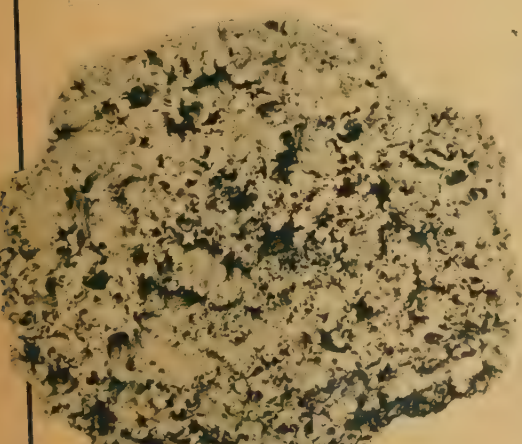

CHICKEN LETTUCE

Greens for Your Poultry

508—Your poultry needs "green" food and this variety of lettuce is just the thing you will want to grow for this purpose. It is a genuine lettuce which will yield as much or more chicken or rabbit feed than any plant you may have used for "greens."

Pkt., 5c; oz., 17c; ¼ lb., 50c. All Postpaid.

Black Seeded Simpson

GRAND RAPIDS

The Best Leaf Lettuce

510—This is beyond question the best leaf lettuce. The crisp, crinkly leaves are light green in color; grow very erect and do not wilt. The earliest lettuce to grow, and the best flavored. Disease resistant. The kind to sow in the early Hot Bed.

Pkt., 6c; oz., 22c; ¼ lb., 65c. All Postpaid.

Black Seeded Simpson

Most Vigorous Grower

509—A favorite forcing variety; it does not head, but forms a compact mass of leaves, lighter colored than any other leaf lettuce; stands the summer heat well, and is very large, making immense plants over a foot across.

Pkt., 5c; oz., 20c; ¼ lb., 60c. All Postpaid.

PARSLEY

Parsley seed germinates slowly. Sow $\frac{1}{2}$ inch deep in early spring. 1 oz. plants 100 feet of row.

CHAMPION MOSS CURLED

217—A beautiful curled variety, fine for garnishing and for seasoning soups and salads.

Pkt., 7c; oz., 27c; $\frac{1}{4}$ lb., 75c. All Postpaid.

TURNIP-ROOTED PARSLEY

221—This vegetable has the same flavor as the regular parsley, but it produces small turnip-shaped roots that are used for flavoring soups.

Pkt., 7c; 1 oz., 30c; $\frac{1}{4}$ lb., 80c. All Postpaid.

PEANUTS

EARLY NORTHERN

219—Peanuts are easy to grow, easy to roast, and easy to eat. If you don't think so, take a pan of your home grown peanuts, put them in the oven for about 30 minutes and eat them while they are still hot. Good! Of course, they are good, and that is a good way to pass some of the long winter evenings.

We have been growing peanuts in South Dakota for a long time, and the variety we are offering is early enough to get ripe in a normal season.

Peanuts will stand lots of dry weather and still yield an immense crop of delicious nuts. Plan on planting some peanuts for the children.

With each order for peanuts, we give full instructions for planting and care. This assures you of good results.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 3 lbs., 95c. All Postpaid.

SALSIFY

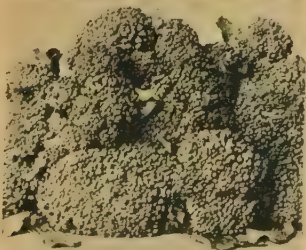

MAMMOTH SANDWICH ISLAND

205—DO YOU LIKE OYSTER STEW? If you do, PLANT SALSIFY and you can have delicious vegetable OYSTER STEW ALL WINTER. It is also delicious baked or creamed. Salsify is easy to raise.

Sow early in the spring, cultivate, harvest, and store the same as Parsnips. We handle only the Improved Mammoth Sandwich Island which we have always considered by far the best all-around variety to plant.

Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c. All Postpaid.

BROCCOLI

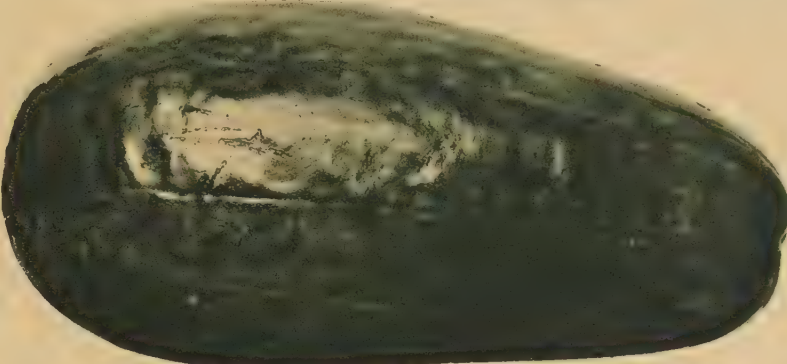

ITALIAN GREEN SPROUTING

209—Here is a Broccoli that is as easy to raise as cabbage and is as good as Cauliflower. The plants do not make solid heads but produce an abundance of light green, tender sprouts which are delicious creamed or used for greens. Use central head first. Side shoots will follow.

Pkt., 7c; $\frac{1}{2}$ oz., 20c; 1 oz., 35c. All Postpaid.

GURNEY'S CHOICE JUICY WATERMELONS 5c Pkt. Up

How to Plant Watermelons: Every farmer, and every city gardener, too, ought to plant watermelons. Nothing will make your family happier than a good melon patch. Watermelons like a warm loose soil. Give them plenty of room. Space hills at least 10 feet apart each way. Figure about 50 hills from an ounce of seed, two to three pounds is enough for an acre. Some of the best melon growers that we know believe in plenty of well-rotted stable manure plowed into the field before melons are planted. Corn planting time is about the right time to plant. Prepare your ground early in the spring, disc it several times to kill off the early weeds. You will save yourself a lot of cultivating later. Be sure to plant some of the new Sugar Lumps this year. (See cover.) I don't think you will find any better watermelon seed anywhere in the country. Gurney's have always been fussy about melon seed quality and insist that only the best melons be selected for seed stock.

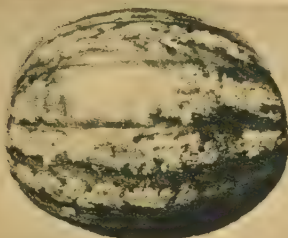

KLECKLEY'S SWEET

The Old Favorite

724—The leading watermelon for home gardens or market. For years, this has been the "yardstick" by which all other melons are compared.

Melons are long and cylindrical—usually weigh over 30 lbs. Rind, deep dark green. Flesh crisp, tender and fine grained. Unbelievably sweet. Brilliant red color. Seeds white. 85 days. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 45c; 1 lb., 98c. All Postpaid.

Red Seeded Hutchinson or Early Kansas

716—This is the best of the new watermelons developed in the last few years. Large, nearly round, light green with dark green stripes. A load of them makes a real show.

Early Kansas is at the head of the list for size, appearance and quality.

They are fairly early, coming on the market after the early varieties are gone, and are so large and so good that they find a market at very attractive prices.

Pkt., 6c; oz., 18c; $\frac{1}{4}$ lb., 45c; 1 lb., \$1.15. P.P.

MASTODON RADIO The Big One

707—Mastodon Radio Watermelon will produce more melons than any other variety; it also produces the largest melons; the flavor cannot be beat, and you will never find the hard core as in so many of the melons. It is not unusual to produce melons of this variety weighing ninety pounds. Its bright red flesh is of delicious flavor and the quality that calls for more.

Glossy dark green skin. Seed scarce. Pkt., 8c; oz., 20c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.25. All Postpaid.

MINNESOTA SWEET A Sweet One for Northern Gardens

719—A new melon from Minnesota that is as good as it is early. People in the North can plant Minnesota Sweet and be reasonably sure of ripening a crop of delicious melons clear to the Canadian line.

The melons weigh from 10 to 15 pounds, are dark green with bright red flesh. This is the melon for North Dakota, northern Minnesota, and western South Dakota.

Pkt., 6c; oz., 18c; $\frac{1}{4}$ lb., 48c; 1 lb., \$1.20. All Postpaid.

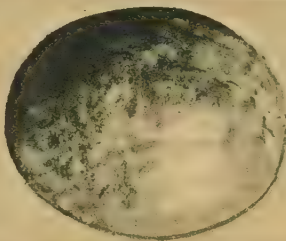

SCARLET WONDER

The Black Seed Favorite

712—Did you ever see a scarlet watermelon, not just red, but a bright flaming scarlet?

The black seeds and dark green rind contrasting sharply with the bright scarlet flesh makes sales for this melon. Appearance sells the first melons. The high quality takes care of resales as there is no better quality melon grown. Medium size, early, thin, tough rind—a good shipping melon as well as a melon for the home garden. Easy to raise, too. A great favorite everywhere planted.

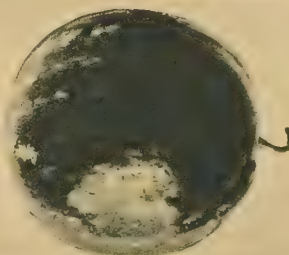

Pkt., 5c; oz., 18c; $\frac{1}{4}$ lb., 45c; 1 lb., \$1.15. P.P.

GOLDEN HONEY SWEET Big, Yellow, Sweet as Sugar

718—A golden yellow fleshed watermelon and good. Better quality than any of the red fleshed melons. Early, large, and different. Why not raise a patch of these delicious melons? If you want to raise the sweetest melons you've ever tasted—try these! Just like with the new early Sugar Lump melons, we believe you'll find that these yellow melons are sweeter and tastier than the reds.

Pkt., 5c; oz., 18c; $\frac{1}{4}$ lb., 36c; 1 lb., \$1.00. All Postpaid.

EARLY CANADA

One of the Earliest Grown

701—This new melon is earlier than any of our American melons, and we recommend this for planting as far North as melons have ever been grown. Weighs from 10 to 15 pounds. Light green skin. The vivid scarlet flesh is very firm. One of the best quality melons we have ever raised at Yankton. We had ripe melons in 73 days from the time the seed was planted.

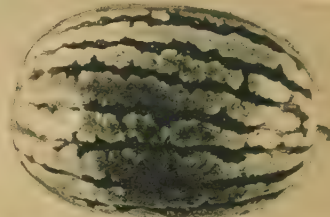

Pkt., 5c; oz., 19c; $\frac{1}{4}$ lb., 55c; 1 lb., \$1.65. All Postpaid.

EARLY KLONDIKE

705—One of the sweetest melons I know of. Oblong, medium size, dark green rind, and small black seeds. Flesh is a beautiful sparkling, deep red color, very crisp and tender. Stands handling and shipping well where other melons are not nearly as good.

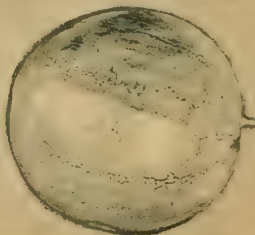

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; 1 lb., 95c. All Postpaid.

DIXIE QUEEN

722—Good; I'll say they are, AND EARLY TOO. Not as large as Early Kansas but you can expect a lot of 40 POUND MELONS. The melons are light green with narrow dark green stripes, thin rind, nearly round, very heavy bearers. And best of all, they are sweet as honey, easy to grow and very prolific.

Pkt., 7c; oz., 22c; $\frac{1}{4}$ lb., 60c; 1 lb., \$1.50. All Postpaid.

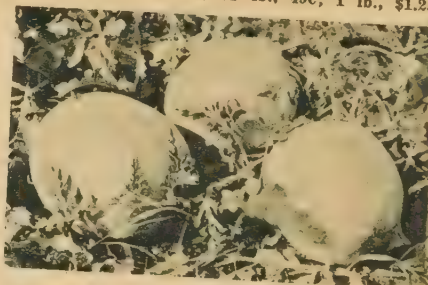

EARLIEST & SWEETEST The Earliest

714—The melons weigh from 12 to 15 pounds, the flesh is scarlet, very sweet, and fine grained. They are very heavy bearers, often producing 10 to 12 melons to a hill.

We wish to say to our Northern customers that this is the one you should plant. There is little use in planting the large late varieties in your locality. They are only a disappointment—nearly ripe when the frost comes. You will always get under the wire with the Earliest and the Sweetest.

Pkt., 6c; oz., 19c; $\frac{1}{4}$ lb., 49c; 1 lb., \$1.25.

WINTER WATERMELON Keeps All Winter

717—In the late Fall when all other melons are gone, go to the barn or strawstack where they are stored, get a big round Winter Watermelon so crisp that sometimes it will split wide open when you stick a knife into it.

When it is cut, it is so bright scarlet in color and so attractive, that it looks good enough to eat—and it is.

If you are a market gardener, you can lengthen your melon season out over a month, and that means more profits.

The melons are nearly white, weigh from 15 to 25 pounds, and are very heavy bearers.

Pkt., 6c; oz., 18c; $\frac{1}{4}$ lb., 45c; 1 lb., \$1.15. All Postpaid.

CITRON MELON

For Pickles

721—Used exclusively for preserving or pickling. The rind is dark green, distinctly striped with light green. Will keep in good condition for some time after picking. You may plant beside regular melons. It will not cross pollinate to harm your other melons.

Pkt., 5c; oz., 15c. All Postpaid.

EARLY CANADA

One of the Earliest Grown

701—This new melon is earlier than any of our American melons, and we recommend this for planting as far North as melons have ever been grown. Weighs from 10 to 15 pounds. Light green skin. The vivid scarlet flesh is very firm. One of the best quality melons we have ever raised at Yankton. We had ripe melons in 73 days from the time the seed was planted.

Pkt., 5c; oz., 19c; $\frac{1}{4}$ lb., 55c; 1 lb., \$1.65. All Postpaid.

MIXED WATERMELONS

Boy's Melon Patch Special

710—An especially fine mixture for the Boys who like to grow melons. Give them room for a few and they will have some real fun.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c. All Postpaid.

GURNEY'S CRISP RADISHES

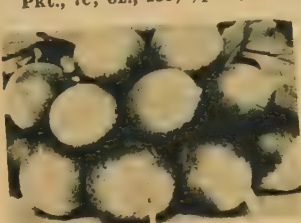

The radish is the champion garden vegetable—Champion because it is planted by more people than any other vegetable. Everybody should grow his own radishes. They grow anywhere and quickly, too. The early ones are ready in 21 to 28 days. Our varieties are all good but we're most proud of **Earliest Fireball**. One ounce will plant a hundred feet of row. Plant 4 or 5 kinds and make several plantings. Sometime try cooking a few (as you do turnips). You'll like them.

**EARLY
SCARLET
GLOBE**

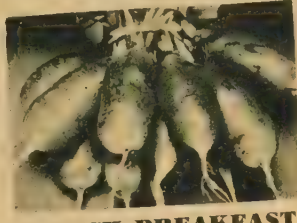

The UNIFORM and EARLY One

451—In offering this Scarlet Globe Radish to the public we know we are offering the very best radish on the market. It is earlier than any other market variety, and the quality is so crisp and sweet that it always creates a demand for more.
Pkt., 7c; oz., 18c; ¼ lb., 40c; 1 lb., 98c. All Postpaid.

**Scarlet — White Tipped
The 2-Color Radish**

444—This radish is our favorite; try it and see if it won't be yours too. It is a deep scarlet color with a distinct white tip. It matures in about 20 days. It is almost completely round. A Wonderful Radish.
Pkt., 5c; oz., 17c; ¼ lb., 37c; 1 lb., 95c. All Postpaid.

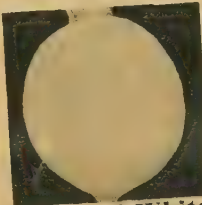

**FRENCH BREAKFAST
Tender and Sweet**

442—You will like this fresh, crisp, oblong radish with its small tops. It is a brilliant scarlet color with a white bottom. The flesh is crisp, white and of splendid quality.
Pkt., 7c; oz., 18c; ¼ lb., 40c; 1 lb., \$1.00. All Postpaid.

RADISH MIXTURE

For Radishes All Season—Trial Grounds Varieties
453—Includes all these varieties and many others. All colors, sizes, and shapes. The perfect way to have radishes coming along all season.
Pkt., 5c; oz., 12c; ¼ lb., 30c. All Postpaid.

Mammoth White
456—A fine late Fall variety. A favorite among gardeners for Fall and Summer markets. Solid white flesh.
Pkt., 5c; oz., 15c; ¼ lb., 35c; 1 lb., 95c. All Postpaid.

WINTER RADISH

Winter Radishes should be planted in July or early August.

Take them up in the Fall and store in your house, or cellar, same as other vegetables, and you will have fresh, crisp radishes all winter.

CHINESE ROSE
454—This is a medium long, blunt-rooted radish with pink skin and pure white, mild flesh. One of the best.
Pkt., 5c; oz., 15c; ¼ lb., 35c. All Postpaid.

CRIMSON GIANT Gets Big But Not Pithy

437—Crimson Giant is a remarkable radish because it grows almost twice the size of an ordinary radish, and yet does not become hollow. Very mild and sweet. This brilliant, crimson radish is one of the best for the home garden.

Pkt., 6c; oz., 18c; ¼ lb., 40c; 1 lb., 98c. All Postpaid.

WHITE ICICLE Favorite in Every Garden—the White One

448—White Icicle will make a good cash crop for you. This is an exceptional radish. It is even in size, good shape, perfectly white clear to the top—sweet, tender, and mild. Plant Gurney's White Icicle and be pleased with yourself. Ready to use in 25 days.

Pkt., 5c; oz., 20c; ¼ lb., 45c; 1 lb., \$1.00. All Postpaid.

Earliest FIREBALL

The Earliest of All

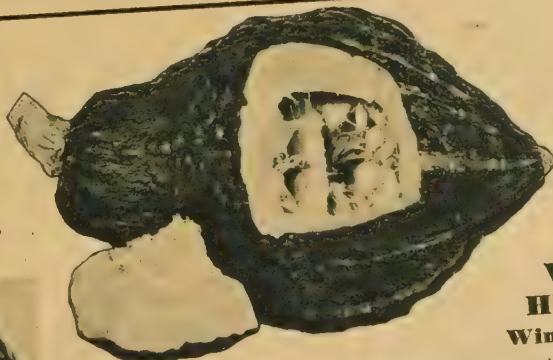

440—Here's a radish with improved taste, crispness, and unusual sweetness. Bright scarlet color, and so early, too. Pure white flesh and one of the finest varieties you ever saw.

Pkt., 7c; oz., 20c; ¼ lb., 45c. All Postpaid.

SQUASH

There is always a profitable market for good squash, many growers selling over \$200.00 worth from a single acre.

Plant at corn-planting time in hills about 10 feet apart each way, using 2 to 3 pounds of seed per acre.

**WARTED
HUBBARD
Winter Keeper**

745—More Hubbard Squash are raised than any other kind. They are large, oval shaped, with a very hard, warty rind which makes them best as winter keepers. The thick yellow flesh is always sweet and dry when cooked. Raise as many Hubbard as you wish, there is always a market for them.
Pkt., 10c; oz., 25c; ¼ lb., 65c; 1 lb., \$1.75. All Postpaid.

**TABLE QUEEN
Yields Big—Keeps Well**

752—This is the perfect individual squash. The flesh is firm and sweet. It cooks dry and mealy, and is just the right size for one person, if he likes squash. They are dark green, pear shaped, about 5 inches in diameter, and 6 inches long. I have seen 100 squash on one vine. They are fairly good keepers but should be used before March 1st.

Pkt., 5c; oz., 20c; ¼ lb., 55c; 1 lb., \$1.50. All Postpaid.

**DELICATA
The "Individual" Baker**

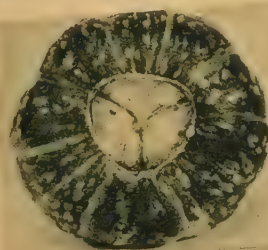

741—New York Strain. A small squash of unusual quality. Smooth skin, a light golden color striped green. Thick flesh, sweet, fine texture. Very early and extremely productive.

Pkt., 6c; oz., 18c; ¼ lb., 48c; 1 lb., \$1.35. All Postpaid.

Golden Delicious Delicious Deep Golden

738—This is a cross and retains all the wonderful flavor of the Delicious with the golden color of Boston Morrow. The rich golden flesh is 2 inches thick, very sweet, and is never watery. A heavy yielder and a good winter keeper. Good baked, boiled, or in squash pies.

Pkt., 8c; oz., 24c; ¼ lb., 65c; 1 lb., \$1.75. All Postpaid.

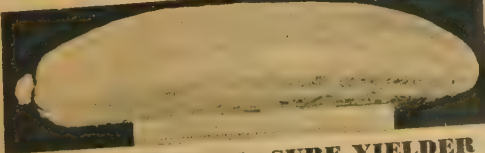

GREENGOLD

The "Bake and Butter" Squash

753—(100 days.) A selection from Buttercup. "Eats" better than Hubbard, size 4 to 5 lbs. Color orange-yellow striped with green, shell thin and hard, flesh deep rich orange, dry peeling. Exceptionally sweet and fine flavored, has a small seed cavity, an extremely vigorous grower.

Price: Pkt., 10c; oz., 24c; ¼ lb., 65c; 1 lb., \$1.75. Postpaid.

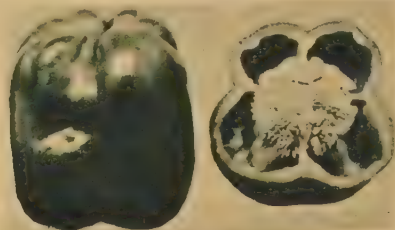

BANANA SQUASH—SURE YIELDER

736—This is the heaviest yielding of all squashes. The big thrifty vines produce 8 to 10 squash that grow 2 feet long, 11 or 12 inches in diameter, and weigh 20 pounds each. The shell is a grayish green, and the solid flesh is a beautiful orange yellow. It will stand a lot of drought, heat, and damage by insects, and still produce a crop. One of the best, both for table use and stock feed.
Pkt., 10c; oz., 18c; ¼ lb., 48c; 1 lb., \$1.35. All Postpaid.

PEPPERS

Peppers are what keep the Mexican people so healthy. They're full of vitamins, and every gardener ought to raise his own. Like any soil except low wet land. Give plenty of room. Handle and plant just like tomatoes.

**HARRIS EARLY GIANT
The Big and Meaty One**

647—One of the largest of the sweet peppers and one of the earliest. The large plants are literally covered with immense thick fleshed peppers, so large that it takes only 40 to 50 to fill a bushel basket. Peppers are easy to raise and are delicious in chile, catsup, salads, or stuffed and baked.
Pkt., 6c; ½ oz., 28c; 1 oz., 48c. All Postpaid.

EARLY BEAUTY

The Earliest

645—This extra early pepper has made THE BEST RECORD of any pepper in our trial gardens. It is the earliest of the large sweet peppers. Short, broad, thick walled fruit. JUST THE RIGHT SIZE AND SHAPE FOR STUFFING. They are four lobed, about as wide

as they are long. The only pepper with thicker side walls is Calif. Wonder, which is about 3 weeks later than Early Beauty. For an immense crop of early, sweet, smooth, thick meaty peppers, plant Early Beauty.
Pkt., 7c; ½ oz., 32c; 1 oz., 52c. All Postpaid.

CALIFORNIA WONDER

The Giant

649—The flesh of this new giant sweet pepper is often ¾ of an inch thick, very mild and juicy. A heavy yielder of the largest, finest peppers you have ever seen. Plants are vigorous upright growers. Fruits large, very smooth. A uniform deep green color changes to bright crimson. We believe you'll like this pepper best of all.
Pkt., 6c; ½ oz., 28c; 1 oz., 48c. All Postpaid.

LONG RED CAYENNE

The Hot Pepper

648—The true Cayenne. Long Red and Hot. Fruits are a full inch or more in diameter at the shoulder and 4½ to 6 inches long. For canning, drying or pickling. Grows anywhere. A sure yielder.

Pkt., 6c; ½ oz., 25c; oz., 40c. All Postpaid.

EARLY PIMENTO

Sweetest of All

644—The tomato shaped pepper. Fruits round, flat in shape. Deep Red. Very mild and sweet. You can eat them like apples. Fruits grow upright on strong two and one-half foot plants. Pimentos themselves are about 3 inches in diameter, thick fleshed and beautiful to look at. Your garden should include some of these sweetest of sweet peppers if you possibly can spare the room.

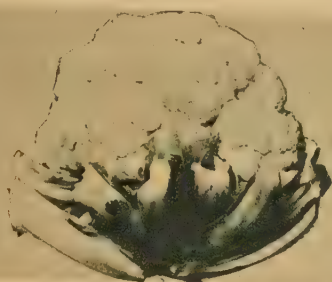

Price: Pkt., 6c; ½ oz., 25c; oz., 40c. Postpaid.

Parsnips

Hollow Crown Parsnip

271—The best and most popular variety of all. Vigorous grower, very dependable, superb sugary flavor. Roots about 3 inches in diameter and shoulders taper to a smooth point. Hollow crown, flesh white. Tender, exceptional quality. Pkt., 8c; oz., 24c; ¼ lb., 70c; 1 lb., \$1.85, postpaid.

Cauliflower

EARLIEST MARKET

223—By careful selection and breeding, we have kept this wonderful Cauliflower at the top of the list. Large size, fine grain, a beautiful white color, a sure header, and above all, it is very early.

Pkt., 15c; ¼ oz., 85c; ½ oz., \$1.55. All Postpaid.

Spinach

The Long Standing Kind
Sow seed in early spring—1 inch deep
KING OF DENMARK

207—Spinach is one of the vegetables everyone should eat, and while you are eating spinach, eat the best, which is King of Denmark. This large, thick-leaved spinach is very slow to go to seed and holds its fine quality after all other varieties are gone. A fine strain for canning. King of Denmark forms large compact tufts of dark green crinkled leaves.

Pkt., 9c; oz., 17c; ¼ lb., 42c. Postpaid.

Mustard Spinach OR TENDERGREEN

222—This new vegetable is all its name implies—a very mild mustard with a creamy spinach flavor. Everyone should eat greens and here is something different and better.

Pkt., 8c; oz., 18c; ¼ lb., 45c. All Postpaid.

Egg Plant

Sow in hotbeds very early in the spring and transplant to 2 or 3 feet apart, in very rich, warm ground. Hoe often and hill up gradually until they blossom.

657—**BLACK BEAUTY.** The best variety in cultivation, being early, a sure cropper and of fine quality. The fruit is large, oval, very deep purple.

Pkt., 8c; ½ oz., 28c; 1 oz., 48c. All Postpaid.

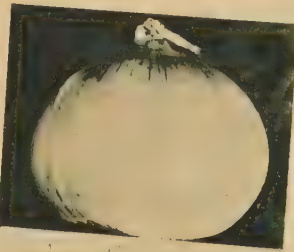

ONIONS

From SEED PLANTS or SETS

Yellow Sweet Spanish

303—Riverside (110 days). Largest and mildest onion for the north. Often weighs over 1 lb. Yields of 1000 bu. per acre are common. Very mild and sweet. Always a good market for these. Pkt., 12c; oz., 75c; ¼ lb., \$2.25, postpaid.

Southport Yellow Globe

302—(110 days to maturity)—This beautiful pale yellow onion is the best keeper of all the yellow onions. A very heavy yielder of large, sweet, mild-flavored onions. Pkt., 10c; oz., 56c; ¼ lb., \$1.70. All Postpaid.

Southport White Globe

307—(110 days)—Here is the best white onion that you can cultivate. It is large, perfect globe, excellent quality, a good keeper, and silvery white in color. Pkt., 10c; oz., 75c; ¼ lb., \$2.25. Postpaid.

White Welch Bunching

314—This is absolutely the best green onion. The seed can be planted in the spring, and by mid-summer you can start using the onions. It is a perennial, and a bed once established will last for years. Pkt., 10c; ½ oz., 45c. Pp.

Dakota Red Globe

309—This Southport Red Globe onion has been raised in South Dakota for many years. It is a very heavy yielder and is from 10 DAYS TO 2 WEEKS EARLIER than the regular Southport Red Globe. Pkt., 10c; oz., 66c; ¼ lb., \$2.00. Postpaid.

ONION SETS

Everyone should plant onion sets for early green onions, and many prefer to grow their large onions from sets instead of from seed, as they can market them much earlier while the price is high. Our sets are small sized.

"A quart's a pound, the world around."

PRICES: Postpaid

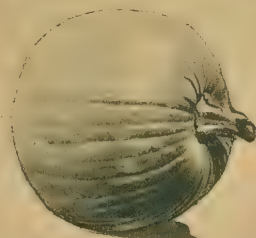

Yellow Bottom Sets; 1 lb., 40c; 4 lbs., \$1.30; 8 lbs., \$2.35. No red or white sets this year. Order yellow ones—they are the best.

Write for prices on larger quantities.

Onion sets should be planted real early in the spring. Plant them deeply if you want best green onions. The onion bulb naturally grows on the top of the soil so don't throw too much soil against them when cultivating them. One quart will set 50 feet of row. Harvest when half the tops have fallen.

PUMPKINS

FOR PIES AND STOCK FEED: 1 Ounce for 25 Hills; 4 Pounds Per Acre. Pumpkins are easily grown and profitable for stock feeding. At time of corn planting scatter seeds in every fourth or fifth hill, or for a large crop sow in May in good warm soil, in hills eight to ten feet each way.

DICKINSON

← The New Pie Pumpkin

762—The outstanding new pumpkin. Rich, golden colored flesh. So sweet that additional sugar, starch, or coloring is unnecessary. The brilliant color of the flesh makes unusually attractive pies—richer, sweeter and better than you have ever eaten before. Seed supply very limited.

Pkt., 10c; oz., 20c; ¼ lb., 45c. All Postpaid.

SMALL SUGAR

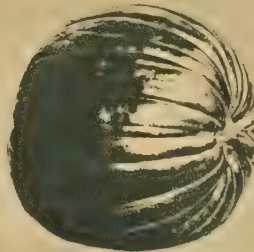

← For Finest Pies

766—This variety is smaller than the Large Field, but of finer grain, sweeter and very prolific. We recommend small sugar as one of the best for pumpkin pies. Everywhere it is planted, it becomes a favorite of the family cook.

Pkt., 5c; oz., 20c; ¼ lb., 45c; 1 lb., 98c. All Postpaid.

Small Sugar

Connecticut Field

← For Pies or Stock

764—A good keeper and an immense yielder of fine stock food because of its enormous size—often over 100 lbs. each. An old favorite. Makes fine pies, too.

Pkt., 5c; oz., 12c; ¼ lb., 30c; 1 lb., 85c. All Postpaid.

Mammoth King

← The Biggest of All

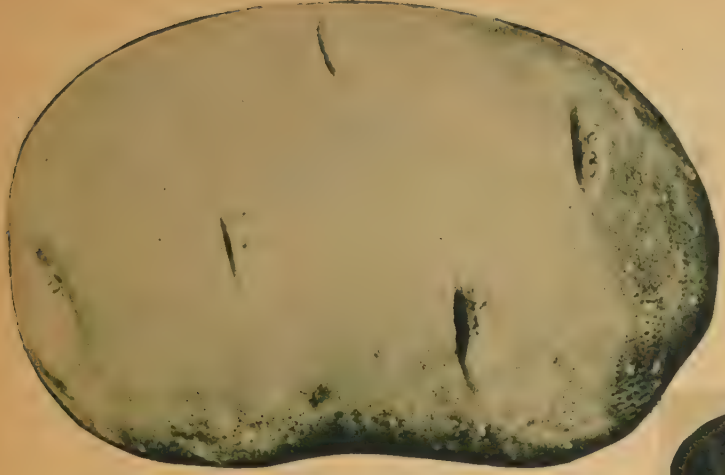

769—The largest variety ever introduced. 100-lb. pumpkins are not unusual and single vines often produce 4 or 5 large pumpkins. An enormous yielder, having produced over 100 tons per acre. The flesh is very thick, bright orange color and of fine quality.

Pkt., 5c; oz., 20c; ¼ lb., 45c; 1 lb., 98c. All Postpaid.

Giant Packet Pumpkins Mixed

—All Kinds, Sizes, Shapes and Colors—

Everything from pies to Jack-O-Lanterns and stock feed in this packet. If you like an assortment and haven't room for a planting of each kind, use this mixture. Plant plenty. Pumpkins thrive in the edge of the cornfield. No. 768—Pkt., 5c; oz., 15c; ¼ lb., 35c; 1 lb., 95c, postpaid.

SEED POTATOES FROM THE RED RIVER VALLEY

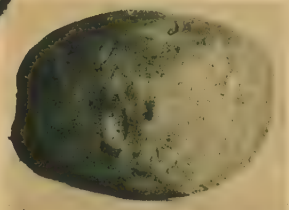

These varieties will increase your potato yield per acre. Raise plenty this year. Good seed potatoes are scarce this spring. Be sure of getting yours by ordering early. **SAVE—BY ORDERING IN FULL 100 LB. BAGS.**

GUARANTEE—We absolutely guarantee your seed potatoes purchased from Gurney's are true to name, genuine Red River Valley grown stock. Furthermore, we believe they are superior to seed potatoes grown in any other part of the United States.

**ORDER
SEED
POTATOES
EARLY**

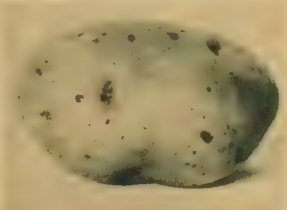

EARLY OHIO

Although the crop of Early Ohios in the Red River Valley was extremely short this year, we were fortunate in securing our stock from one of the more reliable growers. Smooth, firm skinned, shallow eyes, with that oblong shape and dull red color characteristic of this famous old favorite.

EARLY Six Weeks

An early market potato of excellent quality. Potatoes start forming when the vines are only 5 to 6 inches high, and in 7 to 8 weeks from planting are of fine marketable size. Always plant some of these for early new potatoes. Color is a light red with shallow eyes, and a medium sized oval form. Keeps splendidly if allowed to fully mature. Cooking quality of the highest.

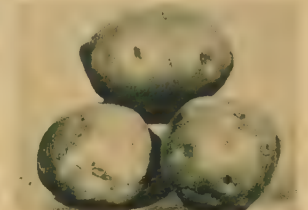

CHIPPEWA

This smooth, medium sized oval white potato with very, very shallow eyes is a favorite of everyone who grows it. The quality is extra good. It always cooks dry and mealy. Usually goes way around Ohios, Cobblers and Rurals in yield. A mid-season variety it pays to grow.

MESABA

Experienced potato growers say that this is the outstanding new potato. It is early, with shallow white eyes, and was introduced by the Minnesota Experiment Station. Consistently it out-yields the Irish Cobbler and Early Ohio. Housewives like it because it peels thin. Excellent for baking or boiling, and keeps wonderfully well. Remember its good points: Early maturity, shallow eyed, smooth, white skin. Cooks well and keeps well.

EARLY WARBA

The earliest potato grown today. A high yielder and of excellent quality. The eyes are pink, inclined to deepness, disease resistant and produces a crop of potatoes in hot, dry weather when others fail. Early Warba for extra earliness, fine size and shape, excellent cooking and eating quality.

**Your Choice
Any Variety** **\$3.65**

Per 100 Lbs.

Gurney's MISCELLANEOUS VEGETABLES—HERBS

CELERY

GOLDEN PLUME

662—This new self-blanching celery is very, early a beautiful golden yellow and is always crisp and tender. Eat fresh celery from your own garden. It is better.

Pkt., 10c. Postpaid.

GIANT PASCAL

661—This is the largest celery grown. The stalks are very tall and heavy, and when blanched are yellowish white. The heaviest yielder of all, and the best winter keeper.

Pkt., 10c. Postpaid.

CELERIAC

208—LARGE SMOOTH PRAGUE: A variety of celery having turnip shaped roots which are used for seasoning soups, meats, and in salads. This is the best and largest variety, and is very easy to raise.

Pkt., 10c; ½ oz., 25c. All Postpaid.

ASPARAGUS

200—MARY WASHINGTON: Everyone likes Asparagus, and every home should have an Asparagus bed. It is easy to raise and once established will last a lifetime. Mary Washington is the largest of all and is rust resistant. Don't let another year pass without an Asparagus bed.

Pkt., 10c; oz., 20c; ¼ lb., 50c. All Postpaid.

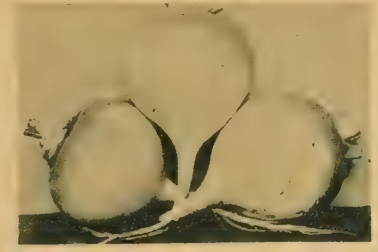

RHUBARB

237—Rhubarb: It is easily grown and produces abundantly. It comes the first of anything in the spring, just when you want it. It will grow any old place and will thrive there for years.

Pkt., 7c; oz., 20c; ¼ lb., 50c. All Postpaid.

TURNIPS

Turnips are easy to raise. Early varieties can be sown in the spring, but most kinds do best as a fall crop. Sow 2 to 3 lbs. to the acre the last part of July. 1 oz. will drill 150 feet of row. Turnips grow until severe freezes. Store in cave, basement or pit. Purple Top White Globe is the best all-around variety.

GURNEY'S PURPLE TOP WHITE GLOBE TURNIP

For Fine Flavor

807—This all-season turnip is sweet and tender from the time it is large enough to use until the following spring. We consider this the finest table turnip on the market today, and also an immense yielder of rich stock feed.

Pkt., 7c; oz., 15c; ¼ lb., 40c; 1 lb., \$1.10. All Postpaid.

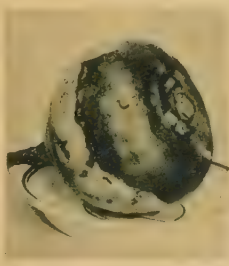

PURPLE TOP STRAP LEAF TURNIP

Good for Storage

806—Flat; fine flavor and one of the most popular varieties grown. When sown late it is one of our best varieties, an excellent keeper.

Pkt., 5c; oz., 12c; ¼ lb., 35c; 1 lb., 98c. All Postpaid.

PURPLE TOP YELLOW RUTABAGA

Heavy Yielder

808—More of this variety is raised than any other. The roots are purple above and an attractive yellow below. The light yellow flesh is firm, sweet, and fine flavored. It has very small necks and no side roots. One of the best for table or for stock food.

Pkt., 7c; oz., 20c; ¼ lb., 50c; 1 lb., \$1.30. All Postpaid.

ENDIVE

234—Easy to raise and good to eat as greens or in salads. When fully grown, tie over the outer leaves to blanch, making beautiful, creamy white heads.

Pkt., 7c; oz., 25c. Postpaid.

CHIVES

311—Chives (Schnittlauch): This perennial plant of the onion family is used for seasoning soups, salads, and stews. It is easy to get started, and once established will grow for many years.

Pkt., 10c; ¼ oz., 35c. Postpaid.

LEEK

231—Leek—September Giant: This new giant white Leek is the largest and best of the Leek family. The stalks are often 12 inches long and 2 inches in diameter. Soups and salads flavored with Leek are delicious.

Pkt., 10c; ½ oz., 25c. Postpaid.

ROSELLE

275—Annual currant jelly plant. This wonderful new novelty comes from Australia. From its leaves and tender branches you can make the most delicious jelly you ever tasted using only half the amount of sugar required with fruit juices. Roselle Jelly is a bright sparkling red, it tastes like currant jelly. Sow the seed in the spring where plants are to remain in rows, thin the plants to about 18 inches or two feet apart in the row. Complete directions are printed on each packet of seed. Price, 10c per packet, postpaid.

OKRA OR GUMBO

236—Extra Early Dwarf Green: Okra is delicious for stews, for flavoring soups, and for salads. It is easy to raise and yields immense crops. The pods are used when from 1 to 2 inches long. Why not try this different one?

Pkt., 5c; oz., 15c. Postpaid.

GARLIC BULBS

229—Garlic is always rather high in price and often you are unable to buy it when needed. Why not raise your own and supply your neighbors.

¼ lb., 15c; ½ lb., 25c. All Postpaid.

TOBACCO

235—An excellent strain for northern states. Does beautifully in Wisconsin and Minnesota and makes a fine crop in the middle states too. Grow your own tobacco, on your own farm. Cultural directions printed on the packet. Price: Pkt., 6c; ¼ oz., 20c; ½ oz., 35c. All Postpaid.

HERBS

241—Caraway: Cultivated for the seed used in confectionery and medicine. Pkt., 7c. Postpaid.

245—Dill: The leaves are used in soups, and in pickles. Pkt., 5c; oz., 15c. Pp.

246—Sage: The leaves and tender tops are used in stuffing and sauces. Pkt., 7c. Postpaid.

Starts in Your GARDEN—
Order a BIG SUPPLY of
GURNEY'S BUG DUST**

See Page 30

RUSSIAN → SUNFLOWER

239—Produces immense heads, as much as 20 inches in diameter, and yields of 50 bushels per acre are not uncommon. The seed is used for chicken feed, and the stalks make silage said to be more nutritious than corn.

Pkt., 5c; ¼ lb., 10c; 1 lb., 30c; 5 lbs., \$1.00. All Postpaid.

ANOTHER GURNEY SEED KID

Leonard George, 9 years old, one of Gurney's Seed Kid Salesmen. He says it's easy to sell Seed Kid Collections. The big colored packets sell themselves—then, too, 11 packets for 49c is a bargain. Everybody wants to buy Gurney's Seeds. Leonard hasn't decided whether to take the Magic Set or the \$1.25 cash.

IT'S EASY TO MAKE MONEY OR GET VALUABLE PRIZES

There are very few boys and girls who wouldn't like to have a chance to make some money for their very own or win one of the valuable prizes pictured on this page.

And there's nothing better for them to do than to try a small business venture of their own to learn how money is made.

So Gurney's have arranged a special business deal for children. A valuable collection sold inexpensively and the profits from the sale will go to the boys and girls either in the form of cash money or in prizes, whichever is selected.

HERE'S THE DEAL—

1. Fill out the coupon at the bottom of the page and send it to Gurney's, Yankton, South Dakota. We will send you by parcel post prepaid, at once, ten giant bargain collections of seed for you to sell. You need not send any money until they are sold, but if you do not sell them within a month, you are to return them.

2. When you have sold all ten collections, you get \$1.25 in cash for your share, or one of the premiums on this page. By buying these premiums in big quantities, we get the manufacturers' low price and we have made your share of money cover the wholesale price of each one.

3. You send us the \$4.90 you receive for the ten collections and tell us which premium you want and we will send it to you by parcel post.

4. If you would rather have your share in cash, keep the \$1.25 out and send the rest to us. We trust you.

5. In case you cannot sell all ten collections, sell what you can and return the rest by mail, keeping one fifth of the money you collect.

6. The collections must all be sold at the same price—49c. We believe in one price to everyone—it's the only fair way.

Don't put off until some other GURNEY "SEED KID" has sold your neighborhood—get an early start and you'll sell more easily. This collection is easy to sell.

Gurney's "Seed Kids" Collection 11 Giant Packets for 49c

Easy to Sell—Packets Less Than 5c Each

These collections will go like hot cakes for each one includes 11 giant packets of the most popular garden and flower seeds, all for 49c—less than a nickel apiece, or less than your customer can buy them for anywhere. The collection is put up in an attractive package which makes it easy to sell, and there's a free gift on the front of each collection so your customer is going to be very pleased. Each collection contains enough seed for a good sized Victory Garden. One packet each of:

Early Scarlet Globe Radish
Early Coreless Carrot
Early Simpson Lettuce
King of Denmark Spinach
Icicle Radish
Early Dark Red Beet
Scarlet Topper Tomato
Everbearing Cucumber
Hollow Crown Parsnip
Dwarf Petunias—Mixed colors
California Giant Zinnias—Mixed colors

PLUS A Free Gift With Each Collection

To GURNEY'S,
Northwest's Largest Seed & Nursery House,
Yankton, South Dakota

Date.....

Gentlemen:

Please send at once by parcel post prepaid the 10 Gurney's "Seed Kids" Collection of seeds. I'll do my best to sell them at 49c each and if I do not sell them all, will return them in good order. When they are sold I will divide the money, keeping for my share \$1.25 in cash, or send all the money to you and take one of the premiums.

Better Strains Open Pollinated
SEED CORN

SILVER KING

The Best Early White (Pictured Above)

This wonderful white corn was introduced by the Wisconsin Agricultural College. With white corn selling now 15c bu. over yellow on the market, this is going to be our most popular variety. Get it while our supply lasts.

It is large, medium early, and the most beautiful of any white corn. The stalks grow from 7 to 9 feet tall, ears 8 to 12 inches long, and yield of 70 bushels per acre are not uncommon. It is suitable for northern Iowa and Nebraska, South Dakota and southern Minnesota.

1 lb., 25c prepaid; Not prepaid, 1/4 bu., \$1.10; 1/2 bu., \$2.00; bu. only \$3.75.

MINNESOTA 13

The Best Yellow

We got the stock seed for Minnesota 13 direct from the Minnesota Department of Agriculture. Good size stalks and the ears are large. Extra good yielder. You are all familiar with the quality and results that can be had with this old standby in open pollinated corn. It's widely known and planted. A wonderful corn for this entire section including Central South Dakota and Southern Minnesota. Prices: 1 lb., 25c prepaid; Not prepaid, 1/4 bu., \$1.15; 1/2 bu., \$2.15; bu. only \$4.00.

GURNEY'S RAINBOW FLINT

The Drought Resistant Corn

Rainbow Flint will stand more dry weather and still produce a better crop than any other corn we know of. It is the largest eared, highest yielding early flint corn.

Rainbow Flint is absolutely the best corn for hogging off. It is an immense yielder both of corn and fodder. Many of the ears are 12 to 15 inches long. The stalks grow from 7 to 8 feet tall, produce two ears to the stalk, and are leafy clear down to the ground.

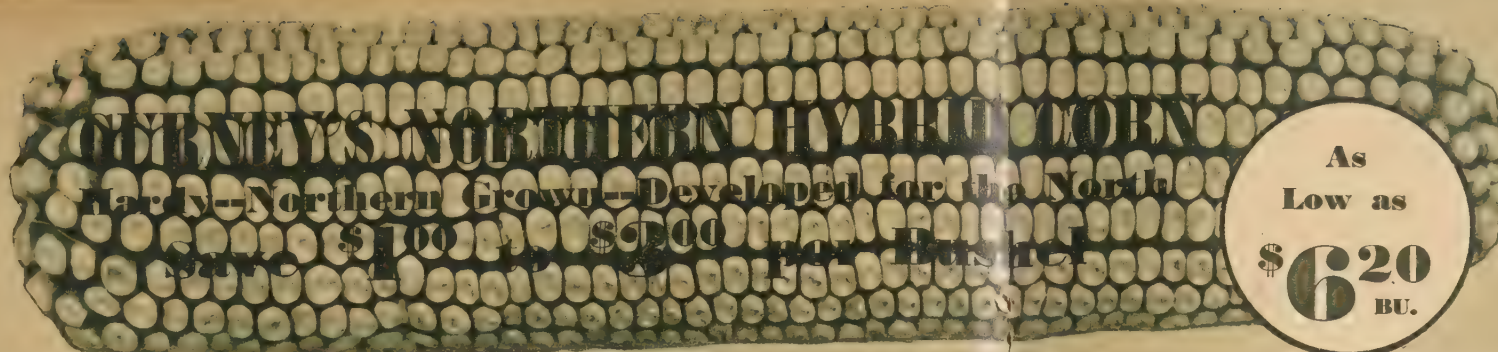

Rainbow Flint should mature as far north as the north line of South Dakota, and is suitable for ensilage and fodder clear to Canadian line.

1 lb., 25c prepaid; Not prepaid, 1/4 bu., \$1.25; 1/2 bu., \$2.20; bu. only \$4.20.

PROPERLY GRADED AND TREATED

All of these white and yellow open pollinated corns will be very carefully graded just like our Northern Hybrid corn. The grading will be far superior than you used to get on open pollinated corn. Sacked in bushel bags and treated with special corn dust for quick germination as well as protection from rodents.

OTHER VARIETIES—(See Price List)

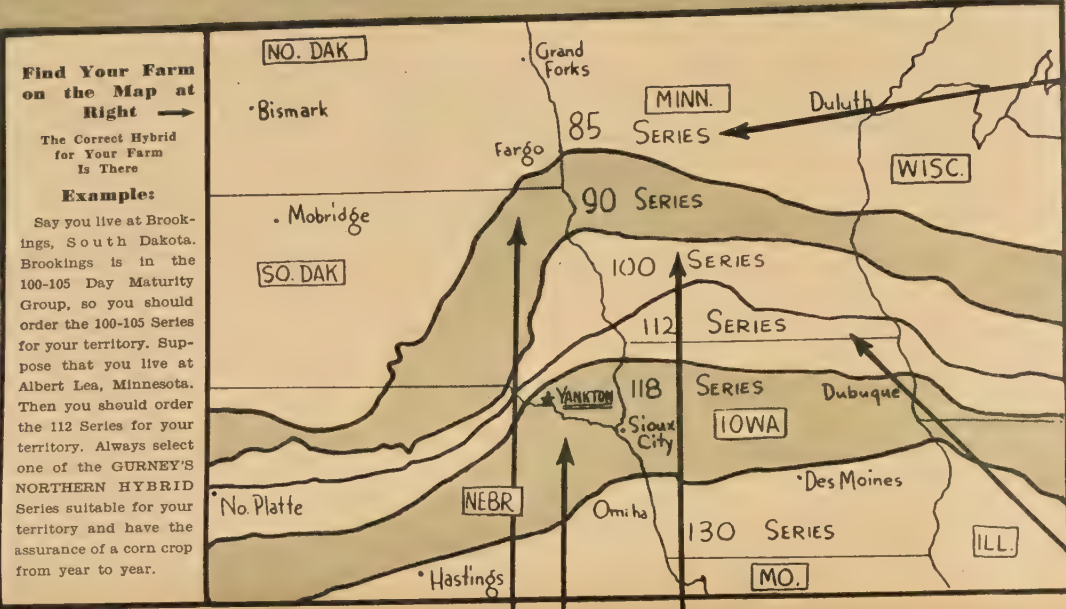

GURNEY'S NORTHERN HYBRID CORN

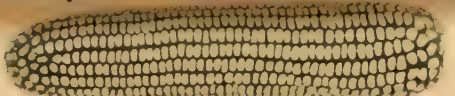

Northern-Grown—Developed for the North

Yields \$100 to \$200 per Bushel

As
Low as
\$6.20
BU.

Gurney's Golden Hybrids No. 90 Series

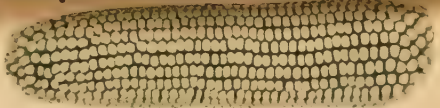

(Matures 90-95 Days)
(Adapted Central Minn.; S. E. No. Dakota;
Eastern S. Dakota, etc.)

Yields 10 to 20 bu. more Per A.

This is one of the heaviest yielding early hybrids grown and is famous for its extra large ears that mature safely in ordinary seasons in this early territory. It's the work of years of corn research for a big-eared, heavy-yielding, early corn and is the record maker all through Minnesota and the Dakotas. Does well on practically all soil types. Picks easily machine or hand. Especially good feeding corn. Besides its use by northern farmers, it's valuable and used a lot by southern farmers who want an early corn maturing before drought. Prices on 90 Series:

Flat Edge Drop Grade.....\$9.20 Bu.
Round Hill Drop Grade..... 8.20 Bu.
Small Flat Grade..... 8.70 Bu.

Gurney's Golden Hybrids No. 100 Series

(Matures 100-105 Days)
(Adapted Central Minn.; Eastern S. Dakota;
North Central Nebraska)

These hybrids for this 100 days section are some of our finest, and HAVE BROKEN YIELD RECORDS WHEREVER PLANTED. In Dakota tests, this series has made YIELDS OF 108 BU. PER A.

Both DISEASE and COLD RESISTANT, this famous hybrid is bred for big ears that feed easily. Once farmers have planted Gurney's No. 100, they won't take a chance on any other hybrid.

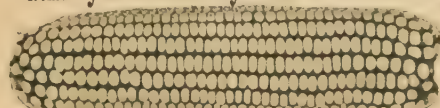

Picks easily by both machine or hand.—Order by Soil Type—

No. 100—For average and light soils.

No. 100R—For heavy or rich soil type.

Prices on 100 Series
Flat Edge Drop Grade.....\$8.20 Bu.
Round Hill Drop Grade..... 7.20 Bu.
Small Flat Grade..... 7.70 Bu.

Gurney's Golden Hybrids No. 85 Series

(Matures 85 Days)

(For North Central Minn., South 1/2 N. Dak., Western S. Dak., etc.)

Yields 40 to 60 bu.—Not Unusual.

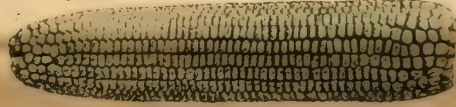

This is the famous early hybrid developed for the very northern sections of the country where a very early hybrid is needed to mature safely before frost. Its record has been outstanding making enormous yields far in excess of corns usually planted in this territory—sometimes by 10 or 20 bu. extra corn per A. It picks easily either by machine or by hand. Stalks stand well. Resistant to cold. Developed with deep roots to withstand drought and heavy winds.

In the northern territory this famous hybrid from high yielding early inbreds is THE CORN TO PLANT FOR HEAVY YIELDS. Somewhat limited stock. Buy Early!

Prices on 85 Series

Flat Edge Drop Grade.....\$9.75 Bu.
Round Hill Drop Grade..... 8.75 Bu.
Small Flat Drop Grade..... 9.25 Bu.

Gurney's Golden Hybrids No. 112 Series

(Matures 110 Days)

(Adapted to South Minn.; North Iowa; East South Dakota, etc.)
This hybrid series has been developed for you farmers in Southern Minn., and Northern Iowa who want a BIG-EARED, REID TYPE, HEAVY YIELDING CORN. Coming from high yielding parent inbreds, it has consistently given high yields wherever planted up to 110 bu. per A.

Besides being a high yielding, easy feeding corn, it is unusual in its high shelling percentage and low moisture content at harvest time. Figured in yields of shelled corn, its record is phenomenal. Cold resistant, early picking. Order by Soil Type.

No. 112—For average and light soils.

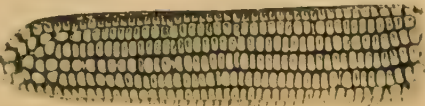

No. 112R—For heavy or rich soil.

No. 112 BLEND—Blend of Best Hybrids to give good results in any weather.

Prices on 112 Series

Flat Edge Drop Grade.....\$8.20 Bu.
Round Hill Drop Grade..... 7.20 Bu.
Small Flat Drop Grade..... 7.70 Bu.
112 Blend Edge Drop, \$7.75 Bu.—Hill Drop, \$6.75 Bu.
Small Edge Drop, \$7.25 Bu.

STATE AND U. S. HYBRIDS

Gurney's Northern Hybrids were developed especially for the Northern Corn Belt and we recommend them. However, we can also supply state numbers at low prices, if you want them.

IOWA 939—The most widely adapted hybrid from Ohio to Nebraska and yields well on any soil especially light soil. Drought resistant. Ear about 3 1/2 feet. About 110 days. Edge Drop, \$7.45; Hill Drop, \$6.45.

ILL. 751—An early variety about 100 days. Reid type. Ears about 3 1/2 ft. high on stalks. Likes rich soil. Edge Drop, \$7.45 bu.; Hill Drop, \$6.45 bu.

MINN. 502—About 100 to 105 days. Edge Drop, \$7.45 bu.; Hill Drop, \$6.45 bu.

MINN. 404—110 to 114 days. Edge Drop, \$7.45 bu.; Hill Drop, \$6.45 bu.

Gurney's Golden No. 118 Series

(Matures 115 Days)

In tests made outyielded open-pollinated corn by 20.8 bu. per A.—enough EXTRA YIELD to pay the seed cost four times over.

A favorite feeding corn, medium rough, highest feeding value of all our hybrids.

Long roots go deep to protect from drought and wind damage. Disease resistant.

ORDER BY SOIL TYPE

No. 118—For average and light soils.

No. 118R—For rich or heavy soils.

No. 3 - STORIES ABOUT GURNEY'S NORTHERN HYBRID

WHY FARMERS PREFER

GURNEY'S Northern-Grown HYBRID CORN

Each year Gurney's northern hybrids make more record breaking yields wherever planted and win new friends throughout the great Northwest. Being one of the largest northern hybrid growers, it is natural for the farmer to turn to Gurney's for the BEST in NORTHERN GROWN hybrids. And here are a few of the ways in which Gurney's Hybrid corn is superior:

1. GURNEY'S HYBRIDS YIELD 10 TO 20 BUSHELS MORE PER ACRE—Bred from the finest inbreds, they will outyield ordinary corn consistently on your farm. It pays to buy high yielding seed like this.
2. GURNEY'S HYBRIDS ARE DROUGHT RESISTANT—They are bred with giant root system that goes down deep for moisture and stands high temperatures and dry weather where ordinary corn can't take it.
3. GURNEY'S HYBRIDS ARE COLD RESISTANT—You can plant them early. They are resistant to cold in the spring.
4. GURNEY'S HYBRIDS ARE GOOD FEEDING CORN—They are not hard and flinty. They are the real Reid's farmer type corn.
5. GURNEY'S HYBRIDS ARE UNIFORMLY GRADED—All seed uniform and regular, guaranteed to please you or no deal. Every bushel is treated with corn dust to protect against soil borne disease.

FLAT EDGE DROP GRADED CORN—

Most farmers know and most farmers plant flat edge drop graded corn. When you buy from Gurneys you are assured absolute uniformity—corn graded to run through your planter box evenly and smoothly. The very latest and best in grading machines assure you this. If you like to plant flat kernels we can give you the best grading you've ever seen.

Perfectly Graded Flat Kernels.

ROUND HILL DROP SAVES YOU

\$1.00 PER BUSHEL

You can save an extra \$1.00 per bushel on your corn by planting hill drop. It is just as regular and uniform as edge drop, only the kernels are round (they weren't squeezed as hard on the ear as the flat kernels). They stand more cold weather than flat kernels, have the same breeding, and will give you as good a crop as flats.

If you want to save more on your hybrid seed corn costs, plant "hill-drop" graded corn this year.

Perfectly Graded Round Kernels.

BOOK YOUR CORN NOW BEFORE THE PRICE RISE

We have set these low prices on Gurney's Northern Hybrids to encourage early orders.

The low prices on Gurney's Northern Early Hybrids were purposely set low to encourage early orders. Good hybrid corn is going to be short and we want all Gurney customers to get their orders in EARLY so they will not be disappointed.

Don't wait until the last minute to order. Take advantage of special discount (20c per bushel), good until February 15th. This year, of all years, GET YOUR ORDER IN EARLY—not alone to save 20c per bu. BUT TO INSURE YOUR GETTING GOOD ADAPTED SEED CORN.

One of Thousands of Farmers' Letters About Gurney's Northern Hybrid

Gentlemen:
That No. 100 Gurney Hybrid I bought of you last spring made a wonderful field of corn. Probably best I've ever raised. I have other hybrids planted in the same field, but GURNEY'S IS BETTER THAN ANY OF THEM. You can't say too much about that hybrid of yours.

Yours truly,
Albert H. Tyral,
Spencer, Nebr.

"Northwest's Largest Seed and Nursery House"—GURNEY'S, Yankton, So. Dak.

GURNEY'S, Yankton, So. Dak.—"Northwest's Largest Seed and Nursery House"

Our Low Opening Tested Field Seed Prices Are Below

Gurney's Field Seeds Are Rigorously Cleaned, Tested and Packed by Expert Seedsmen

TESTED FOR PURITY AND GERMINATION

All Gurney's hardy, northern-grown field seeds are carefully tested for purity and germination, both when the seed comes in from the field and after cleaning. These tests are conducted in a modern laboratory by trained seed analysts. Absolutely every bit of seed must meet rigid, high standards for both purity and germination or it is not accepted for sale. You can't buy finer field seeds than Gurney's. And despite the care taken in maintaining high standards, you always save at Gurney's.

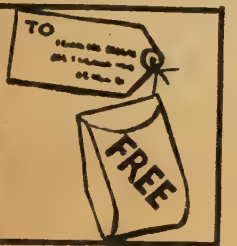

YOU SAVE BY BUYING DIRECT

You get better field seeds for less money by buying direct from Gurney's. Buying DIRECT cuts out the extra commissions, extra profits, and extra delivery charges. And these savings ARE YOURS. In many cases, Gurney's price direct-to-you is lower than wholesale quotations on the same quality seed. If you can save from \$5 to \$50 on your field seed needs this spring, it's worth doing, isn't it?

GURNEY'S SEEDS SOLD ON APPROVAL

Gurney's are so proud of the quality of their field seeds they are willing to do what few seed houses can do and that is—guarantee to please you. You have 10 days after you receive your seed to look it over, examine it, test it in any way you see fit and if it doesn't please YOU 100%, send it back for full refund or exchange. Gurney's seed always pleases. That's why we can afford to make a guarantee like that.

FREE SAMPLES

You may have samples of any field seed you are interested in buying at any time, FREE. We are anxious to have you see the superior quality of Gurney's field seeds and will gladly send you samples of any seeds you are interested in.

Because of Market Changes, all Prices on this page are quoted Subject to Change without Notice. Buy Early and avoid any Price Raise.

ABOUT SEED SHORTAGES THIS SPRING

You've heard a lot about shortages and we don't want to add to your troubles, but SEED OF ALL KINDS IS RAPIDLY BECOMING ONE OF THE MORE SCARCE COMMODITIES.

Hay is high priced and needed for livestock. For some reason seed did not set good in most sections. Government reports show all legume seed crops the shortest in years.

There won't be enough seed of many varieties to go around. That's why the O.P.A. has put ceiling prices on many seeds. Ceiling prices may prevent certain seeds from going sky high but it won't make more seed available.

Fortunately we bought a lot of seed early. Our opening prices are below O.P.A. maximum ceiling prices.

Don't delay. Write your order and check today. Our seeds are certainly priced right. But, the main thing is to get yours while the best seed is still available.

Lot Best Dakota No. 12 ALFALFA

99% PURE

You can't afford to pass up this lot. The old standby and favorite alfalfa of thousands of farmers. Winter hardy, grows taller than other varieties, therefore makes more hay per acre. Adapts itself perfectly to a wide range of soil and weather conditions. Lot Best is bright, clean, plump berries, free from weeds and ready to go.

We were only able to obtain a few hundred bushels of this lot of seed. Bought early and while it lasts can pass the saying along to you. ORDER ALFALFA YOU NEED NOW!

\$28.95
per bu.
\$48.25
per 100 lbs.

99 1/4% PURE COSSACK ALFALFA

\$30.50
per bu.
\$50.90
per 100 lbs.

Here is absolutely the best in hardy Cossack Alfalfa. 99 1/4% Pure, free of noxious weeds, beautiful color and high germination. This lot is perfect for the Northwest to produce leafy, fine stemmed hay. High yields each cutting. Alfalfa is scarce, don't wait. This lot will move fast.

COSSACK IS HARDY
Cossack Alfalfa is considered the superior seedling for long life and hardiness.

Alfalfa—Red Clover—Timothy Mixture

60% Alfalfa—20% Red Clover—20% Timothy

Great Hay Crop at Low Cost. Alfalfa is so high and short, there won't be enough seed to go around this year. That's why we picked up this special lot of Alfalfa-Clover Mixture. It gives you an Alfalfa seedling at low cost. The clover mixture is not high or poor spots the Red Clover and Timothy will give you a better stand than Alfalfa alone.

Sow at the usual rate of 15 pounds per acre and you will have plenty of Alfalfa seed for a full stand anyway. A little clover that may show up in the first cutting will be taken over by the Alfalfa on the sweet soil before you make any future hay crop. Only a small amount of this lot available.

\$18.45
per bu.
\$30.75
per 100 lbs.

Lot Northern GRIMM ALFALFA

\$24.95
per bu.
\$41.60
per 100 lbs.

Here's a lot that won't last long at this price. Every farmer knows Grimm and prefers it.

BIG BARGAIN—97% Pure
This seed is 97% pure, high germinating, qualifies for all AAA payments. Don't pass up this bargain.

Grimm is Hardest of All. Grimm is the hardest alfalfa of all, with long branching root stocks which grow deep, preventing winter heaving and killing. Is good on hard pan or dry soil territories. Very leafy and high in feeding value.

2 GOOD PASTURE CROPS

HURRY-UP PASTURE MIXTURE

For pasture RIGHT AWAY

\$4.95
per bu.
sows 3 A.

If you want pasture in a hurry, here's what to sow. Will give you good pasture in 2 weeks. Made up of RYE GRASS to give you palatable pasture quick as oats, RAPE—equal in feeding value to alfalfa, SUDAN—MILLET for quick palatable, and midsummer pasture. Good for sheep, calves, hogs, and will carry more head of livestock THAN ANY OTHER ANNUAL PASTURE. Sow 1 bu. oats and 15 lb. of mix per A. or sow mix alone. Priced low to sell. Buy early.

DWARF ESSEX RAPE

For quick—high feeding value pasture

\$16.50
per 100 lbs.

Here's a real buy in rape. Ideal for hogs, sheep, calves. All like it. Equal in feeding value to alfalfa and makes 100 lbs. gain quicker than alfalfa. Stands dry weather. Grows fast. Stands lots of trampling and comes back fast after pasturing. Every farm should have from 1 to 4 acres of rape and watch feed bills go down.

SWEET CLOVER—98 1/2% PURE EXTRA FANCY SEED

Think of buying Sweet Clover 98 1/2% or better pure, high in germination, plump new crop seed for only \$10.25 per bu. You can compare this quality and this price with fancy Sweet Clover sold anywhere. It will be \$1 to \$2 per bushel higher.

All Carefully Cleaned

This lot of high purity Sweet Clover at this bargain price is all carefully cleaned and re-cleaned and noxious weed free. Buy direct from Gurney's and save money.

Sweet Clover Ideal for Pasture, Seed, and Soil Building
Sweet Clover is the perfect soil builder and should be used more on all farms. Besides the great quantities of green manure, it also makes ideal pasture for hogs and cattle. Seed Crops bring you good money year after year. And don't forget, you can count on 5 to 10 bu. more per acre of corn if grown on land that had sweet clover on it the year before.

\$10.25
per bu.
\$17.10
per 100 lbs.

Save on Sweet Clover—Buy WHITE & YELLOW SWEET CLOVER MIXED

This mixture good for soil building, hay and pasture.

This mixture of white and yellow Sweet Clovers saves you money but still is better for pasture. The Yellow Blossom makes earlier pasture and the White Blossom makes later pasture, stretching pasturing season by several weeks. Ideal for soil improvement. Seed is cheap in this mixture but still meets all AAA requirements. The seed goes a long way and your pasture is better quality, finer stemmed, more tender than straight White Blossom.

By buying White and Yellow Sweet Clover Mixed you get good quality—but it costs you less. For many years, now, this has been one of our most popular mixtures for it does the job better, and still is a real money saver over other grades of seed.

\$9.50
per bu.
\$15.80
per 100 lbs.

CERTIFIED RICHLAND SOY BEANS

Here's the new early maturing Grain Type Yellow Soy Bean that has become so popular the last two years. Richland produced sound dry beans where common varieties did not mature. It's a dandy erect growing Soy Bean easy to harvest standing in field, with a combine. High in oil content too. While they last we offer state certified and registered blue tag seed. Order today while you can get the Best.

\$4.00
per bu.
\$3.90
per bu.
10 bu. lots

DWARF TYPE SWEET CLOVER

More growers should know about this Dwarf Type Sweet Clover. It matures 2 to 3 weeks earlier than the tall Sweet Clover. Ripens evenly making a good type for seed. Try some of this lot this year in your oat or other small grain plantings. It will not interfere with harvesting the grain crops because of its shorter growth. We offer an extra nice clean lot 99 1/4% pure seed that's sure to please.

\$10.95
per bu.
\$18.25
per 100 lbs.

O.P.A. Ceiling Prices

BROME GRASS MIX

Here's a mixture made especially for permanent hay and pasture on dry land.

Over 50% Brome—Cheaper Than Brome

This mixture contains over 50% Brome with the balance in other hardy native dry land grasses such as Crested Wheat, Slender Wheat and others that do well in the drier sections of the United States. Stands the hottest summers or the coldest winters. Sow 12 to 15 lbs. per acre, early. Roll in well on a firm seed bed. Add 4 lbs. of alfalfa to the acre if you wish. Alfalfa and Brome can be pastured together with no fear of bloat.

\$6.95
per bu.
\$15.45
per 100 lbs.

Northern Grown BROME GRASS

Brome Grass makes more pasture than any other grasses and lasts two weeks later in the fall. Cattle and hogs both like it. Absolutely winter hardy—doesn't kill out. And, best of all, it's the ideal drought resistant grass with roots that go deep in the ground for moisture so it can STAND THE SEVEREST KIND OF HOT WEATHER.

HOW TO SOW—Sow early on a good seed bed, harrow or roll in well—rolling is best. Sowing with alfalfa, use 4 lbs. of alfalfa and 10 to 12 lbs. of Brome per acre. Sowing with Sweet Clover, use 10 to 12 lbs. of Brome and 6 lbs. of Sweet Clover, or sow alone, 15 lbs. per acre.

\$17.95
per 100 lbs.

Half and Half

Permanent PASTURE MIX

Lot Half and Half is our most popular permanent Hay and Pasture Mixture where rainfall is fair to good. Is a carefully blended mixture of five grasses and five legumes in just the right proportions to grow in all types of soil and give you pasture ALL SEASON LONG. There is always something green even in the heat of the summer.

INCLUDES FIVE CLOVERS, FIVE GRASSES
To insure a good stand everywhere, this mixture includes, in proper proportions five clovers (alfalfa, red clover, alsike, Korean Clover, Sweet Clover) and five grasses (Kentucky Blue Grass, Rye Grass, Red Top, etc.).

LOT HALF AND HALF WITHOUT SWEET CLOVER
If you want us to omit Sweet Clover, we can supply the same mixture omitting Sweet Clover at only \$8.05 per bushel or \$17.90 per 100.

Price
\$7.60
Per bu. (45 lbs.)
\$16.90
per 100 lbs.

ABOUT SORGHUMS

GRAIN TYPES—Martin's Combine Milo—Best Combine Milo. Early Kalo—high grain yielder. Best Combine Grain Sorghum. Colby Milo—Good grain yielder. Sooner Milo. Very early variety. Feterita—Matures early, smut resistant. Best poultry feed.

FODDER TYPES—Black Amber Cane—Sweet stalks. Early maturing. Early Orange Cane—Sweet and juicy, earliest maturing. Leoti Red Cane—Sweet and juicy, very leafy. Atlas Sorgo—Heaviest yielder of all, out yields corn for fodder or silage three to one.

DUAL PURPOSE TYPES—Good for both grain and fodder. Norkan—New variety, but just watch it go. Just like Atlas only 10 days earlier. Hegari—Juicy, heavy yielder of sweet fodder and grain, erect heads, leafy stalks, a perfect all around feed. Kafir—Good yielder, juicy but not sweet, stalks leafy.

COMBINE TYPES—Martin's Combine Milo—Try it, you be the judge. Early Kalo—Hard to beat—Colby Milo—Always good—Sooner Milo—A good early Milo.

BEST New Crop SUDAN

Our opening price of \$14.95 per 100 lbs. of Sudan probably won't last long. Sudan is a popular crop this year.

ALL HIGH QUALITY—NEW CROP SEED

This is beautiful seed, 98% to 99% pure Sudan, absolutely noxious weedfree and free of Johnson Grass. Heaviest, plumpseed, selected Sudan available.

ENORMOUS YIELDER

Sudan will carry more head of livestock per acre than any crop we know of. Makes from 4 to 10 ton of hay per acre. It's high in feeding value and gives you hay in a hurry, within 60 days after planting and a second crop six weeks later, just before frost. Every farm needs a patch of Sudan. Comes green in midsummer when other pastures don't do as well.

HOW TO SOW

After cornplanting time, drill in close rows or broadcast, using about 25 to 30 pounds per acre. Don't cover over one inch deep. Pack seed in well.

\$14.95
per 100 lbs.

CRESTED WHEAT GRASS

Gurney's Forage Strain

This is Gurney's finest grade of Crested Wheat grass. Fully matured, high germinating, noxious weed free, Crested Wheat Grass. Strictly northern grown.

Crested Wheat is one of the hardy, dry land, drought resistant grasses that should be on every farm in the Dakotas and Nebraska. Your state college recommends it but be sure when you buy, you get mature, properly cleaned seed.

Price
\$17.95
per 100 lbs.

BE SURE TO INOCULATE

Makes Them Start Faster—Yield More

Don't spend good money for clover and alfalfa seed without inoculating it. It not only does better, but must be inoculated to take Nitrogen from the air and put it in your soil.

By inoculating, you make full use of the legume's ability to fertilize your soil by adding Nitrogen to it. Makes better clover stands and crops and better crops to follow. You should inoculate even if land was inoculated before.

Gurney's Chicks

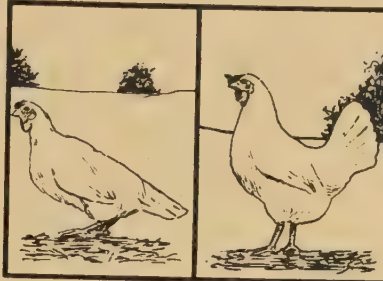

Gurney's Chicks Come Only From Carefully Culled Flocks

Every egg set in Gurney's large hatchery comes from flocks inspected, culled, and approved by our own hatcherymen. Every flock is carefully culled to retain only those birds of perfect body type, high-producing laying ability, and good health and vigor. When the males heading the flock are not from superior strains, they are replaced with males from flocks with high egg records. This blood counts in making Gurney's chicks superior.

GURNEY'S BETTER BREEDING MEANS MORE PROFIT FOR YOU

It costs you no more to raise a high-producing chick than a scrub chick, but where the scrub chick often loses you money or makes only a small amount of profit, a high-producing strain will make you good profits.

A scrub chick eats as much as a good chick and still may lose you money.

A high-producing Gurney chick doesn't cost any more to raise and makes a profit.

Which would you prefer?

Don't waste your time and feed on chicks of doubtful origin. It isn't worth it. This year, insist on Gurney's guaranteed high-producing strains and pocket EXTRA PROFITS.

Gurney's Customers Everywhere Praise Gurney's Chicks

Miss Marjorie Diede and Flock

Gentlemen: Last April 18th we bought 600 White Leghorns, Super grade, from you and we must say we never saw such a lively bunch and every day we could see them grow. Of course we fed them the best and took good care of them but they were sure fine chicks. Aug. 26th we received our first pullet eggs. Now I pick up 26 doz. eggs a day. Next spring we want to get 1,000 of your chicks. Thank you.
Very sincerely,
Mrs. Geo. Nelson,
Arlington, South Dakota

Gurney's, Inc.
Gentlemen:

I must write to thank you for such sturdy, healthy chicks I received from you this spring. They are all sturdy and robust and growing fine as yet. I must say I have never seen such a lot of sturdy chicks. May I please ask how many extras you sent. Thank you for your kindness, and good stock. I intend to send for 100 straight pullet chicks soon as I am able to do so. I am sure well satisfied with the chicks.
Truly yours,
Dan A. Brawn,
Underhill, Wisconsin, Rt. 1.

← Another Gurney Chick Booster

This is Miss Marjorie Diede, of Utica, South Dakota, pictured with her flock of Gurney White Rock pullets. She says, "My Gurney White Rock pullets are the finest I ever raised. They matured faster, started laying earlier, and are the finest looking bunch of pullets I've ever seen. To say I'll always stick to Gurney's chicks and their high quality is putting it mild."

GURNEY'S CHICKS GUARANTEED TO ARRIVE 100% ALIVE!

Extra Large Shipping Boxes Used

Gurney's better breeding program means fluffier, healthier baby chicks.

Gurney's Chick Guarantee

We guarantee our prices to be lower, quality considered, than others. All of our baby chicks are exactly as represented in the grade and variety ordered, and guaranteed to reach you 100% alive and in good condition. Extra chicks are included in each box so when chicks arrive, count the live ones and if you don't have full count of live chicks, or they are in bad condition, simply have your delivery agent sign a statement and mail to us within 24 hours and they will be replaced FREE.

SEXED PULLET GUARANTEE—90% true to sex guaranteed on pullets. If more than 10% are males, we will refund the difference in price between the price of straight run and pullets, for all over the 10%. This applies both to hybrids and pure breeds. All sex complaints must be made within 60 days from the date the chicks are received. In case of complaints proper forms will be sent you. In no case are we liable for more than the original purchase price of the chicks ordered.

GURNEY'S OFFER YOU BARGAINS IN 12 MOST POPULAR BREEDS, HYBRIDS, and SPECIALS

HYBRID CHICKS

Lay Better—Grow Faster—Are Healthier

Gurney's LEG-ROCK HYBRID
Best Hybrid for Eggs

By crossing our outstanding Wh. Leghorn males with some of our best White Rock females, we obtain this hybrid which has the egg-laying ability of the Leghorn and the size of the Rocks. But they have proved in many ways superior to both—laying earlier and more, maturing more rapidly and being very DISEASE RESISTANT. Easy to raise.

Gurney's WHITE ROCKS—One of the best of the dual-purpose breeds. Snow white plumage, fast maturing, rapid feathering, yellow colored skin, free from pin feathers. Lay large brown eggs bringing top market prices.

Gurney's BARRED ROCKS—The favorite on many farms. Barred Rocks are large in size, fast maturing, rapid feathering, make good broilers or heavy roasters. They produce large brown eggs. Gurney's have improved these by careful culling and mating with pedigreed males.

Gurney's WHITE WYANDOTTES—These are the deep breasted birds among the first to go to market. Very good broilers. Will reach 2 to 3 pounds quicker than most any variety. Good rustlers—pick up all waste seed on the farm. Easy to raise and mature rapidly.

Gurney's BUFF ORPINGTONS—This is Gurney's giant strain of Buff Orpingtons, especially good winter layers due to their large bodies and heavy plumage. These eggs come on the market when it is the highest. Make good heavy capons or heavy roasters. If you are interested in winter eggs and heavy meat birds, here's the variety for you.

Gurney's RHODE ISLAND REDS—These deep red Rhode Island Reds are favorites on many farms. Strong and rugged. They are next to Leghorns in egg production. Gurney's Reds are quick feathering, fast maturing and will be ready for the early market. They lay large, brown eggs.

Gurney's NEW HAMPSHIREs—This is often called the Leghorn of the heavy breeds, because it has heavy egg production like the Leghorn and still has the heavy weight of the heavy breeds. They mature rapidly and have vigor and hardiness of the White Leghorn and replace the White Leghorn on many farms due to their good size. They lay large brown eggs.

Gurney's WHITE GIANTS—These are well named for they are the extra large chickens—cockerels are excellent for caponizing, often weighing 12 pounds or more. Capons bring good prices on the market. Pullets are good layers and their size makes them desirable in every way. Brown eggs.

Gurney's HEAVY ASSORTED—These are assorted chickens left over from the day's shipping in the heavy breeds. Often they come from the very top grades so it is a bargain you can't afford to miss.

Gurney's ALL BREEDS ASSORTED (40% Heavies). These are chickens selected from those left at the end of the day's shipping and often times of the very best breeds. We guarantee to ship 40% of the heavy breeds with this lot. You can't go wrong and will really save you money.

AUSTRA-WHITE HYBRIDS—The famous cross of the champion egg laying breed of

Australia, Black Australorps, with America's best egg breed, White Leghorn. Gets heavy egg production WITH MALES WEIGHING FROM 7 to 8 lbs. Try some this year. You'll want all your flock of this profitable breed next year.

Gurney's Famous WHITE LEGHORNS

Our famous White Leghorns have proven to be one of the most popular breeds for our customers to raise. These are the large type (not beefy) and are full of vigor and are great rustlers. Don't make a mistake in thinking all White Leghorns are alike. They're not. Gurney's have worked for years to perfect a better laying strain and these EXTRA EGGS mean EXTRA PROFITS to you at no increased expense.

GIVE YOU MORE EGGS SOONER MORE MEAT EARLIER

Here are some of the finest chicks you can buy—all from eggs from carefully culled, high-producing flocks—superior bred to please Gurney's customers who want the best at a fair price.

No expense has been too great for us in bringing in high-producing blood lines, culling our hatching flocks, and supervising these flocks—all done so that Gurney's chicks would be **SUPERIOR CHICKS IN EVERY WAY.**

Good Chicks Cost No More to Raise

IT COSTS YOU NO MORE TO FEED A HIGH-PRODUCING CHICK than it does a scrub chick, and that high-producing chick will make you a nice profit while scrub chicks often actually lose you money.

And Gurney's high-producing chicks cost you no more. Don't be satisfied with anything this year but Gurney's Better Bred Chicks.

Your Government Is Asking for Increase in Poultry Production

Your government is asking YOU to raise more chickens. They have supported a good market making chicken raising profitable to you both for eggs and for poultry. It's a good chance for you to "cash in." But the important thing is TO RESERVE YOUR CHICKS EARLY. The demand will be so great this spring THERE WILL NOT BE ENOUGH CHICKS TO GO AROUND. GET YOURS BOOKED NOW!

Buy Sexed Chicks and Save Money

Buying cockerels early for the high spring markets and then following with a flock of pullets uses your brooder house double and makes you extra money. Besides cockerels and pullets do better, if raised separate. They cost you little more than straight run chicks, but make you real savings in raising.

Deposit Only \$1 for Each 100 Chicks Wanted

This holds your order for any delivery date you wish. Send balance 10 days before shipment. Send cash in full for immediate prepaid shipment.

C.O.D. Plan

Send \$1 for each 100 chicks or less wanted. Pay balance plus transportation charges on delivery. Be sure to specify on your order if wanted this way.

Make 2nd Choice

You know how hard it was to get chicks when you wanted them last year. Looks like this is another of the same. Unless you order real early, better give us a 2nd choice on your order (if possible). This insures you prompt shipment. We always ship first choice if possible to do so.

Save \$1 to \$3 Per 100 Chicks

High producing blood is used in our matings for high egg production. GURNEY'S SAVE you \$1 to \$3 per 100 chicks. Order now and save most.

Dollar for dollar you'll get better chicks from GURNEY'S. Quality for quality you'll save money at GURNEY'S.

NORTHERN GROWN FLOCKS NORTHERN HATCHED CHICKS

Come and visit our modern Hatchery right here at Yankton where we will hatch 1 1/2 million chicks for our friends and customers this year.

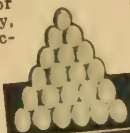

These Low Prices Are for
EARLY ORDERS ONLY
To Encourage You to Book Your Order Now!
Prices Will Be Higher!

ORDERS MUST BE BOOKED EARLY!

Because of the heavy demand for baby chicks, your reservation should be in 2 months or more ahead of the date you want chicks. Those not reserving chicks early may be disappointed. Gurney's.

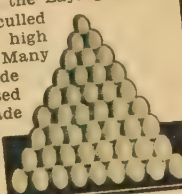

High Quality!

Gurney's Laying Grade
Strong, healthy standard bred chicks, far superior to ordinary hatchery chicks, such as Grade A, etc. They are all from rigidly culled, properly fed and mated parent stock. Every breeder has been individually culled for health, general quality, type, and egg production. 23 oz. eggs or larger set to hatch these fine healthy chicks.

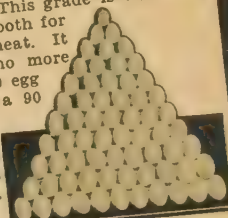

Higher Quality!

Gurney's Special Egg Grade
Just what you're looking for in a superior bred chick, yet cost very little more than the Laying Grade. More rigidly culled for quality and high egg production. Many highest egg grade cockerels are used in this Egg Grade mating. Get extra eggs with this grade.

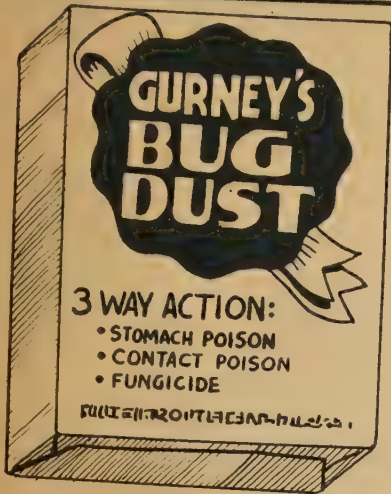

Highest Quality!

Gurney's Highest Egg Grade
More eggs, more profit from the same feed. This grade is our finest bred chick, both for eggs and meat. It costs you no more to raise 200 egg hens than a 90 egg hen, but you make 5 to 6 times the profit.

Gurney's Extra Farm and Garden Aids

Gurney's New Formula Powerful BUG DUST

Gurney's Great Aid to Gardening

Here's a powerful new Insecticide and Fungicide, all in one dust, that gardeners all over the Northwest are talking about. No need to buy several dusts when one will do.

● **MARVELOUS THREE-WAY ACTION DUST.** This dust works three ways, not only as a STOMACH POISON, but also a CONTACT POISON and FUNGICIDE—all in one dust. No need to buy three dusts—use our Bug Dust.

● **SAFE TO USE**—Gurney's New Formula Bug Dust does not harm the most delicate plants when used as directed.

● **ABSOLUTELY GUARANTEED**—Bug Dust absolutely performs to your entire satisfaction or we will refund your money without any obligation to you, and no questions asked.

● **ALL PURPOSE—MANY USES.** This dust is a combination of several powerful Insecticides and Fungicides mixed together by a secret formula, so in one dust you have the nearest to an all purpose dust we know.

USE IT ANYWHERE

Dust your flowers and shrubs against bugs and disease.

Dust your garden crop against bugs and disease.

Dust poultry and animals to help control mites and lice.

Dust around ant hills to stop them.

Dust your houseplants against bugs and disease.

Make water solution and use as fly spray.

NOTE: By above we do not mean that Bug Dust will control every garden pest or every fungus. No dust can do that, but we do claim that it is the nearest to perfect dust that we have ever sold. It is guaranteed 100% or your money back.

SPECIAL OFFER: 2 POUNDS AND DUST GUN \$1.15 POSTPAID

DUSTERS

49¢

This is the gun we recommend for use with our Gurney Bug Dust. Strong and powerful. Supply very limited. We hope it will last to supply all of our customers. 49¢ each, postpaid.

PLEASE DON'T BUY GURNEY'S BUG DUST ... I WANT TO LIVE!

INOCULATE YOUR PEAS and BEANS for BIGGER YIELDS

All your garden peas, beans, and sweet peas should be inoculated. Inoculation helps the plant take nitrogen from the air and fertilize your soil—giving you bigger yields, faster growth and garden soil that's not worn out.

Just takes a minute to dust it on your seed—no trouble at all but it makes a world of difference in your yield.

There's enough in this 10¢ packet to inoculate 5 lbs. of seed. That's enough for most of you. Full directions on each packet. Be sure and everybody order it. Garden size packet, 10¢, postpaid.

LEGUME-AID INOCULANT

GIANT PKT. 3"x4"
Inoculates 5 lbs. seed. Pkt. 10¢

DOGS-ZA-WAY

Dogs ruin shrubs and evergreens. Protect them with DOGS-ZA-WAY. Guaranteed not to harm plants but extremely offensive to animals. Lasts several weeks. Simply spray it on places you want to protect. Full direction on can. Season's supply 39¢, postpaid.

MOLE AND GOPHER KILLER

Drop a cake in the mole run or gopher hole and your troubles are over. Acts as a stomach poison. Gets them quick. Can't harm poultry, domestic pets or animals. This mole and gopher killer has become one of the most popular sellers because it DOES THE WORK and is easy to use. Large box (90 pieces), 50¢; 2 boxes, 90¢. Postpaid.

RAT KILLER

Here's the REAL WAY TO GET RATS. We guarantee it 100%. Won't harm any domestic animals, or poultry, BUT GETS THE RATS. It's the one rat killer we've found that GETS THE RATS where other poisons fail. Easy to use. Full directions on package. Large box (enough to kill 70 rats), 50¢; 2 for 90¢. Postpaid.

ANT KILLER

This is the ant killer that always surprises people by its speed in really killing out those ants that get in pantries, kitchens and gardens during the summer. Simply punch several holes in the top of the can and set on shelf or wherever ants are and—no more ants. Absolutely guaranteed. 4 cans 98¢, postpaid. Single can 35¢, postpaid.

"GROW-AID"

The Sensational New Seed and Plant Stimulant
Hormone-Vitamin Concentrate

Here is the miraculous new seed and plant stimulant in concentrated form. A combination of the recently discovered, very beneficial root stimulator—Hormones and the better known Vitamins that have made plants and seeds GROW FASTER, YIELD MORE, AND PRODUCE LARGER FLOWERS AND FRUITS. Tests by state colleges everywhere approve it. In one test, Dr. J. C. Ireland of Oklahoma Experiment station showed increases of 37 to 47 per cent in yield when used on corn. Often, number of roots on a plant are doubled when GROW-AID is used.

This miraculous dust multiplies roots, speeds up root growth and stimulates and makes larger plants when used on vegetables, plants, shrubs, seedlings, trees, or flowers.

USE AS DUST OR SOLUTION—Very Easy To Use. Can be used either as a dust on seedling roots or sprinkled on your vegetable seeds or may be used as a solution (about 1 teaspoonful to a gallon of water) to soak roots before planting or to water plants already established. (Full instructions for GROW-AID on each package.)

Use It On All Your Plants and Seeds For Better Results
1. Dust it on flower or vegetable seeds before planting.
2. Soak nursery stock roots in solution before planting.
3. Dust Seedling roots before transplanting.
4. Use as spray for trees. KEEPS FRUIT ON TREES UNTIL RIPE.
5. Use as solution to water growing SHRUBS AND TREES.
6. Use as solution to water HOUSE PLANTS.
7. Use as solution to water ROSES, SHRUBS, LAWNS.

A General All Around Product Every Gardener Should Have
deners, planters, etc.), \$1.00, postpaid.

A Sample of How "GROW-AID" improves plants it is used on.

4-LEAF GOOD LUCK PLANT

10¢ Each

Here is a real good luck omen for your Victory Garden. Giant size 4-Leaf Good Luck Plant, often with leaves 1 to 1½ inches across. Very prolific with its 4-Leaf Good Luck leaves. Have several of them in your garden, for good luck omens from day to day, or to give to your friends. Price: One bulb 10¢; 3 bulbs 25¢, postpaid, if ordered with other items.

GET BETTER PRINTS AT GURNEY'S

Any of Your
6 or 8 Exposure Roll Film **25c**

DO YOU HAVE FURS FOR SALE?

Ship Your Furs To Gurney's -WE'LL PAY YOU MORE!

For a numbers of years now, the Gurney Fur Department has been your best market for the furs caught in this section.

You have known Gurney's for a long time. We are closer to you than most other markets and, no doubt, your father marketed his furs through Gurneys. We should need no further introduction. You know us very well and can feel safe about all the furs of all kinds you may send us here at Yankton. You know that you will get full market value for every fur that you send in and get prompt returns. No long waits for your money.

We are giving out no prizes to just one or two shippers over this large territory, but do still better than that, when we pay each and every shipper the full market price for each skin he may send in to us.

This means more cash to every Gurney shipper and certainly helps much more than a few prizes scattered over several states, that benefits so few shippers.

As the 1943-1944 fur season is upon us again,

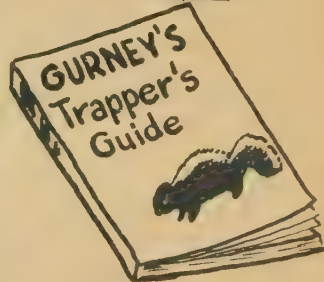

the Gurney Fur Department is again soliciting your shipments of Raw Furs to us here at Yankton. We will give you that same market pricing and liberal grading and see that all remittances go out promptly. If you live within driving distance of Yankton, it will pay you to bring in your Furs, Rabbit Skins, and Pelts. We always like to see you around our fur warehouse here.

Please write us, Postcard or Letter, and ask us for your copy of the free Gurney Trapper's Guide. You will get many tips on trapping, for the different fur bearers, skinning and putting your furs up for market. It is free for the asking and postpaid to your mail box.

Our price list and shipping tags will be sent on request.

Do not be misled by any trick advertising, high-priced circulars, or other methods to mislead, but tie a Gurney tag to your fur package and start it on its way to the Gurney Fur Department at Yankton, South Dakota.

FREE

Write today for your free copy of Gurney's Trappers Guide. Gurney's Fur Department, Yankton, South Dakota.

THE UPRIGHTS

SILVER OR BLUE JUNIPER

Really an ARISTOCRAT among Evergreens. They are compact in growth and are sheared into upright specimens. One of the hardiest and most drouth resistant trees that grow. Vary in color, from plum to a rich green in winter, turning to silver blue in the spring and fall. May be trimmed to any height desired.

Size	Each	Per 2	Per 5
18-24 in. Muddled..	\$0.98	\$1.75	\$3.90
18-24 in. B. & B..	1.99	3.60	8.80
24-30 in. B. & B..	2.75	5.00	12.25

EVERGREENS

These evergreens are all EXTRA-HARDY, giant-rooted trees grown for you here in our own nurseries in Yankton. Every one is a perfect specimen you will be delighted with.

Everyone should include as many evergreens in their plantings as they possibly can. Evergreens give beauty and color to your plantings all winter long when you have no color or foliage in any other plant.

All evergreens are balled in earth, wrapped in burlap and rope unless listed otherwise. When evergreens come, dig large hole, set the tree, cut the burlap down at least half way and fill hole with water. We grow many varieties not listed on this page and will be glad to send you quotations.

Buy Evergreens in pairs at a saving. They look better together. If you buy two we pick out perfect matched specimens. All varieties listed are hardiest strains, suitable to Dakota weather. Plant any varieties we have with assurance they'll do well. (Trees listed as muddled transplant fine and are dandy specimens.)

EVERGREEN SEEDLINGS

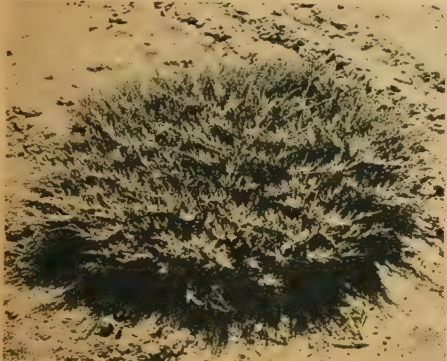

Ideal Evergreen Windbreaks

Everyone has been having marvelous luck with our Evergreen Seedlings. Plant these where they will have good care. Keep well cultivated. Make ideal windbreak as they give you good winter protection.

Variety	Per 25	Per 50	Per 100
Bull Pine	\$1.50	\$2.50	\$4.00
Jack Pine	1.25	2.00	3.50
Scotch Pine	1.50	2.50	4.00

Colo. Bl. Spruce.....	2.00	3.50	6.50
Red Cedar	2.25	4.00	7.50

SPREADING DWARF JUNIPERS

Plant in front of taller plants, along low porches or under windows. Set 3-5 ft. apart and out away from other plants.

ADMIRABILIS

The Perfect Ground Cover

One of the extra fine creeping varieties, rapid in growth, hardy, drouth resistant. Excellent for planting on slopes or for grave coverings, or for other locations where it is difficult to grow grass. Choice green or blue.

Spread	Each	Per 2	Per 5
12-15 in. Muddled..	\$0.89	\$1.60	\$3.50
12-18 in. B. & B....	1.70	3.30	8.10

30-36 in. B. & B....	3.50	6.40	15.70

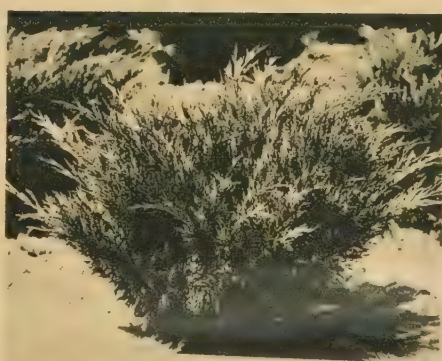

PFITZERS JUNIPER

Most Popular Spreader

A fine handsome Juniper. It has arching, spreading branches—feathery, gray-green foliage—a broad picturesque form. It is hardy everywhere, and does well in shade as well as sunshine. This Evergreen is three or four feet at maturity, and is the best seller of its type. This is the variety everybody admires.

Spread	Each	Per 2	Per 5
12-15 in. Muddled	\$0.98	\$1.80	\$4.00

18-24 in. B. & B....	2.90	5.40	13.30

MUGHO PINE

Perfect Ball Shape

This picturesque Dwarf Pine forms a bushy, compact ball growing as broad as it does tall. Grows about 3 feet tall but can be kept trimmed back. It has long stiff needles that are a dark, rich green. Very hardy and beautiful for borders and foundations.

Spread	Each	Per 2	Per 5
12-15 in. B. & B....	\$2.25	\$4.20	\$10.35

THE SPRUCES

THE PINES

Black Hills Spruce

The Compact Perfect Shaped Spruce What made the Indians call the mountains of South Dakota "Paha Sapa" or Black Hills? It was this beautiful Spruce that imprisons the shadows and from a distance, gives the Hills a black shade. Its new growth is Silvery. Extremely hardy. Its compact growth makes this Spruce most Beautiful for Landscaping.

Size	Each	Per 2	Per 5
8-12 in. Muddled	\$0.45	\$0.79	\$1.89

Gurney's Hardy Siberian Type of CHINESE ELM

The Most Useful Tree for the North

Our Chinese Elm were not damaged by the severe freeze of November 11, 1940, as were many other trees throughout the Northwest. We still believe the CHINESE ELM IS ONE OF THE MOST USEFUL trees we are offering, due to its ability to give shade in less time than other trees, and make a rapid growth under extremely dry and adverse conditions.

For Real Shade—If you are like most of us and don't want to wait forever for shade, the Chinese Elm is hard to beat. Every State throughout the Plains Area needs more of these wonder trees. They're heavy rooted, heavy calipered, and well branched. Plant a 6 to 8 foot tree on your lawn this spring and in five years, under ordinary conditions you can have a shade tree you will really be proud of—can even reach a height of 20 feet. They give the kind of shade you want IN LESS TIME. Don't fail to plant a few this year if you want the finest.

For Windbreaks—This Siberian Type Chinese Elm is hardy and tough. We gather hundreds of pounds of this seed in the Dakotas. . . . The Mother Trees came through years of drouth and the coldest winters on record. They thrive and grow FASTER THAN ANY OTHER TREE.

For Grove—Plant a thousand Siberian Elm seedlings this spring and in three years you can have a grove fifteen feet high. In five years you can cut fence posts or fire-wood. The wood, when dry, is so hard it will dull your knife.

For Hedge—During the past few years, the Chinese Elm has come into use as an ornamental hedge plant. Everywhere you see the Siberian type of Chinese Elm hedges, trimmed and neat. Many are ready for trimming the first year. If you want a quick hedge with heavy foliage clear to the center, plant Chinese Elm—Siberian Type.

Honey Locust—Thornless. An old favorite de-thorned. Tough, sturdy and dependable	12 to 18 in. 18 to 24 in.	1.05 1.45	1.69 2.29	7.15 9.70	12.88 17.46
Box Elder—Good for windbreak and grove. Fast in growth—hardy with heavy foliage	12 to 18 in. 18 to 24 in. 1.96	2.58 3.38	9.78 11.96	17.60 21.52

HOW TO PLANT WINDBREAK

Plant, if possible, 100 to 150 feet away from the house for best results. Plow a deep furrow where trees are to go and tamp seedlings in furrow carefully. Haul some water to the trees, if you can. Trees should be 6 to 8 feet apart in rows 8 to 10 feet apart for best results. Plant in staggered (zig-zag) fashion for best protection. The important thing is to PLANT EARLY. They'll do much better for you if you do.

Windbreak - Grove Special No. 1

CHINESE ELM PROVES DROUGHT-RESISTANT— HARDY IN NEBR.

Lushton, Nebr.
Nov. 5, 1942.

Dear Sir:—I thought I would let you know how your Chinese Elms were doing in dry Nebraska. We bought some seedlings of you. I am sending you some pictures. These trees have stood 4 summers and are 15 feet high and some even taller. They have not been irrigated. I think they are a wonderful windbreak. Not a single one has been frost-killed or drought-killed. We took this picture early this spring just when the leaves had come out. They grew a lot this summer.

Yours truly,
John C. Siebert,
Lushton, Nebr.

Beautiful, Hardy FLOWERING TREES

HOPA RED FLOWERING CRAB

A blaze of RED in the spring. Hopa Crab is a beauty. The spring bark and leaves are reddish in color. The flowers are bright red, and the fruit like clusters of rubies. The fruit is edible for jellies and the tree is perfectly hardy. Get at least 2—supply is limited.

Size	Each	Per 2	Per 5	Per 10
2-3 ft.	75c	\$1.40	\$3.25	\$6.00
3-4 ft.	95c	1.80	4.25	8.00

BECHTEL'S DOUBLE PINK FLOWERING CRAB
Imagine a tree covered with extra large pink flowers—ALL FULLY DOUBLE—and you have a picture of this beautiful flowering tree. Add to that, its heavy green foliage as a background to its mass of flowers and you see a Giant Brides' Bouquet. It blooms at two years in the Nursery and is perfectly hardy.

Size	Each	Per 2	Per 5
2-3 ft.	\$0.98	\$1.85	\$4.40
3-4 ft.	1.09	2.10	4.95

DOLGO CRAB

This Crab is both useful and ornamental. For additional information and prices see above and page 7. See Crab Apples.

FLOWERING CHERRY

Prunus Tomentosa

The FLOWERING CHERRY is a tree or bush that will CHARM AND DELIGHT. It is splendid and showy with flowers scattered along the branches. Stands close pruning and makes an excellent Hedge. Fruit is attractive red and juicy, size about ½ inch, good quality. Edible. A good cherry for pies and canning. Very productive.

2-3 ft., 39c each, 3 for 98c. 3-4 ft., 49c each, 3 for \$1.29.

PURPLE LEAF PLUM

Prunus Cistena

Here is a tree so beautiful that it looks like a picture. It has gorgeous, bright, PURPLISH leaves that stay bright and colored all season. The tree is very hardy. Dainty white flowers early. May be allowed to grow in shrub form or may be trimmed to tree form, but in any case, you will welcome its beautiful purple leaves as a contrast in your planting.

Size	Each	Per 2	Per 5
2-3 ft.	59c	\$1.10	\$2.45
3-4 ft.	69c	1.30	2.95

RUSSIAN OLIVE

This is the beautiful silver leaved tree. Very hardy and drought resistant. Grows 25 ft. Branches from ground up. Perfect for a silver windbreak or specimen tree.

Seedlings	Per 50	Per 100	Per 200	Per 500

6-8 ft.	.89	1.69	3.95	7.40

LOMBARDY or Black POPLAR

This is the Poplar that is so much used for avenue or background planting. They form tall, stately columns of dark, shiny-green leaves. It succeeds on soil too poor for other trees, and grows rapidly. Widely used for screening and windbreak purposes because the foliage grows close to the ground.

Size	Each	Per 3	Per 10	Per 25
3-4 ft.	\$0.39	\$1.10	\$3.40	\$6.89
4-6 ft.	.59	1.69	4.90	10.75

UMBRELLA CATALPA CATALPA BUNGEI

These trees are often planted in pairs, one on either side of the front walk. They have a spreading, compact head about 6 feet from the ground, dome-shaped, with large, dense leaves, making it look like a big green umbrella. They will be trimmed for planting before shipment. Many people will have no other tree in their lawns and parking other than these regular, compact, ball-shaped "umbrella" trees.

4-5 ft., \$1.79; 2 for \$3.25.

BASSWOOD

(Linden): A beautiful, hardy tree, with round compact top, large heart-shaped leaves that give dense shade; fragrant flowers. Rapid in growth and a very desirable tree for street or yard planting.

	Each	Per 3	Per 10
4-5 ft.	\$0.79	\$2.19	\$6.40
5-6 ft.	.98	2.79	8.30
6-8 ft.	1.19	3.39	10.40
8-10 ft.	1.79	4.98	16.40

GREEN ASH

You MUST PLANT GREEN ASH in your windbreak and grove. It is drought resistant, hardy, and vigorous in growth. The branches are strong and the wood hard. Uniform shape. An excellent shade tree.

Seedlings	Per 50	100	200	500
12-18 in.	\$0.98	\$1.59	\$2.89	\$6.75

Cut-Leaf WEEPING BIRCH

One of America's Most Lovely Trees

You simply couldn't find a more beautiful or graceful tree than this Weeping Birch, with white bark, long, drooping branches, and tiny, finely cut leaves. It is effective when used in groups of two or three. Grows to about 40 to 60 feet. Every home should have several.

	Each	3	5
4-5 ft.	\$1.49	\$3.98	\$5.95

SILVER LEAF POPLAR

The Silver Leaf Poplar, a large spreading tree, has luminous leaves that shimmer and glisten in the sunlight and breeze. The leaves are green on top and a glossy silver underneath. It is very sturdy and hardy. Plant Silver Leaf Poplar for grove, windbreak or shade.

Size	Each	Per 5	Per 10	Per 25
3-4 ft.	\$0.39	\$1.80	\$3.40	\$6.89

6-8 ft.	.95	2.70	4.35	7.50
8-10 ft.	1.59	4.65	7.55	14.60

MOUNTAIN ASH

Red Berried—One of the most ornamental trees you can possibly plant. The foliage is a beautiful green. Light, smooth bark, a broad head very compact, with gorgeous creamy white blossoms in the spring, followed by the many, many clusters of scarlet and carmine berries in the late summer and fall. It grows very rapidly.

Size	Each	Per 3	Per 5	Per 10
4-5 ft.	\$0.89	\$2.49	\$3.95	\$7.40
5-6 ft.	1.19	3.40	5.40	10.40
6-8 ft.	1.49	4.30	6.95	13.40

CARAGANA (Siberian Pea Tree)

The miracle tree for the north. Grows rapidly to a height of 12 ft. making an almost SOLID WALL to stop winds. Drought, hot winds or grasshoppers cannot stop it. ABSOLUTELY HARDY ANYWHERE. Also, makes IDEAL HEDGE—very tight and neat. Beautiful locust-like leaves.

Seedlings	Per 50	Per 100	Per 200	Per 500
12-18 in.	\$1.05	\$1.69	\$3.00	\$7.20
18-24 in.	1.25	1.98	3.56	8.40

4-6 ft.	.79	2.20	3.45	6.40

WHITE BIRCH

A graceful, medium sized tree with deep green foliage, white bark. The winter effect is excellent, especially when planted near Evergreens. Gives a contrast in your lawn that is very beautiful.

Size	Each	Per 3	Per 5
4-5 ft.	89c	\$2.48	\$3.99

NIOBE WEEPING WILLOW

Here is a tree which is very hardy and VIGOROUS. A handsome weeping tree with golden-yellow bark, narrow green leaves, and long drooping branches. For the first year, wrap the trunk with three-inch strips of paper wound around and overlapped.

Size	Each	Per 2	Per 5
3-4 ft.	\$0.45	\$0.85	\$1.85
4-5 ft.	.65	1.25	3.05
5-6 ft.	.79	1.50	3.35

LAKE CITY ELM

A beautiful upright growing Elm. It grows fast, has a uniform shape, large leaf, is hardy, and in every way recommends itself to planting at your home. A lane or road bordered with Lake City Elm is one of the most beautiful sights you can imagine.

Size	Each	Per 3	Per 5	Per 10
4-6 ft.	\$0.79	\$2.29	\$3.59	\$6.98
6-8 ft.	1.29	3.78	5.98	11.69
8-10 ft.	1.49	4.39	6.98	13.50

MOLINE ELM

Very similar to Lake City Elm. Does best from YANKTON South. SAME PRICE AS LAKE CITY ELM.

American Ivy

American Ivy is a five-leaved, rapid growing vine. It is excellent for covering large spaces, trees, and fences. The leaves turn red in the fall.

35c each; 3 for 99c.

SILVER MAPLE

(Soft Maple): A rapid growing ornamental tree growing to immense size, making an excellent shade tree, easy to transplant. Hardy here in Yankton.

Seedlings	Per 50	Per 100	Per 200	Per 500
12-18 in.	\$1.05	\$1.69	\$3.00	\$7.20
18-24 in.	1.25	1.98	3.56	8.40
Transplants	Each	Per 3	Per 5	Per 10
3-4 ft.	\$0.45	\$1.25	\$1.85	\$3.20

5-6 ft.	.69	1.95	3.05	5.60
6-8 ft.	.95	2.70	4.35	8.20
8-10 ft.	1.59	4.65	7.55	14.60

NORWAY MAPLE

One of the finest and most rapid growers of the hard maples. For street and lawn planting it can't be beat. The foliage is a beautiful green color in the spring and as summer turns into fall, the foliage turns beautiful copper, yellow and orange colors. You will simply love having this wonderful tree in your yard.

Size	Each	Per 2	Per 5
5-6 ft.	\$1.49	\$2.85	\$6.95

SCHWEDLER MAPLE

This tree can really "do things" for that lawn of yours. The leaves are a beautiful purplish-red in spring thereby contrasting with all of the green foliage. Gradually these high-colored leaves soften to bronze and finally to a deep waxy green. It has a round symmetrical head. A long-lived tree that will be permanent and add beauty for years to come.

Size	Each	Per 2	Per 5
5-6 ft.	\$1.49	\$2.85	\$6.95

GOLDEN WILLOW

Rapid growing willow with interesting, bright yellow bark. In mass plantings, they are very beautiful. Make good, hardy windbreaks. Half an acre of these trees cut to the ground every few years keeps an ordinary family in firewood for a whole year.

Size	Per 10	Per 50	Per 100	Per 200
18-24 in.	\$0.50	\$1.62	\$2.59	\$4.65

3-4 ft.	1.29	2.70	4.79	9.00

A NEW VINE

Everblooming "Orange-Glow"

Honeysuckle

A honeysuckle vine that we believe has almost reached perfection. Try it and see if you don't think so, too.

The flowers are almost indescribably Beautiful!!! A coral-orange—A color we have found in NO OTHER Flower. And it's EVERBLOOMING from spring to frost producing large flowers in long spikes.

If you like blooming vines, have the best of all. Try "Orange-Glow."

55c

2 for 98c
5 for \$2.10

VINES

There's no one thing that adds more to the attractiveness of a house with but little cost than a handsome vine—either a green ivy vine or flowering variety. And they're so easy to grow. Set them beneath the portion of your home or trellis you want them to cover. Dig hole about 18 in. or more from the foundation and water well. That's all there is to it.

These are all extra-heavy, well-rooted vines that will give you QUICK RESULTS.

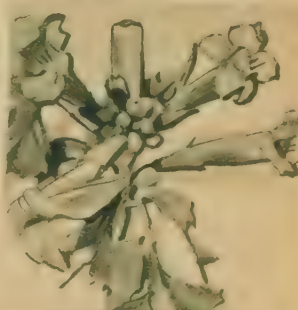

GROW VINES TO GIVE YOU SHADE—BEAUTY—HOLD SOIL ON BAD TERRACES

SILVER LACE VINE

This is a fine addition to any vines that you may be growing. It is of twining habit and grows quickly. Completely covers itself with Silvery white flowers from Mid-Summer until frost. Generally grows 20 feet in a single season.

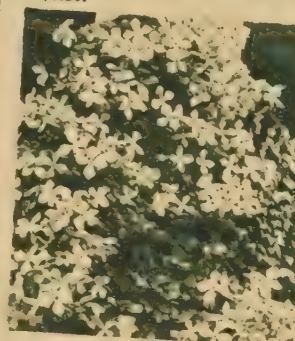

50c Each; 3 for \$1.40; 10 for \$3.50.

TRUMPET VINE

You are probably all familiar with this beautiful vine. It produces immense, orange-red, trumpet-shaped flowers. Very fragrant and will climb anywhere. The foliage is odd shaped and very beautiful. Wonderful vine for porches and trellises.

35c Each; 5 for \$1.35.

PURPLE JACKMANNI

This vine is exquisite and I think most of you are familiar with this clematis. Bears large blue flowers that are so gorgeous with a rich velvety appearance. It blooms from July until frost and is very hardy.

75c Each; 3 for \$2.15.

HONEYSUCKLE

HONEYSUCKLE (Halleana): Flowers an intermingling of white and yellow, extremely fragrant, a hardy fast-growing flowering vine for Porch or Arbor. They are perfectly hardy and cover themselves with flowers.

25c Each; 5 for \$1.00.

BITTERSWEET

Native of the Northwest. Produces an abundance of bright red berries that are used for decorative purposes in the home. Grow Bittersweet in your own back yard and have this beautiful winter bouquet. You must have at least two to get berries.

2 for 60c; 5 for \$1.20.

WISTERIA

This is a common variety that everyone knows and likes. In May and June it bears a great profusion of pea-shaped flowers in huge clusters, and is hardy in sheltered locations. Our plants sure to bloom.

40c Each; 3 for \$1.05.

BETA GRAPE

This grape is a favorite for covering walls, etc., because it grows rapidly, is very hardy and does produce excellent fruit.

35c Each; 4 for \$1.10; 8 for \$2.10.

MAIDEN'S BOWER

(Clematis Paniculata): Maiden's Bower is a perfectly lovely vine. Just the thing you will want. It is a handsome, hardy climber. It grows strongly and rapidly and has dense, small, bright, green foliage and dainty, pure white, fragrant flowers in August and September, followed by silvery seed pods.

35c Each; 4 for \$1.25.

The New Red Clematis

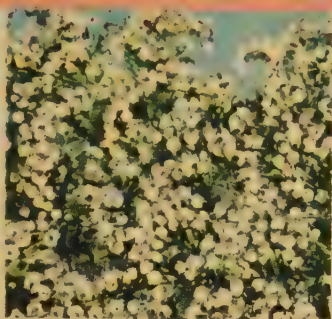

Madam Edouard Andre Now, A RED CLEMATIS! This has been called the Crimson Jackmanni. It is a very good hardy vine like Jackmanni but with simply exquisite bright crimson flowers that bloom very freely and are very luxuriant. The vine is a strong vigorous grower.

75c Each; 3 for \$2.15.

Engelman's Ivy

You will be amazed at how rapidly this grows and how well it clings. A handsome five-leaved ivy, with very thick foliage. Thrives well in sunshine or shade. The foliage is green, and turns to a brilliant red color in the fall. Clings to Brick or Stucco. 35c Each; 5 for \$1.35.

Gurney's Hardy ORNAMENTAL SHRUBS

THE FAMOUS SPIREA FAMILY—GOOD FOR ANY PURPOSE. ALL HARDY

BRIDAL WREATH

Spirea Van Houttei—Geo. Gurney says: "The Bridal Wreath is the best shrub that grows." Its pure white flowers are borne on long graceful branches entirely covering the bush with a bank of snow in late May. One of the hardiest, grows anywhere. Ht. 4-6 ft.

Size	Each	Per 3	Per 10
18-24 in.	29c	\$0.75	\$1.98
2-3 ft.	35c	.98	2.98
3-4 ft.	45c	1.19	3.79

See Page 37 for Hedging Size.

DOUBLE BRIDAL WREATH

(Prunifolia)—This is the Spirea just like Van Houttei (Bridal Wreath), BUT ITS BLOOMS ARE DOUBLE. A favorite of many people also, because it blooms so profusely.

Size	Each	Per 3	Per 5
18-24 in.	35c	\$0.98	\$1.50
2-3 ft.	40c	1.15	1.75

SPIREA ARGUTA

Blooms for Decoration Day

Snow Garland Spirea: The earliest blooming Spirea, growing 5 feet tall. Slender and graceful form with delicate leaves. Pure white flowers are produced in great profusion. Foliage fernlike.

Size	Each	Per 3	Per 5
18-24 in.	29c	75c	\$1.10
2-3 ft.	35c	98c	1.50

FLOWERING BILLARDI

The Lilac Flowering Spirea

Erect shrub with bright pink feathery plumes 5 to 8 inches long in mid-summer. Hardy. Blooms like lilacs. Grows 3-5 ft.

Size	Each	Per 3	Per 5
12-24 in.	25c	\$0.65	\$1.00
2-3 ft.	35c	.98	1.50
3-4 ft.	40c	1.15	1.75

DWARF SPIREAS

Dwarf growers for low foundation planting. Grow 2 to 3 ft. high.

Red Anthony Waterer—Large flat topped clusters, 2 to 3 ft. 12-18 inch—29c ea.; 5 for \$1.10.

White Col. Alba—Vigorous. 12-18 in. 35c Per 3 98c Per 5 \$1.50

Size	Each	Per 3	Per 5
12-18 in.	25c	\$0.65	\$1.00
18-24 in.	30c	.80	1.25
2-3 ft.	40c	1.15	1.75

Chinese Beauty Bush

(Kolkwitzia Amabilis)—A Chinese shrub covered in June with a mass of arching sprays of pink, tubular flowers. One of the most graceful of shrubs and in the spring when in bloom, its branches sweep clear to the ground in a mass of bloom that is breathtaking in its beauty. Hardy in Zone 2 and southward.

18-24 in., 69c each, 3 for \$1.89.

Red Flowering Quince

Blooms Before Leaves Appear (Fire Bush)

Bright red flowers borne in profusion on sturdy, black-barked branches. A flame of color that is strikingly beautiful in the shrub border or for specimen planting. The fruit is used in conserves. Grows 3 to 5 ft. One of the first shrubs to bloom in the spring.

Size	Each	Per 5
12-18 in.	35c	\$1.50
18-24 in.	45c	2.10

Tamarix Hispida

The Long Blooming Variety

A very hardy Tamarix. Grows 10 to 12 feet tall if not pruned, but it can be kept any height. Grows in sun or shade and in wet or dry locations. Foliage is very fine, feathery, and dense, and is of a silvery-blue color. Bright coral-pink flowers.

Size	Each	Per 5	Per 10
18-24 in.	25c	\$1.00	\$2.00
2-3 ft.	30c	1.35	2.50

Fernleaf Sumac

A rapid, robust grower, produces cones of bright red fruit. Leaves beautifully formed rivaling the most delicate fern. Can be cut to the ground each season and a mass of beautiful foliage will result. In the fall, the leaves turn to the most beautiful pinkish-red. Every planting should have some sumac.

18-24 in., 39c ea.; 5 for \$1.80; 10 for \$3.40.

Rose Tree of China

(Prunus Triloba)

The Rose Tree of China when in full bloom is breath-taking. It is covered with Bright Pink Double Flowers which somewhat resemble a rose. The tree blooms in May of the first year after planting. Grows 6-8 ft.

Size	Each	Per 3
2-3 ft.	49c	\$1.29
3-4 ft.	59c	1.69

WEIGELA-ROSEA

The big, round, dense, dark green shrub with hundreds of pink blooms in June. Foliage rich and heavy. Grows 4 to 6 ft. This is one of the most beautiful shrubs that grow, but we do not recommend it for our customers north of the Minnesota line. Needs winter cover. But where it can be

grown successfully, south of Minnesota it is one of the shrubs that draws envious comments from friends both when in bloom in June and all summer long as its foliage is so dark green and heavy.

Size	Each	Per 3	Per 5
12-18 in.	29c	\$0.79	\$1.20
18-24 in.	39c	1.10	1.70

DOUBLE MOCK ORANGE

(Viburnum)—A magnificent new variety. The double flowers are the largest, handsomest, and most sweetly fragrant of any known variety. 5-7 ft. tall.

Size	Each	Per 5	Per 10
18-24 in.	45c	\$2.10	\$4.00

Sweet Mock Orange

(Coronaria)—The flowers are pure white, very fragrant. Extra hardy. Grows about 8 to 10 ft.

Size	Each	Per 3	Per 5
18-24 in.	29c	75c	\$1.10

GOLDEN ELDER

Rich Gold-Leaved Shrub

The shrub with foliage bright golden yellow all summer long. Grand as contrast with green leaved plants. Grows very fast. Has white flowers and elderberries which birds enjoy. Grows 4-6 ft.

Size	Each	Per 5
2-3 ft.	35c	\$1.55

EVERYONE LOVES LILACS

STANDARD LILACS

PURPLE: Your Mother loved them as all mothers have for centuries. They grow anywhere.

WHITE: Just as lovely as the Purple and of the Purest White.

Size	Each	Per 5	Per 10
1-2 ft.	25c	\$1.10	\$2.00
2-3 ft.	35c	1.60	3.00
3-4 ft.	45c	2.10	4.00

LATE BLOOMING LILAC

Stretches "Lilac Time"

CHINESE PINK LILAC (Villosa): A late lilac of compact growth. Blooms in LATE June. Loose panicles of light pinkish-lavender. Very Prolific. BLOOMS 2ND YEAR AFTER PLANTING.

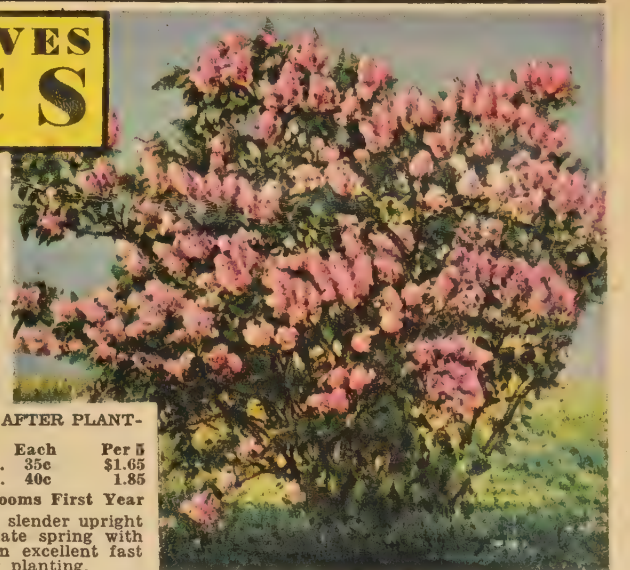

Size	Each	Per 5
18-24 in.	25c	\$1.65
2-3 ft.	40c	1.85

QUICK BLOOMING LILAC

Blooms First Year

PERSIAN PURPLE: 8 to 10 feet high, with slender upright branches, foliage rich green; blossoms in late spring with pale lilac colored flowers, very fragrant. An excellent fast growing variety, flowers the first year after planting.

Size	Each	Per 3	Per 5
18-24 in.	35c	\$0.98	\$1.50
2-3 ft.	40c	1.10	1.75

NOW ALL COLORS IN LILACS The New FRENCH HYBRIDS

Grafted French Lilacs (Blossom in 2 years)—These have greater beauty, more fragrance, more attractive heavy foliage and are quick bloomers. They bloom the first year after planting. It is only in French Lilacs that you can get all the colors of lilacs, blues, whites, all shades of reds and wines. See list at left.

4 Colors to Choose From

CHARLES X: Free - Flowering, single, fine clusters of reddish-lilac flowers.

MME. LEMOINE: Large pure white double flowers and a very dependable bloomer.

PRESIDENT GREVY: Double, light blue, immense panicles, and is one of the most desirable.

SOUVENIR LUDWIG SPAETH: Flowers dark purplish-red, and extra large. One of the prettiest lilacs.

ALL FOUR

How to Plant Shrubs: There's nothing to planting shrubs. General planting directions are included with every order. Set low growers about 2 ft. apart, medium growers 3 ft., and tall growers about 4 ft. apart. Spread roots out well, tamp earth back **SOLIDLY**, and prune back to within several inches of the ground to make a bushy growth.

PINK ALMOND (Double Flowering)

Every Branch Lined With Flowers
In early spring, before other shrubs are in bud, the Flowering Almond is a bride's bouquet of double, pink, rose-like flowers. . . Every branch is covered. It is hardy and "breath-takingly" beautiful. Loads of flowers one year after planting. It grows to five feet. Use it in beds or in the shrub border.

Size	Each	Per 3	Per 5
18-24 in.	49c	\$1.29	\$2.00
2-3 ft.	59c	1.69	2.70

BUTTERFLY BUSH Hartwegi

Blooms All Summer
(New Summer Lilac)—The lovely shrub with flower spikes 12 to 15 inches long, of beautiful true lilac color and fragrant. Blooms continuously all summer and fall. A really wonderful sight among shrubs and in the flower garden. Grows 3-5 ft. tall.
18 in. Field Grown Plants, 35c each; 3 for 98c; 5 for \$1.50.

DOGWOOD (Red) Crimson Twigg Shrub

A sturdy, beautiful shrub with heavy foliage and bright red bark. In the winter the red bark shines in the snow and adds a touch of brightness to the dark season. Plant a mass of fire. Covered with White blossoms in summer. Grows to 4-6 ft.

Size	Each	Per 5	Per 10
18-24 in.	30c	\$1.35	\$2.40
2-4 ft.	35c	1.60	2.90

FORSYTHIA (Golden Bell)

Earliest Shrub to Bloom
Golden flowers often against the last snow of spring. Few, if any, of the spring-flowering hardy shrubs can surpass this slender and brilliant flowering shrub. It is upright in growth; foliage rich, dark green turning to bronze in fall. Grows 4-6 ft. tall.

Size	Each	Per 3	Per 5	Per 10
18-24 in.	29c	\$0.80	\$1.15	\$2.00
2-3 ft.	35c	1.00	1.50	2.70

HYDRANGEA A. G.

Early Summer Snowball
Snowball Hydrangea: This magnificent perfectly hardy shrub has snow-white blossoms. One of its most valuable characteristics is its coming into bloom just after the passing of all early spring-blooming shrubs. Does better planted in partially shady places—such as the north and east sides of buildings. Grows 3 to 5 ft. tall.

Size	Each	Per 5	Per 10
12-18 in.	35c	\$1.65	\$3.00
18-24 in.	45c	2.15	3.75

HYDRANGEA P. G.

Late Summer—Massive Flowers
Hardy Shrub producing panicles of white flowers, as large as 10 inches across, changing to shades of pink in the fall. . . Blossoms hold on well into the winter. Excellent for foundation or shaded plantings. Grows 3 to 5 ft. tall.

Size	Each	Per 5	Per 10
12-18 in.	29c	\$1.35	\$2.40
18-24 in.	39c	1.85	3.40

BARBERRY

GREEN BARBERRY: The dwarf shrub that never needs trimming. Dense, heavy dark green foliage that turns copper red in the fall. Has scarlet berries all winter. 2 to 4 ft. Seedlings Per 5 Per 10 Per 50 Per 100
8-12 in. 40c \$0.75 \$2.50 \$4.50
Transplants Each Per 5 Per 10 Per 50
12-18 in. 20c \$0.90 \$1.70 \$7.00
18-24 in. 25c 1.00 1.85 8.00

RED BARBERRY: Like above, but red all summer and red leaves in winter. Ideal for contrast with green-leaved shrubs. 12 to 18 in., 35c each; 5 for \$1.65; 10 for \$3.00.

HONEYSUCKLE

Upright Tartarian: Its glossy leathery foliage comes very early in the spring. Its grayish-white wood is beautiful at all seasons of the year. Stands heavy trimming and drouth. Its fragrance fills the air when in bloom, and the bright colored berries make it beautiful well into the fall. A Fine Hedge Plant. Grows 8 to 10 ft. Can be trimmed any height. Choice RED OR PINK.

Size	Each	Per 5	Per 50	Per 100
18-24 in. 25c	\$1.10	\$9.50	\$15.00	
2-4 ft. . . 35c	1.60	13.50	22.50	

SNOWBERRY

For Winter Beauty
A lovely shrub with dainty, rose-colored flowers, followed by large, clustered, milk-white fruits which remain far into winter. Does well in shade. Grows 3 to 4 ft. tall.

RED CORALBERRY

Similar to White Snowberry but has RED berries after blooming (white blossoms). Very hardy. Likes hot dry spots. 3 to 4 ft.

SNOWBALL

The Giant Snowball Shrub

This is the favorite shrub of most people. It is a lovely sight, too, when loaded with bloom. Very hardy, attains a height of 6 to 10 feet. . . Is filled with white balls of bloom in the last part of May. Plant plenty of these.

Size	Each	Per 5	Per 10
12-18 in.	89c	\$1.80	\$3.40
18-24 in.	49c	2.30	4.30

BUSH BITTERSWEET

Wahoo or Strawberry Bush: Shrub or small tree to 15 feet. Purple flowers in June. Leaves have splendid fall coloring. A fiery rich red. Has clusters of red berries in fall like vine bittersweet. An unusual shrub that will make you the talk of the town.

12-24 in. 29c Each, 5 for \$1.30.

HEDGES

How to Plant

Hedges are the cheapest kind of fence you can have, and they are so much more attractive they add much to the value of your property. You don't have to repair this kind of fence and they're ideal for making your lawn private. They're easy to plant, too. About 1 ft. apart is the usual distance except with barberry usually set 18 in. apart and honeysuckle and Spirea Van Houttei usually set 2½ to 3 ft. apart. Some like to stagger the planting in zig-zag lines to make hedge tighter but straight line is just as good. Cut back to within a few inches of the ground to make the hedge bush from the ground.

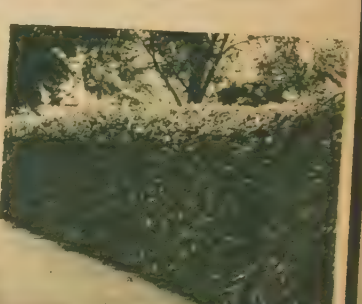

CHINESE ELM

The Quick Grower

If you want a hedge in a hurry, plant Chinese Elm. Can be trimmed to any height you wish from 1 ft. to 10 ft. Makes one of the tightest hedges possible. Very hardy and drought-resistant. Leaves out early and holds leaves late. Set 12 in. apart.

Size	Per 25	Per 100
1½-2 ft.	\$0.70	\$1.98
2-3 ft.	1.25	3.69

BUCKTHORN

The Hedge Plant for the North

Thick glossy foliage with strong branches and is hard to break through. Perfectly hardy and excellent as a snow-catcher. Makes fine ornamental hedges and can be trimmed to any desired shape. Plant 9 inches apart.
2-Year Seedlings
6-12 in. Per 50 Per 100

4-6 ft. 25c 2.25 11.00 20.00

TARTARIAN HONEYSUCKLE

For Tall Screening Hedge

This is one of the most popular hedges because it grows fast, grows tall for screening purposes, has beautiful foliage, and in the spring is covered with beautiful pink flowers followed by shiny red berries. Set 3 ft. apart.

Size	Per 25	Per 50	Per 100
12-24 in.	\$1.90	\$3.50	\$6.15

COTONEASTER

Autifolia: A high quality hedge and a beauty. Dense growing. By pruning may be kept down to 18 inches or will make a hedge 4 feet high. The dark glossy leaves appear very early in the spring. Flowers are white and in clusters. Produces very conspicuous black fruit. This shrub thrives in almost any soil. The leaves, in fall, turn to striking red and yellow. Attractive to birds. Per 5 Per 50 Per 100
8-12 in. 55c \$4.50 \$8.00
12-24 in. 75c 6.00 11.00
Transplants Each Per 5 Per 10 Per 50
18-24 in. 35c \$1.65 \$3.00 \$12.50
2-3 ft. 40c 1.80 3.40 16.00

PRIVET HEDGE

(Amur River North)—Foliage glossy green, holds its color well into late fall. Will stand shearing to any extent. This is a strictly first-class ornamental hedge plant for southeastern S. Dak. and like climates. Plant 10 inches apart.

Size	Per 25	Per 50	Per 100
12-18 in.	\$2.69	\$4.49	\$7.98

CARAGANA

The Drought Lover

(Siberian Pea Tree)—One of the hardest of all hedges—drought, hot winds or grasshoppers can't stop this plant. Pea-green color, locust like leaves. Very compact grower gives you a tight hedge. Can be trimmed to any height from 1 ft. to 10 or higher.

Size	Per 50	Per 100
1-1½ ft.	\$1.00	\$1.69
2-3 ft.	1.60	2.59

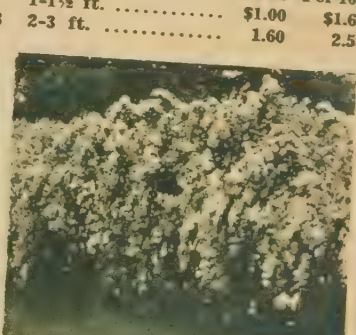

RUSSIAN MULBERRY

For Clipped Hedge

This makes an ideal clipped hedge—a little darker than Privet. Grows rapidly. Can be trimmed to any height desired. Not quite as nice in habit as Privet or Chinese Elm for hedge, but still good and best—very economical.

PRICE: 1-1½ ft., 50 for \$2.49; 100 for \$4.25. 1½-2 ft., 50 for \$2.98; 100 for \$5.85.

SPIREA VAN HOUTTEI

(Bridal Wreath)

Beautiful As Untrimmed Hedge
This is an outstanding hedge plant. Extremely hardy, it will grow and live where other plants don't do well. Loaded with bloom in the spring—it makes a sight that's unforgettable. Good foliage all summer. Grows about 5 ft. high untrimmed, but may be trimmed if desired. Set 2½ ft. apart.

Size	Per 25	Per 50	Per 100
1-1½ ft.	\$2.65	\$4.80	\$8.75
1½-2 ft.	3.90	7.00	12.95

GURNEY'S Easy to Grow ANNUAL FLOWER SEED

All the
New
Ones
—Most
of the
Old

Giant Dahlia Flowered Zinnias The Weather-Proof Flower

These giants grow as large as dahlias. Big, full double flowers in a wide array of colors. Grow and bloom anywhere. Thrive in hot dry spots.

1257—CRIMSON MONARCH: A deep rich crimson.

Pkt., 9c; ¼ oz., 17c. Postpaid.

1258—Royal Purple—Deep, beautiful new shade.

Pkt., 9c; ¼ oz., 17c. Postpaid.

1254—GOLDEN YELLOW—Clear golden yellow.

Pkt., 9c; ¼ oz., 17c. Postpaid.

1259—Old Rose—Charming Shade of Clear Pink.

Pkt., 9c; ¼ oz., 17c. Postpaid.

1263—DAHLIA FLOWERED MIXED: All of the above colors and many more.

Pkt., 7c; ¼ oz., 17c; ½ oz., 25c. All Postpaid.

California Giants

The Largest Zinnia Grown

Big loose petals. Huge flowers often as large as dinner plates. Bloom all summer. Does well on poor soil.

1260—Narcissus—A golden yellow. Pkt., 9c

1261—Red Coat—Deep Red. Pkt., 9c.

1262—Peach Blossom—Clear Pink. Pkt., 9c.

1405—Giant Mixed: The California Giants are brighter colored than other Zinnias. They come in all colors from pure white to the deepest crimson.

Pkt., 9c; 3 for 25c. Postpaid.

LILLIPUT or BABY ZINNIA

Finest Zinnia for Bouquets

1253—You've never seen such a free blooming plant. Most as many flowers as leaves—and pretty ones, too. Blooms are an inch! A grand assortment of bright, snappy colors.

Pkt., 5c; ¼ oz., 15c; ½ oz., 25c. All Postpaid.

NOVELTY ZINNIAS

1210—LINEARIS ZINNIA: This lovely new single Zinnia is a mass of golden orange blossoms from early summer until frost. It has a lemon yellow stripe the full length of each golden orange petal. It only grows 8 inches tall, and is extra fine for window boxes. It will last 10 days as a cut flower. Pkt., 10c. Postpaid.

1252—Dwarf Mexican (The Most Colorful Zinnia). Small 1 inch flowers by the thousands. Lend themselves to bedding or bouquets. Blooms are brilliant combinations of yellow-orange, mahogany, red and in-between shades. Pkt., 10c. Postpaid.

1265—FANTASY BRILLIANT MIXED: A rich dazzling Zinnia of the Shaggy petaled type. In our trial gardens this year, Fantasy attracted more attention and more Oh's and Ah's than any other flower. Brilliant mixed colors.

Fantasy Zinnias with their narrow interwoven petals are a great addition to the Zinnia family. Pkt., 15c; 2 for 25c.

1264—PINCUSHION ZINNIA—Also known as Scabiosa Flowered. Flowers look a lot like Scabiosas. Very full, well rounded on good stems. A mixture of color. Easy to grow. Pkt., 15c. Postpaid.

Dwarf Mexican

Pincushion Zinnia

Portulaca—ROSE MOSS

Likes Hot Dry Location

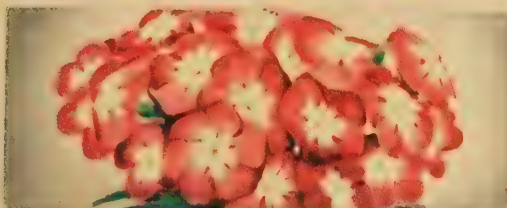

No other flower makes such a dazzling display of color and beauty as a bed of many hued Portulaca. Height, 4 inches. The hotter, dryer and poorer the place—the better Rose Moss blooms. Fine for borders.

1195—DOUBLE FINEST MIXED: A select strain of fully double flowers in every color imaginable. Pkt., 12c; ¼ oz., 35c. Postpaid.

1196—SINGLE MIXED: Our best rainbow mixture. Pkt., 10c; ¼ oz., 25. Postpaid.

ANNUAL PHLOX

For Brilliant Colors

Plant Annual Phlox for a dazzling, unfailing display of color. They bloom early and last until severe freezing. Height, 6 to 12 inches.

1194—DRUMMONDI GRANDIFLORA MIXED: This fine new strain has largest flowers and most vivid colors imaginable. You'll like the dazzling reds, as much as the brilliant pinks. The bi-colored ones and the fringed ones. For beds, borders or cut flowers. Pkt., 12c. Postpaid.

GIANT PETUNIAS

PETUNIAS California Giants

1190—The fluffy Ruffled Giants. Big ruffled single and semi double flowers. All shades and color combinations. Most flowers as large as saucers you'll be specially proud of the big bi-colored or two-toned ones.

Pkt., 20c; 2 for 35c. Postpaid.

DWARF GLOBE MIXED

1175—If you want lots of color and endless numbers of blooms plant plenty of this Petunia mixture. Can't begin to picture it. Wonderful pinks and white—dazzling velvety reds—plenty of blues too. These form a perfect ball a foot in diameter, and are completely covered with bright colored blossoms.

Pkt., 10c; 2 for 17c. Postpaid.

Balcony Petunias

These are larger and the flowers are brighter colored than any other. Trailing growing habit makes them ideal for ground covering, rockeries or hanging baskets. Fine for cutting, too.

1187—Balcony Crimson: A rich crimson that pleases everyone. Pkt., 15c; 2 for 25c.

1186—Balcony Blue: Giant blossoms of a rich deep velvety blue. Pkt., 15c; 2 for 25c.

1189—Balcony Queen Mixed: A choice mixture of these magnificent bright colored giant Petunias. Pkt., 10c; 2 for 17c. Postpaid.

Special **1** Packet Each { Balcony Queen
Balcony Blue
Balcony Crimson

29c

DWARF PETUNIAS

A race of dwarf, erect growing Petunias with smaller, brighter colored flowers. Grow in a small, compact ball only, about 1 FOOT in height and literally covered with beautiful petunias. We list, what we believe is the best variety of all—Celestial Rose.

1174—Celestial Rose: Some times called Rose of Heaven. Better than Rosy Morn. The brilliant RICH, SATINY ROSE FLOWERS completely cover the dwarf compact plants. Blooms freely. Wonderful border plant. Pictured below.

Pkt., 15c; 2 for 25c. Postpaid.

our Petunias
and a lot of
trial ground
sorts too—all
shapes, sizes,
colors.
No. 1173—Pkt.,
11c. Postpaid.

ALYSSUM

Popular for Border or Edging

1001—Carpet of Snow: This compact dwarf Alyssum only grows 3 or 4 inches tall, and literally smothered all summer in a mass of snow white flowers. For borders or edgings it beats all others.

Pkt., 8c; ¼ oz., 18c. Postpaid.

AGERATUM

Dwarf Grower for Borders

1004—Little Blue Star: This fine new Ageratum grows only 6 inches tall and is covered with rich azure blue flowers. Very good for borders or window boxes. One of the most popular and most satisfactory, easy-to-grow flowers of our entire list.

Pkt., 9c. Postpaid.

BALSAM or LADY SLIPPER

Bush Balsams Are Different

1036—The New Double-Bush Balsam: This new bush Balsam is entirely different. The large double flowers are not hid under the leaves like common Balsam. They cover the dwarf, bushy plant. Plant likes rich soil and a sunny location. Flowers are full double and of all colors.

Pkt., 15c. Postpaid.

1037—Camellia Flowered Mixed: The Old Fashioned kind. A large flowered Balsam, easy to raise, and produces solid spikes of double bright colored flowers. An old favorite from grandmother's garden. This strain has many variegated blooms.

Pkt., 7c; ¼ oz., 15c. Postpaid.

BACHELOR BUTTON

The Hardest Annual

1070—Corn Flower—Jubilee Gem: The vivid Cornflower blue blossoms completely cover the sturdy plants, and make a mass of blue in your garden from early summer until frost. Height, 1 foot.

Pkt., 9c; ¼ oz., 25c. Postpaid.

SWEET SULTAN

1240—The bushes are about four feet high and covered with beautiful, fluffy double flowers. Extra fine for cutting and delightfully fragrant. Will keep for over a week in water if cut when about to open.

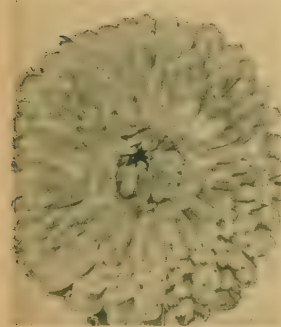

NOT AVAILABLE.

LOBELIA

For a Blue Border
1051—Crystal Palace: One of the finest bedding plants. Our strain grows only 4 inches high, making a compact plant, covered all summer with deep blue flowers. A favorite for edging. Stands sun but prefers shade.

NOT AVAILABLE.

CALENDULA

For Brilliant Blooms

1046—Chrysanthemum Flowered Mixed: The flowers resemble a large Chrysanthemum, and are on extra long stems, making them ideal for cutting. Height, 18 in. Long curving outside petals. Incurved center petals. Pkt., 8c; ½ oz., 20c. P.P.

1048—Orange King: Very double, dark orange with darker center. Perfect form—double clear to the center. Flowers often measure 4 inches across. Pkt., 8c; ½ oz., 18c. P.P.

COSMOS—Tall, Stately, Graceful

1077—Early Klondyke Orange Flare: An All American Winner—vivid orange flowers. They bloom early, and if kept picked continue until frost. For cut flowers or for show and color in the yard, plant Orange Flare, 3 feet. Pkt., 6c; ¼ oz., 18c. Postpaid.

1083—Early Flowering Single Mixed: This new race of early Cosmos grows about 3 feet tall and produces immense flowers 3 or 4 inches across 50 days from the planting of the seed. Long flower stems. Good cut flower. Colors are Red, Rose, Pink and White, mixed. Pkt., 6c; ½ oz., 18c. Postpaid.

1078—Early Flowering Double Mixed: Double Cosmos of the early type are more popular every year. The attractive flowers with an outer row of petals and a large crested center are very beautiful. The stems are long and the flowers last for days when cut. Pkt., 10c; 2 for 18c. Postpaid.

CASTOR BEAN

Tropical Giants

1346—Zanzibarensis: I want everyone to enjoy some of the tropical beauty of these Giant Zanzibarensis Castor Beans. These Giant plants often grow nearly 20 feet tall and the leaves are sometimes 2 feet across. For quick shade or windbreak, you can't beat these Giant Castor Beans. Some claim you'll not be bothered by mosquitoes if you plant castor beans around the yard.

Pkt., 8c; oz., 17c. Postpaid.

CLARKIA

Likes It Hot and Dry

1074—Double Finest Mixed: One of the best low-growing Annuals. The pretty little double flowers completely cover the long slender stems. A good cut flower. Height, 18 inches. Will grow on poor, thin soil. One of the sure-fire, easy-to-grow annual flowers.

Pkt., 8c; ¼ oz., 20c. Postpaid.

CALLIOPSIS

Always Sure to Bloom

1056—Dwarf—Finest Mixed: A very showy border plant, producing flowers in nearly every shade of yellow, orange, crimson red and brown. Plants have many branches and bear an abundance of flowers. Height, 8 inches.

Pkt., 8c; ½ oz., 20c. Postpaid.

COCKSCOMB

The Giant Kind

1084—Giant Mixed—The largest and most beautiful of the Cockscomb. The immense heads are frilled and corrugated like a Cockscomb. Can be dried for Winter bouquets. They are sometimes over a foot long and borne on strong plants.

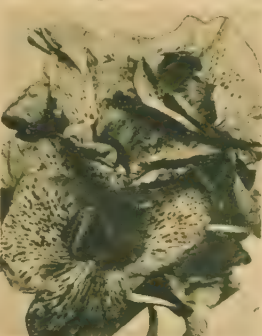

Pkt., 10c; 2 for 18c. Postpaid.

Chinese WOOLFLOWER

1072—Height, 3 feet. The giant flower heads are from 4 to 6 inches in diameter, very light and fluffy, resembling a ball of brightly colored wool. They come in all shades of pink and red. A few plants will furnish cut flowers all summer.

Pkt., 8c; ¼ oz., 20c. P.P.

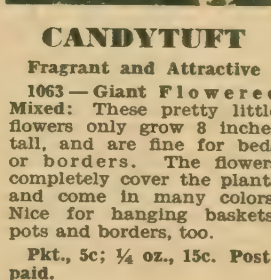

CANNAS from SEED

You Can Grow Cannas From Seed!

1067—Extra Choice Mixed: Grow Cannas from seed. Produce new varieties. Height, 2 to 10 feet. They come in all shades of red and orange. Many bloom the first season. Seedlings are interesting and different.

NOT AVAILABLE.

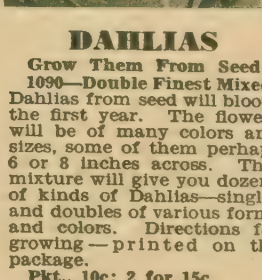

CANDYTUFT

Fragrant and Attractive

1063—Giant Flowered Mixed: These pretty little flowers only grow 8 inches tall, and are fine for beds or borders. The flowers completely cover the plants and come in many colors. Nice for hanging baskets, pots and borders, too.

Pkt., 5c; ¼ oz., 15c. Postpaid.

DAHLIAS

Grow Them From Seed

1090—Double Finest Mixed: Dahlias from seed will bloom the first year. The flowers will be of many colors and sizes, some of them perhaps 6 or 8 inches across. This mixture will give you dozens of kinds of Dahlias—singles and doubles of various forms and colors. Directions for growing—printed on the package.

Pkt., 10c; 2 for 15c.

STRAW FLOWER

For Winter Bouquets

1112—Helichrysum Mixed: Everyone likes winter bouquets which add a touch of color to the home. These beautiful straw flowers come in many beautiful colors, and if picked when buds are opening, will retain their beauty for years. Height, 3 feet. Large double flowers. All colors including yellow, orange, pink and red.

Pkt., 7c; ¼ oz., 18c. Postpaid.

BABY'S BREATH

Blooms—First Season

1107—(Gypsophila): The flowers are small, star-like and borne on feathery sprays, which are highly esteemed for cut flowers, as they lend a most graceful effect when combined with other flowers in bouquets.

Pkt., 7c. Postpaid.

GOURDS

1104—Large and Small Varieties Mixed: Gourds are grown for ornaments and for use such as Nest Eggs, Dippers, Bowls, Pipes and Bird Houses. They come in all colors. Some produce small egg-shaped fruits, others grow to be ten feet long. They can be forced into strange shapes by tying them. Over 25 varieties in this mixture.

Pkt., 9c; oz., 17c. Postpaid.

PINKS

An Old Favorite

1204—(Dianthus)—Double Mixed: This old-fashioned flower is always satisfactory. It comes in many colors and forms. Many of the flowers are beautifully fringed. They bloom the first season and last until frost.

Pkt., 7c. Postpaid.

FOUR O'CLOCK

For a Flower Hedge

1093—Giant Mixed: Anyone can raise Four O'Clocks, and everyone likes them. They grow about 2 feet tall and make good hedges, and are covered with a mass of flowers in the afternoons and evenings. Hundreds of funnel shaped flowers—red, yellow, pink and white.

Pkt., 10c. Postpaid.

FORGET-ME-NOT

1075—Victoria Blue: This charming little blue flower succeeds best in damp, shady situations, but will thrive in almost any soil. Victoria Blue is the largest flowering of any.

NOT AVAILABLE.
1076—CHINESE FORGET-ME-NOT: A new flower from China, of the easiest culture, forming strong plants 2 feet high, and producing sprays of sweet scented blue flowers.

Pkt., 7c. Postpaid.

GERANIUM

Geraniums From Seed!

1094—Double and Single Mixed: Did you know you could grow Geraniums from seed? You can, and you may produce new and valuable varieties. This fine seed will produce both double and single flowers in many colors. It is surprising the number of good plants you will get from 1 packet of seed.

NOT AVAILABLE.

GURNEY'S Packets Go Farther—Seed Does Better

1124—Giant Imperial Mixed: A new strain with giant double flowers closely packed on long strong stems. Fine for cutting—all colors mixed—3 to 4 feet tall.

Pkt., 10c; 1/4 oz., 25c. Postpaid.

1123—Giant Rosamond: This is the most beautiful rose-pink Larkspur I have ever seen. The long stems are a mass of double flowers from base to tip. Pkt., 10c; 2 for 18c. Postpaid.

SNAPDRAGONS

For Finest Cut Flowers

The new rust-resistant, easy-to-grow "snaps". ALL POSTPAID.

1020—Giant Flowered Rust Proof Mixed: An all American Winner—

These new giant Snapdragons grow about 4 feet high, and are covered with immense spikes of brightly colored flowers. Pkt., 10c; 1/4 oz., 20c.

1022—Stop Light: So bright that the first sight stops everyone in his tracks. The immense spikes of the most intense glowing vivid red. Must be seen to be appreciated. Pkt., 15c.

SALVIA

For Bright Red Masses

1207—Volcano—Scarlet Sage: This sturdy, well branched flower grows about 18 inches tall. From mid-summer until frost it is a glowing mass of flaming scarlet blossoms. A good house plant. It may be potted and will bloom all winter.

Pkt., 15c; 2 for 25c. Postpaid.

SALPIGLOSSIS

Easy to Grow

1208—Giant Emperor Mixed: This has always been one of our favorites, and it is so easy to grow, and comes in such a variety of delicate colors. The blue and gold combinations are especially beautiful. The reds and purples are nice, too. Velvety Petunia-like flowers 2 inches wide. Height, 3 feet.

Pkt., 9c. Postpaid.

Gurney's

HARDY PERENNIAL FLOWER SEED

Start your own perennials. Full planting directions printed on each packet. Every variety in this list is hardy and dependable.

Columbine—Aquilegia—18 inches to 3 feet tall, and are covered with brilliant flowers of every color.

1275—Dobbies Long Spurred Hybrids with spurs 3 inches long.

Pkt., 10c; 3 for 25c. Postpaid.

Coreopsis—Hardy perennial that grows about 2 feet tall, and is covered with large beautiful golden yellow flowers all summer.

1281—Mayfield Giant: Single yellow flowers.

Pkt., 9c; 1/4 oz., 25c. Postpaid.

1280—Coreopsis—Double Sunburst: Two feet tall. Covered with large golden yellow, fully double.

Pkt., 9c. Postpaid.

1278—Canterbury Bell—Single Mixed—The tall, showy plants are covered with beautiful bell shaped flowers of various shapes and colors. Mixed colors, packet 10c; 3 packets 25c. Postpaid.

1286—Chinese Bell Flower—Platycodon: Very hardy and easy to raise. They are covered with bell-shaped blue and white flowers about 2 inches across. Height, 1 to 2 feet.

Pkt., 9c. Postpaid.

1474—Gaillardia—The Bremen: A new Gaillardia. Twice as large as the common kind. The immense coppery-scarlet flowers with narrow golden edges completely cover the plants from early spring until fall.

Pkt., 9c. Postpaid.

GAILLARDIA

Gypsophila or Baby's Breath—These beautiful perennials with their small white flowers and fine stems are used in bouquets. They bloom from early spring until frost.

1475—Single and Double Mixed Perennial: Beautiful single and double white flowers.

Pkt., 12c; 2 for 20c. Postpaid.

Carnation—Carnations are one of the best perennials for cut flowers. Their spicy fragrance is unsurpassed. Take plants up in fall. Cut back. They will bloom indoors.

1481—Chabaud's Choice Double Mixed: Giant flowers of many beautiful colors.

Pkt., 9c. Postpaid.

1483—Golden Marguerite Daisy: The golden yellow flowers are borne on long 2-foot stems from July until frost. The sweet scented flowers are about 2 inches across and will keep perfectly for over a week after being cut.

Pkt., 9c. Postpaid.

1285—Shasta Daisy—Alaska: These giant white Daisies are 3 1/2 inches across, and are borne on stems 18 in. long. A good cut flower. They bloom the first year from seed.

Pkt., 9c; 1/4 oz., 25c. Postpaid.

COLUMBINE

Hollyhock—Hollyhocks grow from 6 to 10 feet tall, and make beautiful background for gardens, or can be planted in front of outbuildings.

1301—Single Mixed. Pkt., 9c; 1/4 oz., 25c. Postpaid.

1300—Double Mixed. Pkt., 9c; 1/4 oz., 25c. Postpaid.

Larkspur—Delphinium—These tall stately flowers come in colors ranging from the lightest lavender to the deepest indigo blue. Height, 4 to 5 feet, with flowers covering the entire plant. The best cut flower.

1288—Gold Medal Hybrids: A mixture of beautiful dark and light shades. Singles and doubles are included in this wonderful blend.

Pkt., 10c; 1/4 oz., 25c. Postpaid.

1485—Linaria—Perennial Yellow Snapdragon: A beautiful golden yellow flower resembling Snapdragons, borne on 3 foot plants. Easy to grow.

Pkt., 9c. Postpaid.

1486—Perennial Phlox: The immense flower heads sometimes 6 inches across come in all colors from pure white to dark red. The most continuous bloomer of the perennials. Height, 2 feet.

Pkt., 10c; 2 for 15c. Postpaid.

1487—Peony Seed: Peonies can be raised from seed, and you may produce new and valuable varieties this way. They come in all colors and all forms from the giant singles to the finest doubles.

Pkt., 10c; 2 for 17c. Postpaid.

1488—Poppies—Oriental Red: The brilliant glowing red flowers on 2 foot stems often grow 8 inches across.

Pkt., 9c. Postpaid.

1490—New Hardy Pinks—Grass Pinks—Dianthus Plumarius: Double, deliciously clove scented flowers in many colors. They are perfectly hardy, and flower from spring until fall.

Pkt., 9c; 1/4 oz., 30c. Postpaid.

1269—Sweet William—Dwarf Double Mixed: These seldom grow over 6 to 8 inches high. Profuse bloomers; excellent for borders or edging.

Pkt., 12c. Postpaid.

1304—Sweet Peas—Perennial: Hardy vines resembling Sweet Peas, but the

DELPHINIUM

flowers are not fragrant. Height, 4 feet. Colors—white and pink.

Pkt., 9c. Postpaid.

1492—Snow in Summer—Cerastium Tomentosum: A spreading plant with silvery white foliage and star shaped blooms. A perfect rock garden plant. Will stand any amount of heat and sun.

Pkt., 9c. Postpaid.

5 LILIES 89¢

You get one each of the lovely lilies below in this collection. These are all large bulbs. Carefully treated against disease. It pays to buy the best. They cost no more.

REGAL LILY

A novelty of rare production and wondrous beauty. Experiments prove this new Lily to be harder than most kinds. The flowers are white, slightly diffused with pink, with a beautiful glow of canary yellow at center. Its perfume is exquisite. In the garden it should bloom early in July. Large bulbs that bloom first season, 29c each; 3 for 79c; 10 for \$2.29.

RED RUSSIAN

Lily
Elegans

This is one of the best of the hardy Lilies—thrives in almost any soil. Is highly recommended for general planting. Each bulb produces many Lilies on a stem—color deep brick red, slightly spotted. We recommend this Lily to all Northern planters. 25c each; 4 for 90c.

DAY LILIES (Hemerocallis)

Flava—The yellow day lily that has everything. With its long narrow leaves and beautiful wax-like yellow blossoms this fragrant day lily is hard to beat. Blooms profusely in June and July.

24c each; 3 for 69c; 10 for \$1.89.

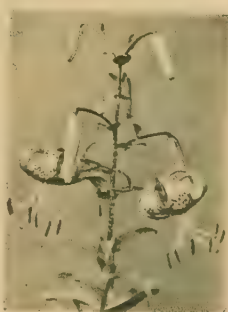

Mixed Day Lilies—Similar to Flava only all shades of rich orange color with deeper shading. These day lilies are beauties.

24c each; 3 for 69c; 10 for \$1.89.

TIGER LILY →

This well-known, old-fashioned flower has become very popular the last several years, and is now planted extensively in all gardens. On account of its extreme hardiness, it is one of the most valuable of all Lilies. Grows three feet tall with several flowers on each stem. Flowers orange with black spots. It will bloom and bloom giving you color and gorgeous flowers no matter how difficult the conditions. One of the most satisfactory lilies.

24c each; 3 for 69c; 10 for \$1.89.

5 LILIES 89¢

You get one each of the lovely lilies above in this collection. These are all large bulbs. Carefully treated against disease. It pays to buy the best. They cost no more.

GURNEY'S Northern-Grown LAWN SEED

IT'S EASY TO MAKE A LAWN THE GURNEY WAY

All of Gurney's lawn seeds and mixtures are of the highest quality. All fresh tested, new crop seed. Heavy seed means weed free seed—and that's what we use. Figure on 1 lb. of lawn seed for every 200 to 300 square ft.; White Dutch Clover 1 lb. to 1000 square ft.; and Buffalo Grass 1 lb. to 5000 square ft. Write for our complete Lawn Leaflet telling how you can have a beautiful, permanent, rich green lawn by using Gurney's Lawn Seed. The leaflet is FREE; ask for it.

SUNSHINE MIXTURE Lawn Seed

More Kentucky Blue Grass, plenty of Red Top and Rye Grass for nurse crops and to give you a quick early lawn. Enriched with Red Fescue and White Dutch Clover to provide permanency and rich greenness to your lawn.

Early spring is a wonderful time to start a lawn. Latter August and September is also a good time. Sow the seed evenly, roll thoroughly and water liberally.

1 lb., 55c; 3 lbs., \$1.49; 5 lbs., \$2.45; 10 lbs., \$4.75. All Postpaid.

Postpaid per lb. **47½¢** in 10 lb. lots

CAPITAL MIXTURE For Lawns

Best lawn mixture for the Northwest. Half Kentucky Blue Grass, balance White Clover, Rye Grass, Red Top and Crested Wheat. The best mixture known for places where rainfall is light and artificial watering impossible.

To be sure of a good stand of this seed, roll the ground firmly after the seed is planted.

1 lb., 45c; 3 lbs., \$1.25; 5 lbs., \$1.95; 10 lbs., \$3.75. All Prepaid.

Postpaid per lb. **37½¢** in 10 lb. lots

NORTHERN KENTUCKY BLUE GRASS Finest Extra Heavy Seed

Heavy seed means weed free seed. Start your new lawn this spring early while you have plenty of moisture. Although Blue Grass is a slow starter, once established it lasts for years. We have true Northern grown, Northern harvested Blue Grass of extreme hardiness. 1 lb. for 200 square ft. rolled in.

NEW BENT GRASS

Everybody likes Bent Grass for Lawns. This is the true creeping variety and is harder and more drouth resistant than any other we know of. Bent Grass does require more care and more moisture than other types of lawn seed, but is well worth the cost and trouble because of its unusual beauty. 1 lb. plants 400 square ft.

1 lb., 98c; 3 lbs., \$2.75; 5 lbs., \$4.45; 10 lbs., \$8.50. All Postpaid.

1 lb. **98¢** Prepaid

WHITE DUTCH CLOVER

This is the 3 and 4 leaved lawn clover. It is hot weather resistant; grows nicely and quickly from seed. It is also an excellent pasture grass; 5 lbs. per acre for pasture. Add 1 lb. to every 5 lbs. Blue Grass if you want to improve the beauty of your lawn, or sow alone in the lawn at the rate of 1 lb. per 1000 square ft. Roll it in.

½ lb., 50c; 1 lb., 89c; 3 lbs., \$2.35; 5 lbs., \$3.75; 10 lbs., \$6.95. All Postpaid.

1 lb. **89¢** Postpaid

Write Us a Letter

We'll enjoy hearing from you and we'll be glad to help with your garden, flower, or field seed questions as well as nursery, or baby chick problems. Our advice is Free. Write us any time.

If you have a snapshot or picture of yourself, and garden, crops, etc., send it with your letter. We like pictures, too.

Gurney's SHADY SPOT LAWN MIXTURE

We all know it is hard to grow good lawn grass under trees and in the shade. Where the lawn is shaded half the time or more, Gurney's Shady Spot Lawn Mixture is the grass to use. Very similar to the famous Sunshine Mixture except it contains ample Fescue for the shady spots. Sow 1 lb. to every 200 square ft. Get it in early and roll thoroughly into the ground.

1 lb., 55c; 3 lbs., \$1.49; 5 lbs., \$2.45; 10 lbs., \$4.75. All Postpaid.

Gurney's GIANT PHLOX

Choice of below: Any 2 for 55c; 3 for 79c; 5 for 98c

Africa: A brilliant carmine-red with blood-red eye, large florets.

Red Beacon: Big heads of brilliant Cherry Red flowers on strong straight stems about three feet high. Blooms from July to Sept.

Rosy Eclair: The huge trusses of Rose or Carmine are made more beautiful by a White Eye in each little florette.

Fuerbrand: Brilliant orange-scarlet, sometimes almost vermilion.

Independence: "White as driven snow," this phlox is a "must have" flower. White phlox in the Moonlight is of breath-taking beauty. Tall, big clusters, many flowers, continuous bloom.

Pink La Vague: Huge conical heads of lovely lavender pink. Strong stems bear huge clusters of pink beauty and fragrance.

Lillian: Lovely pure pink with large florets and head borne in great profusion.

Royal Purple: Rich purple and deep at edges, shading to violet in center of petals, with deep reddish-purple at eye. Decidedly beautiful.

Mrs. Chas. Dorr: Clear lavender with immense heads borne on tall strong stems.

PHLOX BARGAIN

6 PHLOX All new varieties, all different. Reds, Pinks, Lavenders, etc. Not Labeled **\$1.00**

PINK CREEPER

Hardy Mountain Pink

An early spring-flowering Subulata Phlox, with pretty moss-like evergreen foliage, which is hidden under the masses of pink flowers. An excellent plant for the rockery, the border, and invaluable for carpeting the ground for covering graves. Will grow anywhere. Its mass of blooms comes early when bloom is so much appreciated.

2 for 55c; 5 for 98c

NORTHERN-GROWN**

Any 2 for 55c; any 3 for 79c; any 5 for 98c
UNLESS OTHERWISE PRICED

GAILLARDIA

The Blanket Flower

Dazzler: These are the flowers that love drought and hot weather. Bloom all summer—hot or not. This is Dazzler the bright yellow with the large deep maroon center. A fine new variety that is making friends all over the country. If you want lots of flowers year after year, but with little effort, plant Gaillardia.

SHASTA DAISY

Large 4 to 5 in. Blooms

This is one of the easiest flowers to grow and so lovely. This strain is the extra large one—some getting 4 to 5 in. across. You'll always have bloom if you have these lovely daisies. They range from the fully double to the single, and from pure white to pale, lemon-yellow.

PAINTED DAISY

Pyrethrum: These are like the

Shasta daisies at left but are painted pink to red and give color to your daisy patch. Always in bloom. The plant grows 2½ feet tall with fern-like foliage, excellent cut-flower and very showy in the garden. We can furnish these MIXED and RED.

New Dwarf Asters, Sure-Blooming

Grow in a perfect round ball about 12-18 in. tall. Simply loaded with bloom earlier than Mums and from then to frost. Hardy everywhere. Three beautiful colors to choose from: Pink, clear lavender, red or mixed.

ASTER—The Michaelmas Daisy is the Hardy Aster (not the dwarf type): Blooming in fall with enormous quantities of blue and pink daisy-like flowers. Perfectly hardy.

CARNATIONS

Your garden needs the bright colors and spicy fragrance of these hardy Carnations. They come year after year, always adding beauty and fragrance. These are as lovely as greenhouse carnations and easy to grow in your own garden. Very, very fragrant—so spicy and clean. You'll love them. They keep coming year after year. All colors mixed.

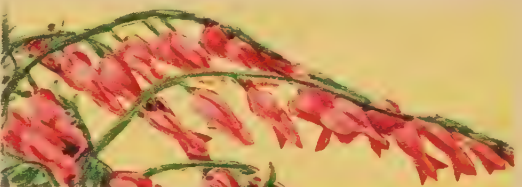

3 DELPHINIUM 79c

1 each of below

Light Blue Belladonna: Literally a "Beautiful Lady." A lovely delicate blue defies description. Tall, sturdy, and many tall spikes of flowers. Blooms June to frost.

Dark Blue Belladonna: As dark blue as the evening sky, tall and strong. Its flowers grace the garden and dominate its color.

Gold Medal Mixed Hybrids: Extra tall, many colors.

BLEEDING HEART

The shade-loving plant with drooping clusters of bright pink heart-shaped flowers. It's the favorite of everyone's garden—blooming as it does the first thing every spring. Lives from year to year. A beauty when planted with other perennials, especially Peonies. 49c each; 2 for 89c.

COREOPSIS

Lanceolata

The Golden daisy-like flowers from early summer till fall. You can have your choice of 2 kinds—the New Gold Double—a bright yellow, Double, Daisy-like flower with long stems and a long blooming period. Very choice, hardy, and drought resistant, or Sunbust Double—24 inches tall, golden-yellow double flowers, 2 in. across.

HARDY FERN

For Tropical Foliage

Ferns are one of our most popular perennials because they do so well on the north or east of a house where other things don't do as well. Beautiful tropical foliage. A shade and moisture loving plant with long, graceful leaves making a beautiful, bushy border. Everyone should have a few of them around their foundation.

COLUMBINE

Here is where you get the soft colors for your garden. These are special selected strains for long spurs and delicate colors. You may choose either: **Dwarf Alpine:** Grows about a foot high, beautiful dark blue flowers or **Long Spurred Mixed:** Many colors including yellow, pink and blue on long dainty stems. Bloom for all of six weeks.

PERENNIAL PRICES

Any 2 for 55c; 3 for 79c; 5 for 98c

(Unless otherwise priced)

Please order at least 2 but you may choose 2 different varieties if you wish.

SWEET WILLIAM

Everblooming

This has been a garden favorite for years and you get your choice of 2 varieties:

Dark Crimson Beauty: It supplies your garden with the color it needs in early summer, faithful and long blooming...

Double Choice Mixed: A riot of color, white, pink, red, and an assortment of these colors in the individual flowers. A beautiful cluster flower.

SILVER KING

(Ghost Plant)

The ghost plant! Looks like it was dusted with silver dust. Grows anywhere. Use it for contrasts, background, hedge etc. where relief from green foliage is needed. Hardy. 2 ft. high. Dry foliage makes wonderful winter bouquets!

DAINTY PINKS

The Fragrant Flower

Here's the flower that made your grandmother's garden such a fragrant delight. Very lovely spice fragrance. Blooms profusely. And, best of all, these pinks are **ABSOLUTELY HARDY** and they'll grow easily anywhere.

GYPSOPHILA

(Baby's Breath)

Dwarf Pink: Pink flowering dwarf for borders or Rock Gardens.

White Baby's Breath: Of course you want it. Every gardener does. You can't get the most out of your garden without the misty sprays of White Baby's Breath.

DOUBLE BABY'S BREATH: Bristol Fairy. This large, double beauty is more costly because every one must be grafted. It's worth the price because it's beautiful and there is nothing quite like it. Great clusters of double white flowers borne on long stems. 49c each; 2 for 89c.

DOUBLE HOLLYHOCKS!

For Your Garden

Here's a grand mixture of color for your garden in the new "dressed-up" hollyhocks—the new **DOUBLE CHARTERS**. Mammoth flowers and all double. Comes in pinks and maroons. We sell as mixed only. Regular perennial price.

BLUEBELLS

These are the lovely hardy *Mertensia* blue bells that come so early in the spring. They will grow on the north side of the house where nothing else will do well and they love it.

PENTSTEMON: Commonly called the Native Blue Bell—Hardy, faithful, and a beauty. It is blue, but still it's cheerful. Its tall stems carrying many bells of lavender-blue is a gardener's delight.

PANSIES

Here's the easiest way to get your pansies started. Plant these strong, healthy plants all ready to bloom. We include some of the new Red ones in each shipment. Giant, ruffled strain gives you immense pansies. All colors imaginable.

1 Doz. \$0.69
3 Doz. 1.69
100 Plants 4.19

PLATYCODON

The Balloon Flower

The buds of this beauty are little balloons, but when they open they are blue four-petaled flowers that you must see to really believe. Blooms from mid-June until September. Everyone loves them. They're medium growing and easy to raise. Be sure and include these in your garden.

LILY OF THE VALLEY

The Lily of the Valley thrives and throws up its beautiful, modest, fragrant white bells in almost any kind of soil. Will also adapt itself to pot culture in winter. Its delicate, permeating fragrance makes it especially desirable. It is especially loved for the wonderful corsages it makes. Plant plenty of them.

5 plants, 30c; 10 plants, 50c.

HARDY SWEET PEAS

New Perennial Sweet Peas!

Lathyrus: These sweet peas are really perennial sweet peas and keep coming year after year! They grow rapidly and bloom continuously all summer. Splendid for covering arbors or trellises. Many people put them on the garden fence where they bloom year after year. You may have them in the Pink Beauty, the Red, or Mixed. Your Choice of color.

YUCCA

Adam's Needle

A hardy Evergreen plant with long leaves; a tall stalk producing as high as 200 flowers of pure white. Blooms about June and July. The leaves remain green the entire year. Very hardy, excellent for sunny, hot, dry places along foundations. Grows almost anywhere. Also called **Candles of The Lord!**

HARDY VERBENAS

One of the easiest grown and most satisfactory perennials we know. It's a favorite everywhere. Rose magenta in color, it blooms profusely in May. Verbenas are easy to grow and they're hardy, too. Even if you're a gardening amateur, you can have plenty of bloom with Verbenas.

\$1.39
 1—Red Radiance
 1—Pink Radiance
 1—White K. A. Victoria

GRUSS AN TEPLITZ

Produces hundreds of fiery-red, fragrant flowers. Hardest grown.

JOANNA HILL

The long, handsome buds open into a very double bloom of yellow flushed orange.

DAME EDITH HELEN

Produces huge shapely blooms of clear dazzling pink, sweetly fragrant.

E. G. HILL

The disease-free red rose. Color grows deeper as petals open. Very hardy. Fragrant.

PRES. HOOVER

Has the longest bud of all. Gorgeous 2-tone rose. Perfect for cutting.

ALL COLOR ROSE OFFER

1 of each of the beautiful colors of roses—red, pink, white and two-toned in a bargain offer.

All 4 \$1.39

CLIMBING ROSES

Prices: 49c each; 3 for \$1.39; 6 for \$2.59; 10 for \$3.98.
 The hardiest and freest blooming climbers for your trellis or fence. Set 6 ft. apart. Will grow anywhere.
PAUL'S SCARLET: The big flowers, a vivid scarlet, semi-double, are very freely produced in clusters of from 3 to 20 flowers each on heavy branched canes. The plants are literally covered from top to bottom with bloom.
PINK DOROTHY PERKINS: Clear shell pink with flowers borne in clusters; full and double. This is without question one of the very finest of all climbing roses. Extra hardy.
CRIMSON RAMBLER: The famous crimson-cluster climber, so extremely effective when grown on pillars and trellises, makes shoots 8 to 10 feet long in a season. Flowers are produced, from ground to tip, in large pyramidal clusters of thirty to forty.

BABY ROSES

Dwarf Polyanthus

These are the extremely hardy, dwarf roses that are absolutely covered with bloom all summer. Very compact growing. Same price as hybrid teas.
GOLDEN SALMON: Bright orange-salmon flowers in huge clusters. Growth vigorous and bushy. First really orange Polyantha.
IDEAL: Dark velvety crimson blooms. Compact and bushy with glossy leathery leaves and shapely trusses. Blooms profusely.
GRUSS AN AACHEN: Flowers almost like hybrid tea roses. Deep creamy pink. Always in bloom.
CATHERINE ZIEMET: Pure snow-white double blooms in profuse clusters, making a sheet of white color. A compact, bushy grower of dwarf habit; everblooming, fragrant, and hardy.

SHRUB ROSES

These are roses that grow like shrubs. Free bloomers. Ideal in shrub borders.
 Price: 54c each; 3 for \$1.55; 6 for \$2.98; 10 for \$4.79.

F. J. GROOTENDORST: This hybrid has the beauty and freedom of bloom of the Baby Ramblers, plus the rugged foliage and hardiness of the Rugosa. The grandest of the red flowered blooms continuously all summer. Splendid for low hedges or edgings. Hardy.

HANSA RUGOSA: Early flowering combining the ornamental qualities of Rugosa foliage with the blossoms, beauty, and perfume of the Hybrid Perpetuals. Flowers large, cup-shaped, double crimson. Blooms throughout season, followed by red fruits.

HARRISON'S YELLOW: One of the finest pure deep yellow double flowering hardy Roses ever grown. Each branch a garden of Roses. Perfectly Hardy.

HYBRID PERPETUALS

FRAU KARL DRUSCHKI: Pinkish buds and magnificent, snow-white blooms with deep, firm petals. Best white rose in any class. Very strong and blooms freely throughout the summer and fall.

GENERAL JACK: Deep glowing red. Always loaded with flowers.

PINK NEYRON: Bright ruddy pink blooms of immense size, very double, remarkably fragrant; vigorous; leathery foliage. Blooms from June to November. One of the finest hardy roses.

The Super-hardy roses. Grow anywhere. Big double blooms. Very hardy. Same price as hybrid teas.

AMERICAN BEAUTY: Generally conceded to be the most beautiful rose in size, form, and color. Rich red, changing to crimson, delicately veined and shaded, and surpassingly fragrant.

NEW! BROWNELL ROSES

A NEW RACE OF HYBRID TEA ROSES

SO HARDY—We Guarantee Them To Live 1 Full Year—Despite Your Climate
 These are the new BROWNELL ROSES you'll hear lots about—they're the new SUPER-HARDY hybrid teas that absolutely won't kill out even temperatures that dip to 25 degrees below zero (tops not covered were not injured). Think of that. Because they are so hardy, we GUARANTEE THEM UNCONDITIONALLY TO LIVE THROUGH ONE YEAR AND NOT TO WINTERKILL!
 Best of all they are free blooming, long-stemmed, with flowers that last a long time. Give more bloom than ordinary hybrid teas.

Choice of Many Colors

Prices: \$1.50 each; 3 for \$3.75; \$14 per dozen.
ANNE VANDERBILT—Pat. No. 504—Red buds opening to red-dish orange flowers. Very large. Very fragrant.
BREAK O'DAY—More blooms than any hybrid tea. Large and very double. Light apricot shade.
LILY PONS—Pat. No. 420—Hardest. Pearly white with yellow centers.
V FOR VICTORY—Pat. No. 543—Pure yellow. Holds color. Very large and double. Exhibition size and form.
PINK PRINCESS—Pat. No. 459—Holds foliage well. Bud red, flowers deep pink. One of first hybrid teas not to defoliate early.
SHADES OF AUTUMN—Pat. No. 542—Inner side of petals rose red. Outer side glowing yellow.

Climbing Brownells

GUARANTEED TO LIVE OVER WINTER WITHOUT WINTER PROTECTION—Immense Blooms Like Hybrid Teas
GOLDEN GLOW—Pat. No. 263—Rated as one of world's best yellow climbers. Blooms in clusters. \$1 each; 3 for \$2.50; \$10 doz.
COPPER GLOW—The very much desired coppery orange shade. \$1.50 each; 3 for \$3.75; dozen for \$15.
FREDERICK S. PECK—Pat. No. 419—Grenadine red buds open and are overlaid with orange and yellow. \$1 each; 3 for \$2.50.

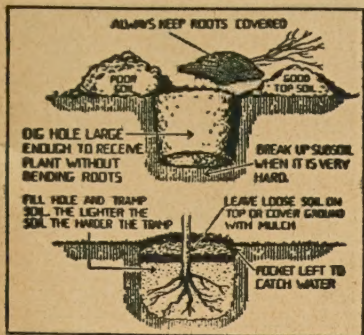

OUR BROWNELL ROSE GUARANTEE

We are so pleased with the success of these extremely hardy roses, we make this almost unbelievable guarantee. We will replace FREE of charge any Brownell Rose—regardless of your climate—that does not live through one entire year.

GURNEY'S Planting Chart and Aids

INDEX

Nursery Planting Tips

Dig a hole large enough to accommodate the roots without crowding, and deep enough so tree can stand $\frac{1}{2}$ in. deeper than it stood in the nursery row. Trim off roots with sharp knife. Loosen soil in hole and set tree, spreading roots out in a natural position. Then, fill in some of the fine top soil, joggling tree up and down to work soil when around roots. Tramp around tree with your feet, and pack the earth real solid so no air pockets remain.

Now fill hole half full of soil using top soil first. Slowly pour on a bucket of water to thoroughly wet soil. Let settle, then fill with earth and tramp down firmly. Leave a depression around the tree to collect and hold moisture.

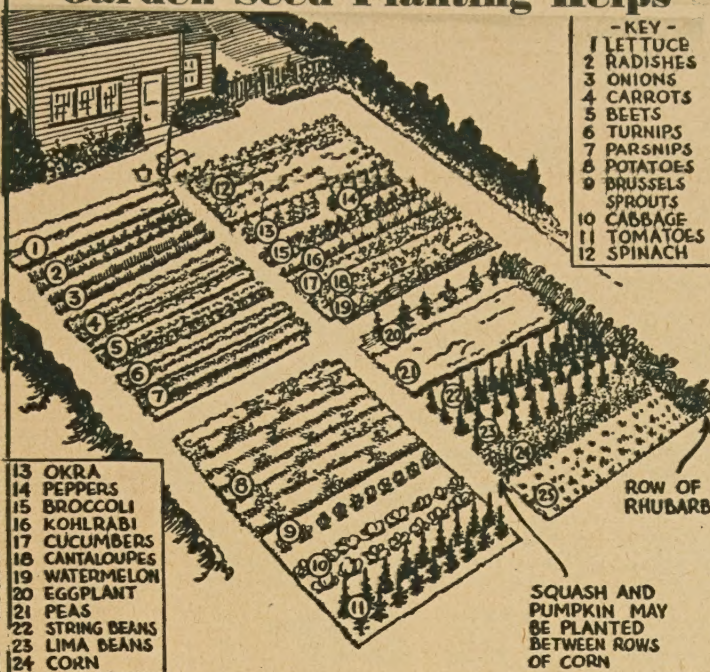

WINTER MULCH. This is very essential to various perennials, lilies and roses. This mulch should not be all leaves alone, unless you can get oak leaves, because leaves pack too tightly. You can make a mixture of leaves and straw and lawn rakings, or wild hay, or small evergreen boughs. This mulch should be put on after the ground has frozen to prevent alternate thawing and freezing.

WATERING. Hoe or cultivate frequently, stirring the ground after rain or watering. In dry weather thorough watering once a week. The best plan is to make a basin around the plant and fill it full of water several times until the ground is soaked 12 inches or more deep. After the water has soaked away, then fill up the basin with dry dirt.

It is much better to let the water run out of the hose without a nozzle than it is to stand and sprinkle with a nozzle.

TRANSPLANTING. Fall or early spring are the times for transplanting, even moving to a new home at some distance. Practically anything can be transplanted if you can take enough of the surrounding soil with the plants. At all times be careful not to disturb the roots or expose them to sun or air. If you must move in the winter when the ground is frozen, dig in the fall, wrap the ball of soil with burlap and place in a dark, cool corner of your basement. Water occasionally, except the strawberries. They are better allowed to be quite dry. Be sure the hole you make for the new place is plenty big.

GURNEY FIELD SEED PLANTING CHART

CROP	Pounds Per Bushel	Rate of Seeding		Time of Seeding		Planting Depth	Approximate Time of Harvest	Approximate YIELDS PER ACRE	HOW TO USE	GENERAL REMARKS
		Drilled	Rows	Spring	Fall					
ALFALFA	LBS. 60	LBS. 12-15	LBS.	April-May	Aug. 1-Sept. 15	Harrow in or rolling better.	When ½ to ½ in bloom.	Seed 2-4 bu. Hay 3 to 5 Tons	Hay, Seed and Pasture. When pasturing be sure to partially feed stock before turning in for week or ten days	Perennial—one crop hay first season. Two or more crops hay, or one hay and seed crop second season. Greatest hay crop known.
BARLEY	48	96		March 15-Apr. 1		1½-3 in.	July			
BLUEGRASS (KY.)	14	25		Mar.-Apr.-May	Aug. 15-Sept. 30	½-1 in.	June 15			
BROME GRASS	14	15-20		Mar.-April	Aug. 15-Sept. 30	¼-½ in.	Sept. 15	Seed 300-500 lbs. Hay 3-4 Tons	Hay—Pasture—two crops per season.	Hardy perennial—high feeding value—Will pasture 50-100% more stock than Alfalfa. No bloating. Easily licked under cultivation (you won't want to get rid of it). First thing green in spring—last in fall.
BUCKWHEAT	52	40-52		June 10-July 10		1-2 in.	Sept.	20-35 bu.	Grain for chicken feed and flour.	
CLOVER, ALSIKE	60	6-8		Feb. 20-April 10		½-1 in.	June, July	1-2 bu.		
HUBAM	60	12-15		Feb., Mar., April		½-1½ in	Sept.-Oct.	2-5 bu.	For Annual Pasture	Sow in Spring. Get seed, pasture or hay first season. Dies first winter, so no trouble to follow with corn.
WH. OR YEL. SWEET	60	12-15		Feb., Mar., April	Aug.-Sept.	½-¾ in.	Aug.-Oct.	2-5 bu.		
UNHULLED SW. CLO.	30	30		Jan. 15-Mar. 1		½-¾ in.	Aug.-Oct.	2-5 bu.		
MAMMOTH CLOVER	60	8-10		Feb. 15-April 15	Aug. 15-Sept. 1	¼-¾ in.	June 20-July 10	2-4 bu.	Old established standby for hay and pasture, and soil building. (Puts Nitrogen into the soil)	Alsike, heaviest yielder on wet ground. All are good basic crops for hay, pasture and rebuilding soils.
RED CLOVER	60	8-10		Feb.-April 15	Aug. 1-Sept. 1	½-1 in.	June 20	1-4 bu.		
CRESTED WHEAT GRASS	20-24	15-20		March-April	Aug. 15-Sept. 30	½-1 in.	June-July	300-500 lbs.	Pasture.	Strictly dry land grass. Will stand extreme drought and cold. Prevents soil erosion because of its deep roots.
FLAX	56	30-40		April		1-1½ in.	July	10-20 bu.	Grain & straw for paper pulp.	Government pushing for oil content—Valuable war product. Profitable because government guarantees price.
LESPEDEZA-KOREAN (ANNUAL)	25	20-25		Feb.-Mar.-April		½ in.	Sept.	300-500 lbs. 1½ Tons hay	Pasture. Fine sour soil legume. Use to rebuild soil. Korean reseeds itself heavily even though you pasture & cut it closely. Makes excellent orchard cover crop.	Every farm should have some Lespedeza. Gives excellent pasture when everything else dry. At its best during July and August. Will grow in poorest soil where nothing else will.
SERICEA (PERENNIAL)	60	12-15		Feb.-Mar.-April		½ in.	When in full bloom			
MILLET	50	30		May 10-July 15		1 in.	For hay when feathering out	20-25 bu. grain 1-1½ Tons hay	Pasture, grain and hay.	Chiefly used as catch crop when additional feed needed or crops down out. Especially good hog or chicken feed.
OATS	32	64		Feb. 15-April 10		1 inch	July	40 to 70 bu.		
ORCHARD GRASS	14	15-20		Feb. 1-June 1	Aug. 1-Sept. 1	½ inch	Before full bloom	200-400 lbs.	Pasture.	Very succulent—does especially well on upland soil.
POPCORN	56		6-8	May		1-2 in.	Oct.-Nov.	1200-3000 lbs.		
RAPE (DWARF ESSEX)	50	5-8		April 1-Aug. 15		½-1 in.	Oct.-Nov.		Pasture especially for hogs and all livestock except cows.	Every farm should have a few acres—Makes excellent hog pasture. Use domestic Dwarf Essex for best results.
RED TOP	14	15-20		Feb. 1-June 1	July 15-Sept. 30	½ in.	When in full bloom	1-1½ Tons hay	Pasture and Hay.	Yields heavily on low, wet ground.
REED CANARY GRASS	24	12-15		Feb.-April	Aug. 1-Sept. 30	½-1 in.	When in full bloom	2-3 Tons hay	Pasture and Hay.	Heaviest yielder of all grasses on wet or flooded ground.
RYE GRASS	24	25-30		April-May		½-¾ in.	When in full bloom		Pasture, cover & nurse crop.	Quick growing annual Good in mixtures to give tender perennials pro- tection until they are well started.
RYE—SPRING	56	60-90		March-May		½-2 in.	July	15 to 30 bu.	Pasture	
WINTER	56	60-90			Sept.-Nov.	1-2 in.	July		Fall Pasture and Grain	
SORGHUM—GRAIN TYPE	50	60	10-12	May-June		1-1½ in.	Sept.	30-50 bu.		
ATLAS SORGO	50	60	10-12	May-June		1-1½ in.	Sept.	15 Tons	Forage, grain and hay. Harvest after seeds reach hard dough stage. Shock, stack and store until well cured. Do not use for pasture except in winter when plants are completely cured.	Highest yielding forage crop known. Almost same feeding value as corn. Cattle eat every bit of long, leafy, sweet and juicy stalk. Both grain and forage of very high quality.
FODDER TYPE	50	60-80	10-12	May-June		1-1½ in.	Sept.	15-18 Tons		
SOYBEANS	60	90-120	60-90	May-June		1½-2 in.	Sept.	15-35 bu. gr. 1-3 Tons hay	Hay and grain—Cut for hay in soft dough stage, for grain when pods fully matured.	Cash crop with ready market. Richest grain in protein, makes fine hay crop, grows well on poor soil. Stock relish greatly. Builds up soil.
SUDAN	40	20-25	3-5	May 10-July 1		½-1 in.	1st cutting as com- ing into bloom 2nd just before frost	Hay 2 Tons per cutting.	Hay and Pasture—2 cuttings of hay a season, or you can take one cutting and pasture, or pasture first and then take cut- ting. Plant when ground is warm.	If you use Certified seed and allow Sudan to grow at least 2 ft. tall you need not fear poisoning. Makes splendid crop on weedy soil and will choke out weeds. Popular annual. Strictly hot weather crop.
TIMOTHY	45	12-15		March-April	Aug. 15-Oct. 30	½-1 in.	June-July	1-1½ Tons Hay Seed 2-5 bu.	Hay or Pasture.	Very Hardy—Will grow on all kinds of soil and under all kinds of con- ditions. Very valuable in mixtures to insure a stand.
WHEAT, SPRING	60	120		March-April 15		1-3 in.	July	15-30 bu.		
WINTER	60	90		Free date to Oct. 20		1-3 in.	July	20-35 bu.

The new deep, blood-red. Very heavy flowered. Tall and vigorous. Price: 19c each; 3 for 49c.

White Knight
The purest, shimmering, glistening white you've ever seen. Enormous spikes. Price: 19c ea.; 3 for 49c, postpaid.

ROYAL PURPLE

Here's the rare shade—almost unheard of in glads—rich, deep, almost black-purple. It's the most unusual glad you'll see in a long time. Very velvety. Unique in glads. Bulbs of the genuine deep purple are scarce, but we have a fair supply. Price: 25c ea.; 3 for 69c, postpaid. (4 Bulbs included in collection above)

Gurney's Giant Peonies

Peonies, like these big plants of ours, we believe give you more bloom and MORE GORGEOUS BLOOM than any other flower you can plant. Easy to raise—simply set root with eye EXACTLY 2 inches under ground in good soil. You'll be rewarded with hundreds of huge double, fragrant blooms. Plant plenty of them. Here are the most choice varieties now grown:

AVALANCHE: Late midseason. Pure snow-white with a touch of carmine in center. 45c.

FELIX CROUSSE: Late midseason. Full, rich, even shade of red. Rich, brilliant, dazzling ruby-red. 49c.

MADAME DUCEL: Midseason. Very large, silvery-lilac pink or mauve rose. Very distinct and floriferous. Indispensable. 45c.

LA ROSIERE: Semi-double mid-season. White petals with center of flower a large disc of golden yellow stamens. 49c.

MODELE DE PERFECTION: Late. Enormous double. A pure, rich deep pink. Strong grower, and beautiful 'til the last petals are gone. 49c.

DUCHESS DE NEMOURS: Early.

Gurney's DECORATION DAY PEONY COLLECTION

The best of early-blooming varieties for cemetery planting and the ones which bloom early—usually for Decoration Day. You get in this bargain offer:

Double white with center light canary yellow which fades white. Dependable and good keeper. 45c.

MARIE JACQUIN: Midseason. Pale pink, changes to white. Big cluster of yellow stamens in center. 39c.

LORD KITCHENER: Very early. Brilliant cherry-red, dazzling hue, free bloomer. 49c.

COURONNE D'OR: Late. White illuminated near center by ring of yellow

stamens. Large floriferous. Very dependable white. 49c.

MONS DUPONT: Midseason. White with yellow glow from buried stamens. Conspicuous crimson blotches on central petals. Large, free blooming. 45c.

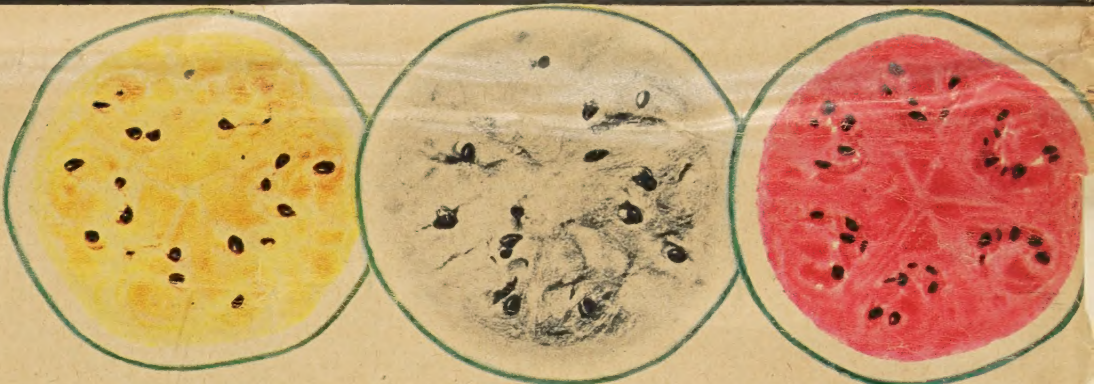

NIGRACANS: Midseason. Dark red, long strong stems. 45c.

MODELE DE
PERFECTION

The Famous Early SUGAR LUMP MELONS

We were fortunate again to get a limited supply of the famous new Sugar Lump Melons. It has caught on like "wild fire." They are the EARLIEST melon we know and absolutely the sweetest. Small individual size—about 8 to 10" through with very thin rind. Come in 3 colors. Red, Yellow (very sweet) and White. Grow anywhere. Ripe by July 4th.

Trial Packet some of all 3 colors mixed: No. 729—Pkt., 15c; 0z., 25c; 1/4 lb., 75c, postpaid.

Yellow Sugar Lumps

The sweetest of all three colors. It will be your favorite. Try it. Pkt., 20c.

White Sugar Lumps

A delicious treat. Looks cool and sweet and is. Almost no rind. Pkt., 19c.

Red Sugar Lumps

The favorite color of most people. Pkt., 19c.

Gurney's DOORWAY EVERGREEN COLLECTION \$1.89

Here's a bargain. An entire doorway planting for only \$1.89. You get 2 tall pyramidal junipers for each side of your doorway and 2 low spreading junipers for planting beside these. Pyramids are dandy trees, 1 1/2 ft. tall. The spreaders—12 to 15 inches across. Makes a beautiful planting for both summer and winter beauty. All 4 evergreens \$1.89. Free—1 Colo. Blue Spruce for lawn planting.

For Bigger Yields of Better Corn, Plant GURNEY'S NORTHERN HYBRIDS

"Grown in the North—For the North"

This Season **\$6.20**
Prices Start at and up

Gurney's Northern Hybrids are rapidly becoming the most widely known and planted in the northern corn belt. The reason is simple. Gurney's inbreeding and crossing is primarily concerned with NORTHERN inbreds and Northern corn for the NORTH. All of our efforts are devoted to making better, heavier yielding corn that will MATURE SAFELY BEFORE FROST. That's why farmers in the North find it pays to get NORTHERN HYBRIDS from Gurney's. This year supplies of early corn are limited. Get yours lined up early.
